B 24 Liberator Rugged But Right:

B-24 Liberator Frederick A. Johnsen, 1999 **Fortress Ploesti** Jay A. Stout, 2003-11-19 A comprehensive account of the World War II Allied bombing campaign to destroy pivotal Romanian oil refineries by the retired Marine Corps fighter pilot Unlike previous books on Ploesti Jay Stout goes well beyond the famous big and bloody raid of August 1943 and depicts the entire 1944 strategic campaign of twenty plus missions that all but knocked Ploesti out of the war and denied the German war machine the fuel and lubricants it so desperately needed Stout's account is also a launching point for the author's inquiries into many aspects of the American strategic bombing effort in World War II It delivers across the board Stout who served as a Marine F A 18 pilot in the First Gulf War asks questions about aviation combat history and technique that any modern combat pilot would be dying to ask He carries the ball far beyond the goal post set by all other Ploesti historians He has gone out of his way to describe the defenses throughout the campaign and he brings in the voices of Ploesti's defenders to complement the tales of Allied airmen who brought Ploesti to ruin He describes the role of the bombers as well as that of the fighters the anti-aircraft defenses even the technique of obscuring the Ploesti complex with smoke Stout's lucid presentation of complex issues at the tactical and strategic levels makes his narrative a must for those with a special interest in the attacks on Ploesti World War II History Magazine *In Hostile Skies* James M. Davis, 2006 James Jim Davis piloted a B 24 as part of the 8th Air Force on nearly thirty missions in the European Theatre during World War II He flew support missions for Operations Cobra and Market Garden and numerous bombing missions over occupied Europe in the summer and fall of 1944 attacking enemy airfields airplane factories railroad marshalling yards ship yards oil refineries and chemical plants While he and his crew survived without serious injuries they witnessed the destruction of many of their friends planes and experienced serious damage to their own plane on several occasions **Beneath Haunted Waters** Peter Stekel, 2017-09-30 Drama Tragedy Irony Unsolved mysteries And throw in a little greed Beneath Haunted Waters is not a ghost story it's not that kind of haunted at all These are waters haunted by generations of people who cannot forget the story of how two B 24 Liberator bombers disappeared in 1943 and what happened to the boys on board During the World War II years the convention was to call young men in their late teens to their late 20s boys The boys who piloted bombers and fighter aircraft during World War II were 19 or 20 years old barely out of their childhood Imagine boarding a 737 today and seeing a teenager at the controls instead of a person with greying temples That was the situation during the war Beneath Haunted Waters is a story about that era when children flew large airplanes equipped with enough firepower to destroy cities And yet boys they were and boys they will always be But it's primarily a story of how they died not in combat but by accident During World War II the USA lost 7100 combat aircraft and 5300 trainers along with 15 530 pilots crew members and ground personnel in over 52 000 domestic accidents These statistics don't compare to the huge numbers of RAF 8th Air Force and Luftwaffe losses during the European air war but the numbers are still frightening Between 1942-1945 US aviation losses to

accidents 12 400 exceeded combat losses 4500 to the Japanese For every plane shot down in the South Pacific there were three lost to accidents within the United States While memoirs of those who served histories of military and political leaders and books about combat abound very little has been written about the terrible toll of aviation training accidents during the war Beneath Haunted Waters is unique because it tells this hardly known and little appreciated story Most information on this subject is covered in official reports It appears in a casual way in many memoirs There are a few histories of the air war during World War II that mention aviation accidents during training or once the boys were in theater There has been no popular academic or comprehensive book on the subject I propose to cover this subject within the more personal story of what happened to the two Liberators that wound up in Huntington Lake and Hester Lake Usually pilots and crews of World War II aircraft were neither old enough to vote nor to drink Many had never driven a car or taken a train ride much less been in an airplane Nine months after enlistment they were flying the most technologically advanced high performance machines ever built The same could be said for their navigation equipment and radio gear But aviation had been around for only 40 years Aircraft design was still in its infancy Engines failed pilots flew into mountains navigators got lost radios broke and weather forecasts were frequently and fatally wrong

I Will Tell No War Stories Howard Mansfield, 2024-04-16 When Howard Mansfield grew up World War II was omnipresent and hidden This was also true of his father's time in the Air Force Like most of his generation it was a rule not to talk about what he'd experienced in war You're not getting any war stories from me he'd say Cleaning up the old family house the year before his father's death Mansfield was surprised to find a short diary of the bombing missions he had flown Some of the missions were harrowing Mansfield began to fill in the details and to be surprised again this time by a history he thought he knew I Will Tell No War Stories is about undoing the forgetting in a family and in a society that has hidden the horrors and cataclysm of a world at war Some part of that forgetting was necessary for the veterans otherwise how could they come home how could they find peace I Will Tell No War Stories is also about learning to live with history a theme Mansfield explored in earlier books like In the Memory House which The New York Times called a wise and beautiful book and The Same As Twice said by the Times to be filled with insight and eloquence a brilliant book

