

Circular Economy Planner

Giuliano Dall'O'

Circular Economy Planner:

Circular Economy: Global Perspective Sadhan Kumar Ghosh, 2019-11-01 A circular economy is an alternative to a traditional linear economy make use dispose in which we keep resources in use for as long as possible extract the maximum value from them whilst in use then recover and regenerate products and materials at the end of each service life Circular economy CE is important towards sustainable development resources circulation and conservation involving closing of material loops and cascading used resources to prevent waste occurrence and transforming the resulting residual streams into new secondary resources Strategies and legislative framework for waste management are important steps for development of a more CE where resource efficiency becomes the key driver for both economic growth and environmental protections A few countries achieved good results implementing CE as a replacement of the linear economy Resource managers and planners should thoroughly identify factors to implement CE for societal benefits This book presents how resource consumption is minimized with rational use based on 3Rs legislative framework and government supports towards implementing CE initiatives example of best practices future plans and targets in different countries those are helpful for researchers planners and implementers

Managing the Transition to a Circular Economy Marival Segarra-Oña, Virginia Santamarina-Campos, Ángel Peiró-Signes, 2024-03-13 This open access book presents an interdisciplinary analysis of the current status of the circular economy in the tourism sector This book is presented from the perspective of researchers policymakers and industry Specially aimed at companies in the tourism sector the book offers valuable information in the field of circular economy promoting the design redesign of processes and products The authors emphasize promoting the development and application of new knowledge and technologies to promote innovation in processes products services and business models promoting public private collaboration With contributions from experts representing varied interests throughout the tourism industry the book encourages the involvement of economic and social agents to raise awareness of current environmental economic and technological challenges

Smart and Sustainable Planning for Cities and Regions Adriano Bisello, Daniele Vettorato, David Ludlow, Claudia Baranzelli, 2021-02-09 This open access book offers a selection of research papers and case studies presented at the 3rd international conference Smart and Sustainable Planning for Cities and Regions held in December 2019 in Bolzano Italy and explores the concept of smart and sustainable planning including top contributions from academics policy makers consultants and other professionals Innovation processes such as co design and co creation help establish collaborations that engage with stakeholders in a trustworthy and transparent environment while answering the need for new value propositions The importance of an integrated holistic approach is widely recognized to break down silos in local government in particular when aimed at achieving a better integration of climate energy planning Despite the ongoing urbanization and polarization processes new synergies between urban and rural areas emerge linking development opportunities to intrinsic cultural natural and man

made landscape values The increasing availability of big real time urban data and advanced ICT facilitates frequent assessment and continuous monitoring of performances while allowing fine tuning as needed This is valid not only for individual projects but also on a wider scale In addition and circling back to the first point big urban data and ICT can be of enormous help in facilitating engagement and co creation by raising awareness and by providing insight into the local consequences of specific plans However this potential is not yet fully exploited in standard processes and procedures which can therefore lack the agility and flexibility to keep up with the pulse of the city and dynamics of society The book provides a multi disciplinary outlook based on experience to orient the reader in the giant galaxy of smart and sustainable planning support the transposition of research into practice scale up visionary approaches and design groundbreaking planning policies and tools

Planning and Managing Sustainability in Tourism Anna Farmaki,Levent Altinay,Xavier Font,2022-04-07 This book provides a holistic approach to understand the challenges and opportunities related to the planning and management of sustainable development in tourism The editors present a collection of empirical studies best practice cases and theoretical discussions to draw insights on the economic social environmental and political dimensions of sustainability Specifically using a range of case studies examining sustainability applications within various tourism industry sectors as well as different geographical regions this book is of value to tourism policymakers practitioners academicians and students encouraging them to develop proactive behavior This publication represents an up to date innovative guide in helping readers understand the challenges facing sustainable tourism development and implementation as well as the potential opportunities for both developed and developing nations in pursuing sustainability goals in their tourism plans

Planning and Management of Solar Power from Space Panagiotis Kosmopoulos,2023-08-31 Planning and Management of Solar Power from Space presents for the first time a holistic solar energy management and planning solution using Earth observation data and methodologies giving an alternative view for precise electricity production and handling Including examples of exploiting this solution by transmission and distribution system operators and solar power plants of both Photovoltaic PV and Concentrated Solar Power CSP systems this book showcases real implementations and benefits of Earth observation technology thus providing solar sector professionals an approach for continuously monitoring solar energy production and atmospheric parameter forecasts in high spatial and temporal resolution By guiding readers in tracking solar energy availability in relation to time horizons and forecasting this book addresses potential challenges in research and development since this technology and the extensive use of such data and services enable accurate solar energy estimations and forecasts useful mainly in energy production control and grid stability Includes state of the art solar energy nowcasting technology based on radiative transfer model simulations machine learning computer vision and Earth Observation input data Presents real examples of planning and management of solar power from space including exploitation strategies from transmission and distribution system operators and solar energy plants production optimization Features spectral added

