Boosters Hustlers And Speculators:

Boosters, Hustlers, and Speculators Jocelyn Wills, 2005 A business history of Minneapolis and St Paul in the nineteenth century tracing their explosive growth from remote outposts to full fledged cities **The Conservative Frontier** Jeff Roche, 2025-10-07 How West Texas business and culture molded the rise of conservatism in the United States Much of what we understand as modern American political conservatism was born in West Texas where today it predominates How did the people of such a vast region larger than New England and encompassing big cities like Lubbock and Amarillo as well as tiny towns from Anson to Dalhart develop such a uniform political culture And why and how did it go national Jeff Roche finds answers in the history of what he calls cowboy conservatism Political power players matter in this story but so do football coaches newspaper editors and a breakfast cereal tycoon who founded a capitalist utopia The Conservative Frontier follows these and other figures as they promoted an ideology grounded in the entrepreneurial and proto libertarian attitudes of nineteenth century Texas ranchers including a fierce devotion to both individualism and small town notions of community responsibility This political sensibility was in turn popularized by its association with the mythology and iconography of the cowboy as imagined in twentieth century mass media By the 1970s and the rise of Ronald Reagan Roche shows it was clear that the cowboy conservatism of West Texas had set the stage for the emergence of the New Right the more professionalized and tech savvy operation that dominated national conservative politics for the next quarter century **Reform Or Repression** Chad Pearson, 2016 Examining the professional lives of a variety of businessmen and their advocates with the intent of taking their words seriously Chad Pearson paints a vivid picture of an epic contest between industrial employers and labor and challenges our comfortable notions of Progressive Era reformers Twin Cities Sports Sheldon Anderson, 2020-02-03 The histories in Twin Cities Sports are rooted in the class ethnic and regional identity of this unique upper midwestern metropolitan area The compilation includes a wide range of important studies on the hub of interwar speedskating the success of Gopher football in the Jim Crow era the integration of municipal golf courses the building of a world renowned park system the Minneapolis Lakers basketball dynasty the Minnesota Twins connections to Cuba and more *The Civil War Era and Reconstruction* Mary Ellen Snodgrass, 2015-03-26 The encyclopedia takes a broad multidisciplinary approach to the history of the period It includes general and specific entries on politics and business labor industry agriculture education and youth law and legislative affairs literature music the performing and visual arts health and medicine science and technology exploration life on the Western frontier family life slave life Native American life women and more than a hundred influential individuals **The Correspondence of Charles Darwin: Volume 25, 1877** Charles Darwin, 2017-10-12 This volume is part of the definitive edition of letters written by and to Charles Darwin the most celebrated naturalist of the nineteenth century Notes and appendixes put these fascinating and wide ranging letters in context making the letters accessible to both scholars and general readers Darwin depended on correspondence to collect

data from all over the world and to discuss his emerging ideas with scientific colleagues many of whom he never met in person The letters are published chronologically volume 25 includes letters from 1877 the year in which Darwin published *Forms of Flowers* and with his son Francis carried out experiments on plant movement and bloom on plants Darwin was awarded an honorary LL D by Cambridge University and appeared in person to receive it The volume contains a number of appendixes including two on the albums of photograph sent to Darwin by his Dutch German and Austrian admirers

Headquarters Economy J. Myles Shaver, 2018-10-18 Metropolitan areas with a high concentration of headquarters from diverse industries stand out as influential dynamic economies However there is little discussion about the characteristics of these headquarters economies Why do some regions develop vibrant headquarters economies whereas others do not The answer lies in understanding the essence of headquarters the managerial talent pool that guides and governs these companies By investigating an exemplar headquarters economy Minneapolis St Paul this volume demonstrates that the talent pool managers its movement among companies and industries in a region mobility and the nature of its inflow and outflow from a region migration can create a virtuous cycle that strengthens regional companies and draws in additional talent Comparing the migration pattern of educated high earning individuals across metropolitan areas in the United States and drawing upon a proprietary survey of thousands of headquarters employees in Minneapolis St Paul this book provides supportive evidence for this dynamic A central insight of the research is that professional managerial talent is a determinant of regional vitality that has largely been overlooked The underlying factors of managers mobility and migration here identified in the context of Minneapolis St Paul exist in metropolitan areas around the world demonstrating the scope of application of the research findings and highlighting the benefit of focusing on these underlying factors **Nature and**

Revelation Jeanne Halgren Kilde, *Nature and Revelation* is an absorbing history of Macalester College from its origins as a Presbyterian secondary school in frontier St Paul to its current presence as a nationally prominent liberal arts college Detailing the college s history Jeanne Halgren Kilde tells stories of the college s influential leaders its defining moments its rapidly changing student life and the sometimes controversial evolution of the school s curriculum and reputation exploring its transformation from a modest evangelical college into a progressive secular institution By highlighting the college s balancing act between nature and revelation between the pursuit of empirical knowledge and religious conviction Kilde traces the impact of changing perceptions of religion and education over Macalester s more than century long history As once religious colleges gradually shed their church ties and negotiated tensions between religious vocational and liberal arts missions they both mirrored and affected the development of education and the trajectory of American Protestantism itself Placing Macalester College in a national context Kilde explores the cultural political and pedagogical challenges and shifts experienced by most U S institutions of higher education during this turbulent period While so doing Kilde uncovers a number of little known aspects of the college s history and explores the facts behind such persistent Mac myths as whether

its most generous supporter Reader s Digest founder DeWitt Wallace actually coaxed a cow into a college building as an undergraduate or later terminated his financial support of the college in objection to what he considered its leftist political sympathies or whether the college s initiative to attract minority students during the 1970s drove its operating budget into an enormous deficit An enlightening and rich history Nature and Revelation documents Macalester College s unique story and reveals its significance to higher education and religion in the United States

The Routledge Companion to the History of Retailing Jon Stobart, Vicki Howard, 2018-11-08 Retail history is a rich cross disciplinary field that demonstrates the centrality of retailing to many aspects of human experience from the provisioning of everyday goods to the shaping of urban environments from earning a living to the construction of identity Over the last few decades interest in the history of retail has increased greatly spanning centuries extending to all areas of the globe and drawing on a range of disciplinary perspectives By offering an up to date comprehensive thematic spatial and chronological coverage of the history of retailing this Companion goes beyond traditional narratives that are too simplistic and Euro centric and offers a vibrant survey of this field It is divided into four broad sections 1 Contexts 2 Spaces and places 3 People processes and practices and 4 Geographical variations Chapters are written in an analytical and synthetic manner accessible to the general reader as well as challenging for specialists and with an international perspective This volume is an important resource to a wide range of readers including marketing and management specialists historians geographers economists sociologists and urban planners

The Populist Vision Charles Postel, 2009 A major reinterpretation of the Populist movement this text argues that the Populists were modern people rejecting the notion that Populism opposed modernity and progress
