Measurement in Medicine Leah McClimans, 2017-10-11 Measurement in Medicine brings together for the first time a range of philosophical essays on topics in the philosophy of epidemiology epistemology of measurement philosophy of health economics and health policy that address pressing questions of assessment and evaluation in medicine Ranging from questions about the methodology of measuring instruments to the role of measurement in health policy decisions this volume spans the essential topics for anyone interested in understanding the philosophical issues at stake in the growing industry of health and health care evaluation Fundamentals of Demographic Analysis: Concepts, Measures and Methods Gordon A. Carmichael, 2015-11-04 This book offers an ideal introduction to the analysis of demographic data Inside readers of all quantitative skill levels will find the information they need to develop a solid understanding of the methods used to study human populations and how they change over time due to such factors as birth death and migration The comprehensive systematic coverage defines basic concepts and introduces data sources champions the use of Lexis diagrams as a device for visualizing demographic measures highlights the importance of making comparisons whether over time or between populations at a point in time that control for differences in population composition describes approaches to analyzing mortality fertility and migration and details approaches to the important field of population projection Throughout the author makes the material accessible for readers through careful exposition the use of examples and other helpful features This book's thorough coverage of basic concepts and principles lays a firm foundation for anyone contemplating undertaking demographic research whether in a university setting or in a professional employment that takes on a demographic dimension requiring in house training Handbook of Income Inequality Measurement Jacques Silber, 2012-12-06 Amartya Sen Equality I spoke the word As if a wedding vow Ah but I was so much older then I am younger than that now Thus sang Bob Dylan in 1964 Approbation of equality varies not only with our age though it is not absolutely clear in which direction the values may shift over one's life time but also with the spirit of the times The 1960s were good years for singing in praise of equality The spirit of the present times would probably be better reflected by melodies in admiration of the Federal Reserve System And yet the technical literature on the evaluation and measurement of economic inequality has grown remarkably over the last three decades Even as actual economic policies especially in North America and Europe have tended to move towards focusing on virtues other than the avoidance of economic inequality the professional literature on assessing and gauging economic inequality has taken quite a jump forward A great many different problems have been addressed and effectively sorted out and new problems continue to be posed and analyzed The Contents A Review Jacques Silber has done a great service to the subject by producing this collection of admirably helpful and illuminating papers on different aspects of the measurement of income inequality The reach of this collection is quite remarkable Along with a thorough overview from the editor himself the major areas in this complex field have been carefully examined and accessibly discussed Formal

Aspects of Measurement Tim Denvir, Rosalind Herman, Robin Whitty, 2012-12-06 This book contains the eight invited papers presented at the workshop on Formal Aspects of Measurement held at South Bank University on 5th May 1991 organised by the British Computer Society's Special Interest Group on Formal Aspects of Computer Science FACS In addition there are five papers which have been included because of their relevance to the subject of the workshop The book represents something of a landmark in software engineering research The British Computer Society's Special Interest Group on Formal Aspects of Computer Science FACS has an established reputation among researchers in formal methods of software specification design and validation These researchers have not in the past paid much attention to software measurement Perhaps software measurement research was felt to have emphasised its management potential at the expense of proper scientific foundations At any rate for the FACS group to host a workshop in this field is recognition of the significant body of formal measurement theories and techniques which has now become available to software engineers *Business Statistics: Problems & Solutions* Sharma J.K., This book meets the specific and complete requirements of students pursuing MBA PGDBM B Com M Com MA Eco CA ICWA BBA BIS BIT BCA etc courses who need to understand the basic concepts of business statistics and apply results directly to real life business problems The book also suits the requirements of students who need practical knowledge of the subject as well as for those preparing for competitive examinations *The London, Edinburgh, and Dublin Philosophical Magazine and Journal of Science*, 1861 **The London, Edinburgh and Dublin Philosophical Magazine and Journal of Science**, 1861 **London, Edinburgh and Dublin Philosophical Magazine and Journal of Science**, 1861 **The London, Edinburgh, and Dublin philosophical magazine and journal of science** Naturforschende Gesellschaft in Zürich, 1861 Philosophical Magazine, 1870
