I'm With Crazy Luke Cruickshank, Mental illness is the default state of every human being on the planet The truth is that we're all crazy If you don't believe me then try telling that to the voices in your head We all know this is true Every one of us lives out our lives with an entire collection of voices in our heads and this is completely normal Some voices are helpful some are empowering and some are even kind to others But then there are the other voices The tyrannical ones who torment and exploit us The ones who tell us that we're stupid that nobody likes us that we're unworthy of love and who constantly remind us that we're on the verge of being exposed as the incompetent imposter that we truly are Why do we do this to ourselves Why as a society do we condemn bullying yet accept the spiteful belittling critical bullies that live in our

heads Why won't these voices go away and who put them there in the first place Whether we recognize it or not we're all innately predisposed to mental illness This conversation will help us understand the biological psychological and cultural vulnerabilities that push us toward mental illness It's only once we understand these issues that we can learn how to take the actions necessary to enhance our mental health It's time to face our inner critics It's time to stop posturing and playing the character that we're expected to be It's time to show up to the world as our true authentic selves Together we'll learn how to embrace our inner crazy how to make friends with the voices in our heads and how to redefine the culture of mental health
