A New Deal For Coal:

An Appalachian New Deal Jerry Bruce Thomas,1998-01-01 The Depression had already begun in West Virginia before the stock market crash of November 1929 and lasted until the coming of war in 1941 In tracing the responses of the people and government of West Virginia during the Depression historian Jerry Thomas not only deals with politics and institutions but also tells about ordinary people during the worst conditions in the state s history 18 photos **The Great Depression and the New Deal** Robert F. New Deal Robert P. Murphy, 2009-03-31 In this timely new P I Guide Murphy reveals the stark truth free market failure didn't cause the Great Depression and the New Deal didn't cure it Shattering myths and politically correct lies he tells why World War II didn't help the economy or get us out of the Great Depression why it took FDR to make the Depression Great and why Herbert Hoover was more like Obama and less like Bush than the liberal media would have you believe Free market believers and capitalists everywhere should have this on their bookshelf and in their briefcases *The New Deal Collective*

Bargaining Policy Irving Bernstein, 2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1950 **The Judicial Response to the New Deal**

Richard A. Maidment, 1991 **Rethinking the New Deal Court** Barry Cushman, 1998-02-26 Rethinking the New Deal Court The Structure of a Constitutional Revolution challenges the prevailing account of the Supreme Court of the New Deal era which holds that in the spring of 1937 the Court suddenly abandoned jurisprudential positions it had staked out in such areas as substantive due process and commerce clause doctrine In this view the impetus for such a dramatic reversal was provided by external political pressures manifested in FDR's landslide victory in the 1936 election and by the subsequent Court packing crisis Author Barry Cushman by contrast discounts the role that political pressure played in securing this constitutional revolution Instead he reorients study of the New Deal Court by focusing attention on the internal dynamics of doctrinal development and the role of New Dealers in seizing opportunities presented by doctrinal change Recasting this central story in American constitutional development as a chapter in the history of ideas rather than simply an episode in the history of politics Cushman offers a thoroughly researched and carefully argued study that recharacterizes the mechanics by which laissez faire constitutionalism unraveled and finally collapsed during FDR's reign Identifying previously unseen connections between various lines of doctrine Cushman charts the manner in which *Nebbia v New York*'s abandonment of the distinction between public and private enterprise hastened the demise of the doctrinal structure in which that distinction had played a central role *Catholic New Deal* Kenneth J. Heineman, 2010-11-01 **The New Deal Lawyers** Peter H.

Irons, 2020-10-06 From the perspective of young lawyers in three key New Deal agencies this book traces the path of crucial constitutional test cases during the years from 1933 to 1937 **Routledge Handbook on the Green New Deal** Kyla Tienhaara, Joanna Robinson, 2022-08-26 In recent years the Green New Deal has moved from relative obscurity to front and centre of policy discussions and public debates about how to respond to the climate crisis It has been credited with radically changing the nature of the conversation on climate change and with re energizing the environmental movement at a critical time All Green New Deal proposals share an emphasis on the need for governments rather than markets to lead the energy transition However they differ in other respects This Handbook analyses the fundamentals underlying all Green New Deals as

well as exploring national and regional variations It is divided into three parts The first part examines the political economy of the Green New Deal focussing not just on how proposals will be costed but also on opportunities for a fundamental transformation of both national economies and the global economic system The second part explores issues of justice which are central to many Green New Deal proposals including Indigenous rights racial and gender equity and justice for the Global South In the third part authors detail case studies of Green New Deal proposals and plans at the local national and regional level This book will be an invaluable research and reference volume for students and scholars in economics politics sociology geography and environmental studies It should also be of interest to those actively involved in climate and environmental policymaking
