Academic Achievement Of Minority Students Perspectives Practices And Prescriptions:

The Academic Achievement of Minority Students Sheila T. Gregory, 2000-01-19 Throughout the world students of color experience failure in school for a variety of very complex reasons They often do not receive the proper encouragement from teachers they may lack the motivation necessary to excel in an academic environment they usually face a number of demographic socioeconomic and cultural factors that work against them or their academic performance may not be measured properly With contributions from scholars living in the U S and abroad The Academic Achievement of Minority Students is a comprehensive work that provides fresh insights and practical strategies for addressing these problems in order to enhance minority student performance in school The papers in this volume collectively cover the many issues affecting minority students from kindergarten through post secondary education including the instructional and nonacademic factors that promote achievement or lead to attrition Most importantly the authors offer valuable prescriptions for advancing the learning opportunities of all students in the future

High-Achieving Latino Students Susan J. Paik, Stacy M. Kula, Jeremiah J. González, Verónica V. González, 2020-03-01 High Achieving Latino Students Successful Pathways Toward College and Beyond addresses a long standing need for a book that focuses on the success not failure of Latino students While much of the existing research works from a deficit lens this book uses a strength based approach to support Latino achievement Bringing together researchers and practitioners this unique book provides research based recommendations from early to later school years on what works for supporting high achievement Praise for High Achieving Latino Students This book focuses on an important issue about which we know little There are many lessons here for both scholars and educators who believe that Latino students can succeed I congratulate the authors for taking on this timely and significant topic Guadalupe Vald s Ph D Bonnie Katz Tenenbaum Professor in Education Stanford University Author of Con Respeto Bridging the Distances Between Culturally Diverse Families and Schools This is a must read book for leaders in institutions of both K 12 and higher education who want to better understand success factors

of Latino students in the US Using a strength based framework to understand and support Latino achievement is a new paradigm that must be considered by all Loui Olivas Ed D President American Association of Hispanics in Higher Education In addition to being the right book at the right time these editors should be congratulated for giving us a stellar example of how a research practice collaboration comes together to produce such a valuable and lasting contribution to the field of school reform and improvement Those who work in schools universities think tanks and policymaking centers have been waiting anxiously for this kind of book and it s now here Carl A Cohn Ed D Former Executive Director California Collaborative for Educational Excellence CA State Board of Education member and Superintendent There may not be a silver bullet for solving the so called problem of Latino underachievement but well conceived solutions do exist This powerful book offers strength and asset based frameworks that demonstrate Latino achievement is possible Read this text to not only get informed but to also get nurtured and inspired Angela Valenzuela Ph D Professor in Education University of Texas at Austin Author of Subtractive Schooling US Mexican Youth and the Politics of Caring

The Brilliance of Black Children in Mathematics Jacqueline Leonard,Danny B. Martin,2013-03-01 This book is a critically important contribution to the work underway to transform schooling for students who have historically been denied access to a quality education specifically African American children The first section of the book provides some historical perspective critical to understanding the current state of education in the U S specifically for the education of African American children The following sections include chapters on policy learning ethnomathematics student identity and teacher preparation as it relates to the mathematical education of Black children Through offering counternarratives about mathematically successful Black youth advocating for a curriculum that is grounded in African American culture and ways of thinking providing shining examples of the brilliance of Blacks students and promoting high expectations for all rather than situating students as the problem the authors of this book provide powerful insights related to the teaching and learning of mathematics for African American students As is made evident in this book effective teaching involves much more than just engaging students in inquiry based pedagogy Kitchen 2003 The chapters offered in this book demonstrate how mathematics instruction for African American students needs to take into account historical marginalization and present day policies that do harm to Black students Kunjufu 2005 Empowering mathematics instruction for African American students needs to take into consideration and promote students cultural spiritual and historical identities Furthermore mathematics instruction for African American students should create opportunities for students to express themselves and the needs of their communities as a means to promote social justice both within their classrooms and communities

Black American Males in Higher Education Henry T. Frierson,Willie PearsonJr.,James H. The Ocean in the School Rick

Bonus,2020-02-07 In *The Ocean in the School* Rick Bonus tells the stories of Pacific Islander students as they and their allies struggled to transform a university they believed did not value their presence Drawing on dozens of interviews with students he taught advised and mentored between 2004 and 2018 at the University of Washington Bonus outlines how despite the university's promotion of diversity and student success programs these students often did not find their education to be meaningful leading some to leave the university As these students note they weren't failing school the school was failing them Bonus shows how students employed the ocean as a metaphor as a way to foster community and to transform the university into a space that valued meaningfulness respect and critical thinking In sharing these students insights and experiences Bonus opens up questions about measuring student success the centrality of antiracism and social justice to structurally reshaping universities and the purpose of higher education

Handbook on Personalized Learning for States, Districts, and Schools Marilyn Murphy, Sam Redding, Janet Twyman, 2016-07-01 The recent passage of the Every Student Succeeds Act ESSA presents new opportunities and greater flexibility in efforts to personalize learning for all children The Handbook on Personalized Learning for States Districts and Schools provides insight and guidance on maximizing that new flexibility Produced by the Center on Innovations in Learning CIL one of seven national content centers funded by the U S Department of Education this volume suggests how teachers can enhance personalized learning by cultivating relationships with students and their families to better understand a child's learning and motivation Personalized learning also encourages the development of students metacognitive social and emotional competencies thereby fostering students self direction in their own education one aimed at mastery of knowledge and skills and readiness for career and college Chapters address topics across the landscape of personalized learning including co designing instruction and learning pathways with students variation in the time place and pace of learning including flipped and blended classrooms and using technology to manage and analyze the learning process The Handbook's chapters include Action Principles to guide states districts and schools in personalizing learning

Critical Pedagogy Peter McLaren, Joe L. Kincheloe, 2007 Our educational system is in turmoil Many would argue that it has been assaulted and oversimplified by the right There is growing concern that we are becoming a liberal nation state with an increasingly anti liberal population and an electorate that is disinterested in politics In this globalized world the power of capital is so great that opposition to it is often discouraged and disheartened leaving many citizens few political precepts by which to consider their institutions This contemporary failure of vision has opened the way for the unimpeded return of the philosophy of the free market As a result social and educational policies are debated almost solely in terms of how they fit with the needs of the market Social and ethical understandings are replaced by a failed economic theory that requires a radical constraint of our political and economic choices Compassion for the poor the market lets us know is wrong headed because any interference with the labor market will always result in unfortunate economic and social consequences Moral issues are eclipsed by market needs In

Critical Pedagogy Where Are We Now the contributors discuss how the field of critical pedagogy should respond to such dire conditions in a way that is theoretically savvy and visionary while concurrently contributing to the struggle to improve the lives of those most hurt by them Critical Pedagogy is essential reading for every classroom teacher and pre service teacher It is also a valuable tool for use in undergraduate and graduate level classrooms