value products and on the fly calculations for operational solutions Transformative Planning Christopher Silver, Andrea Frank, 2021-11-25 The Dialogues in Urban and Regional Planning series offers a selection of some of the best scholarship in urban and regional planning from around the world with internationally recognized authors taking up urgent and salient issues from theory to education for and practice of planning This 7th volume features contributions on the theme of Transformative Planning Smarter Greener and More Inclusive Practices It includes chapters from leading planning scholars and practitioners who critically examine how transformative planning practices seek to reduce inequalities promote sustained inclusive and sustainable economic growth achieve gender equality improve human health and well being foster resilience of urban communities and protect the environment and thereby change urban planning paradigms Several case studies of emerging transformative planning interventions illustrate practical ways forward Transformative Planning offers provocative insights into the global planning community's struggle and contribution to tackle the major challenges to society in the 21st century It will be of use for advanced undergraduate and graduate courses in the wide ranging fields encompassed by urban studies sustainability studies and urban and regional planning The Dialogues in Urban and Regional Planning DURP series is published in association with the Global Planning Education Association Network GPEAN and its member national and transnational planning schools associations *Environmental Planning And Management (Second Edition)* Christian N Madu, 2023-11-28 Competing in today's marketplace requires a holistic view of both products and processes It requires that companies pay attention to their stakeholders in addition to their customers Environmental planning lays the foundation to adapt to the needs of the changing world and avoid the hazards risks and high costs associated with poor environmental practices Written by an expert in chemical safety security management sustainability management disaster risk reduction process change and quality control in environmental planning this book identifies good environmental practices and lays down effective strategies and practical models The book focuses mostly on designing for the environment using sustainable practices to achieve competitiveness Following the successful publication of the 1st edition this edition brings existing chapters up to date as well as introduces new chapters on current topics of concern such as global environmental challenges a circular economy environmental impact assessment climate change and disaster risk reduction and management The case studies presented point to companies that have increased profitability because of their environmental programs This book is intended as an introduction to corporate environmental management and is suitable for basic courses in sustainability management and environmental management and planning Practitioners would also find it helpful as it explains some of the basic concepts and environmental strategies that are in practice today **Sustainable Enterprise Resource Planning (S-ERP) for Industry 4.0** Kushal Anjaria, 2025-10-02 This book delves into integrating sustainable practices within enterprise resource planning S ERP systems framework particularly in the context of Industry 4.0 It offers a comprehensive exploration of how S ERP systems can be developed and implemented to enhance operational

efficiency and promote environmental and social sustainability which is achieved by incorporating cutting edge technologies such as the internet of things IoT artificial intelligence AI and cloud computing which are instrumental in Industry 4.0 Targeted primarily at professionals and academics in business management information technology and sustainability the book will be a crucial resource for those seeking to understand and implement S-ERP solutions It is particularly beneficial for MBA students business strategists ERP consultants and IT professionals involved in planning developing and managing ERP systems Key topics include the principles of sustainable business practices the role of digital technologies in enhancing ERP systems and the challenges and opportunities presented by Industry 4.0 The book also provides practical insights into implementing S-ERP systems offering case studies and real world examples to illustrate key concepts It is thus not just an academic treatise but a practical guide that addresses the need for a new ERP approach in the digital transformation age It seeks to equip its readers with the knowledge and tools required to successfully navigate the complexities of modern business environments emphasising the importance of sustainability in achieving long term success In summary this book is a vital addition to the literature on ERP systems offering a fresh perspective on how businesses can evolve to meet the demands of the 21st century while maintaining a commitment to sustainability

Routledge Handbook of Planning and Management of Global Strategic Infrastructure Projects Edward Ochieng, Tarila Zuofa, Sulafa Badi, 2020-12-30 This book examines complex challenges in managing major strategic economic and social infrastructure projects It is divided into four primary themes value based approach to infrastructure systems appraisal enabling planning and execution financing and contracting strategies for infrastructure systems and digitising major infrastructure delivery Within these four themes the chapters of the book cover the value and benefits of infrastructure projects planning for resilient major infrastructure projects sustainable major infrastructure development and management including during mega events improving infrastructure project financing stakeholder engagement and multi partner collaborations delivering major infrastructure projects effectively and efficiently whole life cycle performance operations and maintenance relationship risks on major infrastructure projects public private partnerships design thinking principles and innovation and technology By drawing on insights from their research the editors and contributors bring a fresh perspective to the transformation of major strategic infrastructure projects This text is designed to help policymakers and investors select and prioritise their infrastructure needs beyond the constraining logic of political cycles It offers a practical set of recommendations for governments on attracting private capital for infrastructure projects while creating clear social and economic value for their citizens Through theoretical underpinning empirical data and in depth informative global case studies the book presents an essential resource for students researchers practitioners and policymakers interested in all aspects of strategic infrastructure planning project management construction management engineering and business management

Green Planning for Cities and Communities Giuliano Dall'O', 2020-03-21 This book addresses key issues across the field of sustainable urban planning and

provides a unique reference tool for planners engineers architects public administrators and other experts The evolution of cities and communities is giving rise to pressing energy and environmental problems that demand concrete solutions In this context urban planning is inevitably a complex activity that requires a sound analytical interpretation of ongoing developments multidisciplinary analysis of the available tools and technologies appropriate political management and the ability to monitor progress objectively in order to verify the effectiveness of the policies implemented This book is exceptional in both the breadth of its coverage and its focus on the interactions between different elements Individual sections focus on strategies and tools for green planning energy efficiency and sustainability in city planning sustainable mobility rating systems and the smart city approach to improving urban scale sustainability The authors draw on their extensive practical experience to provide operational content supplementing the theoretical and methodological elements covered in the text and each section features informative case studies
