Academic Janus Reece McGee, Higher Education, 1981      **Academic Janus** Reece Jerome McGee, 1971      **When Power Corrupts** Lionel S. Lewis, 2018-04-17 It is often said that the American academic protected by tenure is free to do pretty much as he or she pleases Lewis argues that this freedom is largely an illusion Faculty actions are greatly limited by governing boards and the academic administrators they appoint who control institutional resources Although ostensibly independent professionals in many ways faculty have no more autonomy than most employees Indeed what power they have derives from faculty student relationships Lay governing boards ultimately control how money is spent and who spends it This volume addresses issues relating to current debates over the most appropriate and effective method of academic governance When Power Corrupts details the conflict between the governing board and administration and faculty at Adelphi University in Garden City New York between 1985 and 1996 This conflict culminated in the removal of the Board of Trustees by the New York State Board of Regents The new trustees in turn removed the president Although the book focuses on board administration faculty relations at one university its findings have implications for almost all other institutions of higher learning in the United States Lewis draws on the nearly 8 000 page transcript of the hearings of the Regents These eleven volumes of exhibits include hundreds of documents obtained from individuals and organizations Lewis suggests that academic administrators have more control of governing boards than is generally recognized Besides influencing who is asked to join a board administrators may largely determine the information boards receive and on which they must make decisions When faced with decisions boards often defer to academic administrators or acquiesce to a campus president's suggestions Because conflict over governance all too often takes precedence over academic work on American campuses the implications for higher learning are profound Faculty academic administrators members of governing boards college students and their parents and general readers concerned about problems relating to American higher education will find this book provocative and informative Lionel S Lewis is professor emeritus of sociology and adjunct professor of higher education at SUNY Buffalo He has written more than 150 research articles essays and reviews He is the author of Cold War on Campus A Study of the Politics of Organizational Control and The Cold War and Academic Governance The Lattimore Case at Johns Hopkins      **Higher Education** D. Kent Halstead, 1981      **AAUP Bulletin** American Association of University Professors, 1972      **Higher Education as a Moral Enterprise** Edward LeRoy Long Jr., 1992-07-01 Long argues that higher education is a moral enterprise and that as such it must be guided by a commitment to what is morally right and fundamentally good not just by what is necessary in intellectual or financial endeavors      Key Resources on Teaching, Learning, Curriculum, and Faculty Development Robert J. Menges, B. Claude Mathis, 1988-11-11 A comprehensive authoritative guide to over six hundred books and articles on teaching learning curriculum and faculty development in colleges and universities      **Faculty Tenure** Commission on Academic Tenure in Higher Education, 1973      The Hidden

Professoriate Arthur Wilke, 1979-03-28 Wilke has called upon sociologists observers as well as victims of the caste system to describe by use of case studies and to analyze the plight of non tenured faculty and their efforts to survive in an increasingly hostile environment These stories reveal the human factor too often slighted or forgotten in discussions of the precarious place of the university in today s society
