Awareness of Indirection Francis X. Curzio, 1986-11-01 *Disjunctivism* Alex Byrne, Heather Logue, 2009 Classic texts that define the disjunctivist theory of perception **Agnon's Art of Indirection** Nitza Ben-Dov, 1993 This study demonstrates how Agnon combined traditional Hebrew lore modern literary devices and especially highly crafted dream sequences revealing subconscious motivations behind apparently fortuitous acts and decisions thus creating a unique narrative form reflecting the indeterminacy of human behaviour Bodies of Knowledge A. Abby Knoblauch, Marie E. Moeller, 2022-07-15 Bodies of Knowledge challenges homogenizing mis understandings of knowledge construction and provides a complex discussion of what happens when we do not attend to embodied rhetorical theories and practices Because language is always a reflection of culture to attempt to erase language and knowledge practices that reflect minoritized and historically excluded cultural experiences obscures the legitimacy of such experiences both within and outside the academy The pieces in Bodies of Knowledge draw explicit attention to the impact of the body on text the impact of the body in text the impact of the body as text and the impact of the body upon textual production The contributors investigate embodied rhetorics through the lenses of race and ethnicity gender and sexuality disability and pain technologies and ecologies clothing and performance and scent silence and touch In doing so they challenge the false notion that academic knowledge that is real knowledge is disembodied and therefore presumed white middle class cis het able bodied and male This collection lays bare how myriad bodies invent construct deliver and experience the processes of knowledge building Experts in the field of writing studies provide the necessary theoretical frameworks to better understand productive and unproductive uses of embodied rhetorics within the academy and in the larger social realm To help meet the theoretical and pedagogical needs of the discipline Bodies of Knowledge addresses embodied rhetorics and embodied writing more broadly though a rich varied and intersectional approach These authors address larger questions around embodiment while considering the various impacts of the body on theories and practices of rhetoric and composition Contributors Scot Barnett Margaret Booker Katherine Bridgman Sara DiCaglio Kristie S Fleckenstein Vyshali Manivannan Temptuous Mckoy Julie Myatt Julie Nelson Ruth Osorio Kate Pantelides Caleb Pendygraft Nadya Pittendrigh Kellie Sharp Hoskins Anthony Stagliano Megan Strom
