Wilson's Tales of the Borders, Etc John Mackay Wilson, 1877

Borders and Immigration Laurence Armand

French, Magdaleno Manzanárez, 2019-10-16 Borders and immigration are topics dominating world affairs during the 21st century including North America This book examines the historical antecedents to the current crisis notably along the U S A Mexico border under the Trump administration Both the immigration and border issues transcend the current Administration with a history as long as that of America itself Market demands often determined the influx of immigrants into the United States resulting in periods of anti immigrant backlash based on race and ethnic factors The geo politics of market factors and immigrant backlash is rooted in both de jure and de facto politics These factors are examined in detail with particular attention to the treatment of indigenous peoples of the Americas

Blood on the Borders Judith Cook, 2003-10-01

This historical thriller whose protagonist is inspired by a real 16th century doctor named Simon Furman is full of period detail that is reflective of the political intrigues of the times On May Day 1592 after a night of revelry and a day tending the sick Forman falls into bed utterly exhausted Soon afterward he is woken by a man on his doorstep who is dying from a sword thrust and the next morning Forman is summoned to Whitehall accused of harboring enemies of the state To prove his innocence he agrees to journey to Edinburgh on a secret spying mission But once he enters the borders between Scotland and England where the bloodthirsty Reivers vow a life for a life he realizes that death is stalking him As one gruesome murder closely follows another Dr Forman must act quickly to identify a ruthless killer before his own life is put in jeopardy

Women and Borders Seema Shekhawat, Emanuela C. Del Re, 2017-12-18

Borders whether settled or contested violent or calm closed or open may have a direct and often acute human impact Those affected may be people living nearby those attempting to cross them and even those who succeed in doing so At the border vulnerable refugee and migrant communities especially women are exposed to state centred boundary practices paving the way for both their alienation and exploitation The militarization of borders subjugates the very position of women in these marginalized areas and often subjects them to further victimization which is facilitated by patriarchal socio cultural practice Structural violence is endemic to these regions and gender interlocks with their perimeters to reinforce and shape violence This book locates gender and violence along geographical edges and critically examines the gendered experiences of women as global border residents and border crossers Broadly it explores two questions First what are women's experiences of engaging with borders Second where are women positioned in the theory and practice of marking remarking and demarking these margins Offering a nuanced and thorough approach this book suggests that research on borders and violence needs to focus on how bordered violence shapes the embodiment of gender identity and norms and how they are challenged It examines an array of issues including forced migration trafficking and cross border ties to explore how gender and borders intersect

Permeable Borders Paul Otto, Susanne Berthier-Foglar, 2020-04-09 If the frontier in all its boundless possibility was a central organizing metaphor for much of U S history today it is arguably the border that best encapsulates the American experience as xenophobia economic inequality and resurgent nationalism continue to fuel conditions of division and limitation This boldly interdisciplinary volume explores the ways that historical and contemporary actors in the U S have crossed such borders whether national cultural ethnic racial or conceptual Together these essays suggest new ways to understand borders while encouraging connection and exchange even as social and political forces continue to try to draw lines around and between people *Reporting at the Southern Borders* Giovanna Dell'Orto, Vicki L. Birchfield, 2013-10-15 Undocumented immigration across the Mediterranean and the US Mexican border is one of the most contested transatlantic public and political issues raising fundamental questions about national identity security and multiculturalism all in the glare of news media themselves undergoing dramatic transformations This interdisciplinary international volume fills a major gap in political science and communication literature on the role of news media in public debates over immigration by providing unique insider s perspectives on journalistic practices and bringing them into dialogue with scholars and immigrant rights practitioners After providing original comparative research by established and emerging international affairs and media scholars as well as grounded reflections by UN and IOM practitioners the book presents candid in depth assessments by nine leading European and North American journalists covering immigration from the frontlines ranging from the Guardian s Southern Europe editor to the immigration reporter for the Arizona Republic Their comparative reflections on the professional institutional and technological constraints shaping news stories offer unprecedented insight into the challenges and opportunities for 21st century journalism to affect public discourse and policymaking about issues critical to the future of the transatlantic space making the book relevant across a wide range of scholarship on the media s impact on public affairs
