Cramer, 2007-07-30 Based on the arrangement of *The Poetry of Robert Frost* 1969 Part One of this work attempts to identify Frost's intentions by placing each poem in the biographical historical and geographical context of his life It further examines conscious and unconscious points of association annotates words and phrases and provides when possible a date of composition along with the place of publication Part Two consists of an annotated bibliography of poems published during Frost's life but uncollected at the time of his death and those published posthumously or yet collected **American Poets and Poetry** Jeffrey Gray, Mary McAleer Balkun, James McCorkle, 2015-03-10 The ethnically diverse scope broad chronological coverage and mix of biographical critical historical political and cultural entries make this the most useful and exciting poetry reference of its kind for students today American poetry springs up out of all walks of life its poems are maternal as well as paternal stuff'd with the stuff that is coarse and stuff'd with the stuff that is fine as Walt Whitman wrote adding Of every hue and caste am I of every rank and religion Written for high school and undergraduate students this two volume encyclopedia covers U S poetry from the Colonial era to the present offering full treatments of hundreds of key poets of the American canon What sets this reference apart is that it also discusses events movements schools and poetic approaches placing poets in their social historical political cultural and critical contexts and showing how their works mirror the eras in which they were written Readers will learn about surrealism ekphrastic poetry pastoral elegy the Black Mountain poets and language poetry There are long and rich entries on modernism and postmodernism as well as entries related to the formal and technical dimensions of American poetry Particular attention is paid to women poets and poets from various ethnic groups Poets such as Amiri Baraka Nathaniel Mackey Natasha Trethewey and Tracy Smith are featured The encyclopedia also contains entries on a wide selection of Latino and Native American poets and substantial coverage of the avant garde and experimental movements and provides sidebars that illuminate key points **Twentieth-Century American Poetry** Christopher MacGowan, 2008-04-15 Written by a leading authority on William Carlos Williams this book provides a wide ranging and stimulating guide to twentieth century American poetry A wide ranging and stimulating critical guide to

twentieth century American poetry Written by a leading authority on the innovative modernist poet William Carlos Williams Explores the material historical and social contexts in which twentieth century American poetry was produced Includes a biographical dictionary of major writers with extended entries on poets ranging from Robert Frost to Adrienne Rich Contains a section on key texts considering major works such as *The Waste Land* *North South* *Howl* and *Ariel* The final section draws out key themes such as American poetry politics and war and the process of anthologizing at the end of the century **Back from the Far Field** Bernard W. Quetchenbach, 2000 Many poets writing after World War II have found the individual focus of contemporary poetics poorly suited to making statements directed at public issues and public ethics The desire to invest such individualized poetry with greater cultural authority presented difficulties for Vietnam protest poets for example and it has been a particular challenge for nature writers in the Thoreau tradition who have attempted to serve as advocates for the natural world Examining the implications of this dilemma Bernard W Quetchenbach locates the poets Robert Bly Gary Snyder and Wendell Berry within two traditions the American nature writing tradition and the newer tradition of contemporary poetics He compares the work of two other twentieth century poets Robinson Jeffers and Theodore Roethke to illustrate how the contemporary shift toward a poetics focused on the poet's life has affected portrayals of nature and the public voice in poetry Turning back to the work of Bly Snyder and Berry Quetchenbach assesses their attempts to reinvent the public voice in the context of contemporary poetics and what effect these attempts have had on their work He argues that these poets have learned from their postwar generation techniques for adapting a personalized poetics to environmental advocacy In addition to modifying what critics have called the poetics of immediacy these poets have augmented their poetic output with prose and identified themselves with long standing traditions of poetic ethical and spiritual authority In doing so Bly Snyder and Berry have attempted to solve not only a problem inherent in contemporary poetics but also the larger problem of the role of the poet in a society that does not recognize poetry While it would be an overstatement to suggest that these three figures have found a place for the poet in American life they have reached audiences that extend beyond traditional readers of poetry At the end of the twentieth century Quetchenbach concludes poets have begun to identify and direct their writing to specific audiences defined less by aesthetic preferences and more by a shared interest in and dedication to the work's subject matter Whether revealing a disturbing trend for poetry or an encouraging one for environmentalism and other political causes it is one of many provocative conclusions Quetchenbach draws from his examination of postwar nature poetry

Sustainable Poetry Leonard M. Scigaj, 2021-12-15 Focusing on the work of A R Ammons Wendell Berry W S Merwin and Gary Snyder author Leonard Scigaj shows that just as a sustainable society does not depreciate its resource base so a sustainable poetry does not restrict interest to language Over the past thirty years many poets have shown an increasing sensitivity to ecological thinking But critics trained in poststructuralist language theory often fail to explore the substance of ecopoetry Scigaj is the first to define ecopoetry as separate and distinct from nature or environmental poetry marked by its

concern with balancing the interests of human beings with the needs of nature Just as science learned that the earth was not the center of the universe ecopoetry insists on the recognition that humans are not at the center of the natural world **The**
