The Discovery of Chinese Logic Joachim Kurtz,2011-07-27 This book analyzes the discovery of Chinese logic as a paradigmatic case of the epistemic shifts that have shaped interpretations of China's intellectual heritage Reconstructing the transcultural genealogy of a modern discourse it adds a neglected chapter to the global history of philosophy **Christian Missionaries, Ethnicity, and State Control in Globalized Yunnan** Gideon Elazar,2023-10-31 Following the Communist Revolution of 1949 missionaries were kicked out of China and proselytizing was outlawed However since the beginning of the reform era China has witnessed a massive return of missionary workers Today there are more Christians in church on a given Sunday in China than anywhere else on the globe This book investigates the interaction of Western missionaries ethnic minorities and Han Chinese converts with the Chinese state in an increasingly globalized China Based on extensive ethnographic fieldwork conducted in Yunnan it tries to make sense of the disparity between official state rhetoric and everyday reality Examining morality in the context of the free market system spatial practices linguistic activity and Christian welfare organizations Gideon Elazar reveals the ways in which the previously conflicting Communist Party and Christian civilizing projects have reached a measure of convergence enabling local authorities to treat missionaries with a degree of tolerance Elazar shows how this unofficial arrangement relates to the social realities and challenges of the reform era including ethnic culture and identity Yunnan's many social problems and the integration of ethnic minorities into the state system By exploring the continuously shifting social and religious borders negotiated by converts missionaries and state authorities in Southwest China this book sheds light on the larger issue of contemporary religion in China's global era It will be of interest to researchers of religion Christianity and minority groups in the People's Republic of China The Making of Manhood Among Swedish Missionaries in China and Mongolia, C. 1890-c. 1914 Erik Sidenvall,2009 Over the last thirty years issues of gender have been creatively explored within the field of mission studies Whereas the life and work of female missionaries have been fruitfully reflected upon male gender identity has often been understood as an unchanging category This book offers a pioneering account of the relationship between missionary work and masculinity By examining four individual men this study explores how self making occurred within foreign missions but also how conceptions of male gender informed missionary work Changes that occurred in the lives of these men are placed within the broader context of how issues of gender were renegotiated within the contemporary missionary movement *The Missionary's Curse and Other Tales from a Chinese Catholic Village* Henrietta Harrison,2013-06-01 The Missionary's Curse tells the story of a Chinese village that has been Catholic since the seventeenth century drawing direct connections between its history the

globalizing church and the nation Harrison recounts the popular folk tales of merchants and peasants who once adopted Catholic rituals and teachings for their own purposes only to find themselves in conflict with the orthodoxy of Franciscan missionaries arriving from Italy The village's long religious history combined with the similarities between Chinese folk religion and Italian Catholicism forces us to rethink the extreme violence committed in the area during the Boxer Uprising The author also follows nineteenth century Chinese priests who campaigned against missionary control up through the founding of the official church by the Communist Party in the 1950s Harrison's in depth study provides a rare insight into villager experiences during the Socialist Education Movement and Cultural Revolution as well as the growth of Christianity in China in recent years She makes the compelling argument that Catholic practice in the village rather than adopting Chinese forms in a gradual process of acculturation has in fact become increasingly similar to those of Catholics in other parts of the world

The Russian Orthodox Community in Hong Kong Loretta E. Kim, Chengyi Zhou, 2021-08-23 Hong Kong has been a unique society from its establishment as a political region separate from mainland China in the

nineteenth century under British colonial rule until the present day as a special administrative region of the People's Republic of China. A hub of interregional and international migration, it has been the temporary and long-term home of people belonging to many racial, ethnic, and cultural groups. This book examines the evolution of the community established by clergy and congregants of the Russian Orthodox Church. This community was first developed in the 1930s and then revived after a hiatus of over two decades from the 1970s to the 1990s with the founding of the Orthodox Parish of Apostles Saints Peter and Paul (OPASPP) at the turn of the twenty-first century. This study demonstrates how the OPASPP has become a vital provider of knowledge about Russian language and culture as well as a religious institution serving both heritage and convert believers. The community formed by and around the OPASPP is important to foster Sino-Russian relations based on individual to individual contact and mutual exposure to Chinese and Russian cultures in a region of China which allows spiritual and social diversity with minimal political constraints.

Modern Chinese Religion II: 1850 - 2015 (2 vols.), 2015-10-20. The last of four two-volume sets on the key periods of paradigm shift in Chinese religious and cultural history, this book examines the transformation of values in China since 1850 in the secular realms of economics, science, medicine, aesthetics, media, and gender, and in each of the major religions: Confucianism, Buddhism, Daoism, Christianity, as well as in Marxist discourse. The nation and science are the values invoked most frequently with the market and democracy, a distant second. As in previous periods of fundamental change in Chinese history, rationalization and secularization have played central roles, but interiorization nearly disappears as a driving force. Also in continuity with the past, the state insists on an exclusive right to define and adjudicate orthodoxy. Contributors include Daniel H. Bays, Sébastien Billioud, Adam Yuet Chau, Na Chen, Philip Clart, Walter B. Davis, Arif Dirlik, Thomas David DuBois, Lizhu Fan, David Faure, Melissa Wei Tsing Inouye, Ji Zhe, Xiaofei Kang, Eric I.
