Rare Book Division, 1971 Reference tool for Rare Books Collection **Catalog** University of Illinois at Urbana-Champaign. Library. Rare Book Room, 1972 **Hawthorne's Short Stories** Nathaniel Hawthorne, 2011-01-11 Twenty four of the best short stories by one of the early masters of the form in the definitive collection edited by acclaimed scholar Newton Arvin Nathaniel Hawthorne was one of the greatest American writers of the nineteenth century and some of his most powerful work was in the form of fable like tales that make rich use of allegory and symbolism The dark beauty and moral force of his imagination are evident in such enduring masterpieces as Young Goodman Brown in which a young man who believes he has witnessed a satanic initiation can never see his pious neighbors the same way again Rappaccini's Daughter about a lovely young girl who has been raised in isolation among dangerous poisons and The Birthmark in which a scientist obsessed with perfection destroys the flaw that makes his otherwise flawless wife both beautiful and human *The Dixie Limited* M. Thomas Inge, 2016-06-07 Flannery O'Connor once noted The presence alone of Faulkner in our midst makes a great difference in what the writer can and cannot permit himself to do Nobody wants his mule and wagon stalled on the same track the Dixie Limited is roaring down Her railroading metaphor wittily captures much of the respect and unease Faulkner's example brought the worldwide community of authors Few other writers have exerted as profound an influence on literature as Faulkner Prominent literary scholar M Thomas Inge documents the scope of his influence in the twentieth century through the words of those writers themselves This collection of essays offers a survey attempting to capture exactly what Faulkner meant to his literary peers and colleagues both in the United States and abroad Inge has combed essays articles reviews letters and comments written by over forty novelists poets and playwrights about Faulkner's fiction and the power of his literary accomplishment Many major American writers sound off here as well as important figures from France England Japan and South America Some speak about his technical virtuosity and how this expertise has directly influenced them and others express the difficulties of trying to escape his example A few even criticize him for what they see as artistic failures The variety of responses demonstrate in any case that Faulkner created an unavoidable power in his own time and remains a permanent force in literature **Literary Contrasts** Charles Alphonso Smith, 1925 **The Archaic** Paul Bishop, 2011-09-30 The Archaic takes as its major reference points C G Jung's classic essay Archaic Man 1930 and Ernesto Grassi's paper on Archaic Theories of History 1990 Moving beyond the confines of a Jungian framework to include other methodological approaches this book explores the concept of the archaic Defined as meaning old fashioned primitive antiquated the archaic is in fact much more than something very very old it is timeless inasmuch as it is before time itself Arch Urgrund Ungrund primordial darkness eternal nothing are names for something essentially nameless yet whose presence we nevertheless intuit This book focuses on the reception of myth in the tradition of German Idealism or

Romanticism Creuzer Schelling Nietzsche which not only looked back to earlier thinkers such as Jacob Boehme but also laid down roots for developments in twentieth century thought Ludwig Klages Martin Heidegger The Archaic also includes studies of the Germanic dimension of the archaic Charles Bambach Alan Cardew a discussion of the mytho phenomenological approach to the archaic Robert Josef Kozljani a series of articles on Jung's understanding of the archaic Paul Bishop Susan Rowland Robert Segal This book will be of interest to psychoanalysts anthropologists and phenomenologists as well as students of psychology cultural studies religious studies and philosophy as it seeks to rehabilitate a concept of demonstrable and urgent relevance for our time
