

The background of the book cover is a complex, layered collage of abstract expressionist art. It features various textures, including what appears to be a reproduction of Jackson Pollock's 'Number 1, 1950' (a black and white version of his famous drip painting) and other gestural, expressive brushstrokes and patterns in black, white, and grey. The overall effect is one of dynamic, non-representational energy.

Abstract Expressionism Creators And Critics:

Abstract Expressionism Clifford Ross, 1990 Purpose of book is to present most information about abstract expressionism by its creators and its critics **The Culture of Spontaneity** Daniel Belgrad, 1999-10 In the first comprehensive history of the postwar avant garde Belgrad contributes valuable insight and original scholarship to the study of projective and spontaneous aesthetics among cutting edge art movements of the American midcentury Tom Clark author of Jack Kerouac A Biography 8 color plates 28 halftones Copyright Libri GmbH All rights reserved Great Art Critics (1750-2000) J. Pedro Lorente, 2020-04-01 The art world has become a point of contention within a range of debates and yet strangely enough while art criticism has been discussed at length very little is said about art critics Following in the footsteps of Lionello Venturi's History of Art Criticism in the current volume Lorente provides an updated reassessment of the great art critics from the Enlightenment down to the turn of the millennium Conceived as a didactic handbook with a recommended bibliography at the end of each chapter this concise work tells the history of a profession in permanent crisis while also paying homage to its most influential practitioners in different cultural contexts **The Grove Encyclopedia of American Art** Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries A Dictionary of the Avant-Gardes , 2013-05-13 A Dictionary of the Avant Gardes recognizes that change is a driving force in all the arts It covers major trends in music dance theater film visual art sculpture and performance art as well as architecture science and culture *Art, Agency and the Continued Assault on Authorship* Simon Blond, 2022-10-31 This book presents a counter history to the relentless critique of the humanist subject and authorial agency that has taken place over the past fifty years It is both an interrogation of that critique and the tracing of an alternative narrative from Romanticism to the twenty first century which celebrates the agency of the artist as a powerful contribution to the wellbeing of the community It does so through arguments based on philosophical aesthetics and cultural theory interspersed with case histories of particular artists It also engages with a second issue that cannot be separated from the first This is the question of what the role and purpose of art is in society This has become particularly important since the 1990s because of the social turn in art in which it is claimed that the only valid role for art was one that had explicit social consequences This book argues that a political role for art is valuable but not the only one that can be envisaged nor indeed is it the most obvious or most important Art has other social roles both as a means to engender empathy and community and to re enchant a world bereft of meaning and reduced to material values The book will appeal to practising artists as well as scholars working in art history philosophy aesthetics and curatorial studies *A Companion to Contemporary Art Since 1945* Amelia Jones, 2009-02-09 A Companion to Contemporary Art is a major survey covering the major works and movements the most important theoretical developments and the historical social political and aesthetic issues in contemporary art since 1945 primarily in the Euro American context Collects 27 original essays by expert scholars describing the current state of

scholarship in art history and visual studies and pointing to future directions in the field Contains dual chronological and thematic coverage of the major themes in the art of our time politics culture wars public space diaspora the artist identity politics the body and visual culture Offers synthetic analysis as well as new approaches to debates central to the visual arts since 1945 such as those addressing formalism the avant garde the role of the artist technology and art and the society of the spectacle

What Art Is Michelle Kamhi, Louis Torres, 2016-05-26 What is art The arts establishment has a simple answer anything is art if a reputed artist or expert says it is Though many people are skeptical about the alleged new art forms that have proliferated since the early twentieth century today's critics claim that all such work however incomprehensible is art A groundbreaking alternative to this view is provided by philosopher novelist Ayn Rand 1901-1982 Best known as the author of *The Fountainhead* and *Atlas Shrugged* Rand also created an original and illuminating theory of art which confirms the widespread view that much of today's purported art is not really art at all In *What Art Is* Torres and Kamhi present a lucid introduction to Rand's esthetic theory contrasting her ideas with those of other thinkers They conclude that in its basic principles her account is compelling and is corroborated by evidence from anthropology neurology cognitive science and psychology The authors apply Rand's theory to a debunking of the work of prominent modernists and postmodernists from Mondrian Jackson Pollock and Samuel Beckett to John Cage Merce Cunningham and other highly regarded postmodernist figures Finally they explore the implications of Rand's ideas for the issues of government and corporate support of the arts art law and art education This is one of the most interesting provocative and well written books on aesthetics that I know While fully accessible to the general reader *What Art Is* should be of great interest to specialists as well Ayn Rand's largely unknown writings on art especially as interpreted released from dogma and smoothed out by Torres and Kamhi are remarkably refined Moreover her ideas are positively therapeutic after a century of artistic floundering and aesthetic quibbling Anyone interested in aesthetics in the purpose of art or in the troubling issues posed by modernism and post modernism should read this book Randall R Dipert Author of *Artifacts Art Works and Agency* Torres and Kamhi effectively situate Rand's long neglected esthetic theory in the wider history of ideas They not only illuminate her significant contribution to an understanding of the nature of art they also apply her ideas to a trenchant critique of the twentieth century's advanced art Their exposure of the invalidity of abstract art is itself worth the price of admission Chris Matthew Sciabarra Author of *Ayn Rand The Russian Radical* Rand's aesthetic theory merits careful study and thoughtful criticism which Torres and Kamhi provide Their scholarship is sound their presentation is clear and their judgment is refreshingly free from the biases that Rand's supporters and detractors alike tend to bring to considerations of her work Stephen Cox University of California San Diego

Homemade Esthetics Clement Greenberg, 2000-10-19 Thanks to his unsurpassed eye and his fearless willingness to take a stand Clement Greenberg 1909-1994 became one of the giants of 20th century art criticism a writer who set the terms of critical discourse from the moment he burst onto the scene with his seminal essays

Avant Garde and Kitsch 1939 and Towards a Newer Laocoon 1940 In this work which gathers previously uncollected essays and a series of seminars delivered at Bennington in 1971 Greenberg provides his most expansive statement of his views on taste and quality in art arguing for an esthetic that flies in the face of current art world fashions Greenberg insists despite the attempts from Marcel Duchamp onwards to escape the jurisdiction of taste by producing an art so disjunctive that it cannot be judged that taste is inexorable He argues that standards of quality in art the artist s responsibility to seek out the hardest demands of a medium and the critic s responsibility to discriminate are essential conditions for great art The obsession with innovation the epidemic of newness leads in Greenbergs view to the boringness of so much avant garde art He discusses the interplay of expectation and surprise in aesthetic experience and the exalted consciousness produced by great art Homemade Esthetics allows us particularly in the transcribed seminar sessions never before published to watch the critics mind at work defending and at times reconsidering his theories His views often controversial are the record of a lifetime of looking at and thinking about art as intensely as anyone ever has **No Sense of Place** Joshua Meyrowitz,1986-12-11 Meyrowitz addresses the question of how television has affected our everyday lives by advancing the theory that television and other electronic media create new social situations that no longer depend on where we are or who is with us Television he claims has lifted the veils of secrecy between children and adults men and women and politicians and average citizens resulting in a series of revolutionary changes that have blurred the distinctions of age gender and authority