American Bomber Crewman 1941-45 Gregory Fremont-Barnes, 2012-06-20 Gregory Fremont Barnes examines the lives of the American Bomber Crewmen of the Eighth Air Force The Mighty Eighth who manned maintained and repaired the Boeing B 17 Flying Fortresses and the B 24 Liberators that flew from the airfields of England He highlights the physical and psychological strain placed on these men who required brute strength to control the aircraft on long bombing missions and extraordinary endurance to fly for hours at 20 000 feet at temperatures below freezing in unpressurised cabins In addition to this with Luftwaffe fighters and anti aircraft fire to contend with it required incredible skill and some luck to return from a mission unscathed This book is a fitting tribute to these often uncelebrated heroes who took the war deep into the Third Reich as well as a fascinating historical account of their experiences

Unbroken Laura Hillenbrand, 2014-07-29 1

NEW YORK TIMES BESTSELLER The incredible true story of survival and salvation that is the basis for two major motion pictures *Unbroken* and *Unbroken: Path to Redemption* Extraordinarily moving a powerfully drawn survival epic *The Wall Street Journal* Hailed as the top nonfiction book of the year by *Time* magazine Winner of the Los Angeles Times Book Prize for biography On a May afternoon in 1943 an Army Air Forces bomber crashed into the Pacific Ocean and disappeared leaving only a spray of debris and a slick of oil gasoline and blood Then on the ocean surface a face appeared It was that of a young lieutenant the plane's bombardier who was struggling to a life raft and pulling himself aboard So began one of the most extraordinary odysseys of the Second World War The lieutenant's name was Louis Zamperini In boyhood he'd been a cunning and incorrigible delinquent breaking into houses brawling and fleeing his home to ride the rails As a teenager he had channeled his defiance into running discovering a prodigious talent that had carried him to the Berlin Olympics and within sight of the four minute mile But when war had come the athlete had become an airman embarking on a journey that led to his doomed flight a tiny raft and a drift into the unknown Ahead of Zamperini lay thousands of miles of open ocean leaping sharks a foundering raft thirst and starvation enemy aircraft and beyond a trial even greater Driven to the limits of endurance Zamperini would answer desperation with ingenuity suffering with hope resolve and humor brutality with rebellion His fate whether triumph or tragedy would be suspended on the fraying wire of his will Laura Hillenbrand writes with the same rich and vivid narrative voice she displayed in *Seabiscuit* Telling an unforgettable story of a man's journey into extremity *Unbroken* is a testament to the resilience of the human mind body and spirit

Unmanned Systems of World Wars I and II H. R. Everett, 2015-11-06 The first comprehensive technical history of air land sea and underwater unmanned systems by a distinguished U S Navy roboticist Military drones have recently been hailed as a revolutionary new technology that will forever change the conduct of war And yet the United States and other countries have been deploying such unmanned military systems for more than a century Written by a renowned authority in the field this book documents the forgotten legacy of these pioneering efforts offering the first comprehensive historical and technical accounting of unmanned air land sea and underwater systems Focusing on examples introduced during the two world wars H R Everett meticulously traces their development from the mid nineteenth century to the early Cold War A pioneering Navy roboticist Everett not only describes these systems in detail but also reverse engineers the designs in order to explain how they operated in real world conditions of the time More than 500 illustrations photographs drawings and plans many of them never before published accompany the text Everett covers the evolution of early wire guided submersibles tracing the development of power propulsion communication and control radio controlled surface craft deployed by both Germany and Great Britain in World War I radio controlled submersibles radio controlled aircraft including the TDR 1 assault drone project in World War II which laid the groundwork for subsequent highly classified drone programs and remote controlled ground vehicles including the Wehrmacht's Goliath and Borgward demolition carriers

The Jolly Roger William C. Atkinson, 2015-07-28 There were

no visible flames only intense searing heat At once his entire flight suit caught fire and with no conscious thought he reached for his parachute at his feet against the waist window bulkhead Instinctively he tucked it under his arms like a football and dove through the open window the force of the leap tearing loose the attachments to the airplane of his headphones throat microphone and oxygen mask From The Jolly Roger James C Atkinson began life the descendant of an impoverished farming family in rural east central Mississippi While a high school senior he enlisted in the U S Army Air Force and like so many young men of his generation left his home to fight for his country in WWII After a year of rigorous training he was qualified as a Radio Operator Gunner on a B 24 bomber and what began as the adventure of a lifetime for Sgt Atkinson ended in horror and tragedy in the war torn skies over Ploesti Romania Though this is Dr Atkinson s personal story it is not unique Rather it is representative of the stories of legions of young men from the Greatest Generation who would face the challenge of rebuilding their lives after rising from the ashes of the most destructive war in history
