Because Of The Kids Facing Racial And Cultural Differences In Urban Schools:

Because of the Kids Jennifer E. Obidah, Karen Manheim Teel, 2001-01-01 This book details the story of two teacher researchers Jennifer who is African American and Karen who is White as they set out on a collaborative three year study to explore the impact of racial and cultural differences in Karen's urban middle school classroom They describe how they learn to confront and deal with the challenges they face so that they can work together Their study presents the difficulties and importance of collaborations between teachers from different racial and cultural backgrounds as well as insights on how race and culture evolve in teacher student interactions **Handbook of Classroom Management** Carolyn M. Evertson, Carol S. Weinstein, 2013-10-31 Classroom management is a topic of enduring concern for teachers administrators and the public It consistently ranks as the first or second most serious educational problem in the eyes of the general public and beginning teachers consistently rank it as their most pressing concern during their early teaching years Management problems continue to be a major cause of teacher burnout and job dissatisfaction Strangely despite this enduring concern on the part of educators and the public few researchers have chosen to focus on classroom management or to identify themselves with this critical field The Handbook of Classroom Management has four primary goals 1 to clarify the term classroom management 2 to demonstrate to scholars and practitioners that there is a distinct body of knowledge that directly addresses teachers managerial tasks 3 to bring together disparate lines of research and encourage conversations across different areas of inquiry and 4 to promote a vigorous agenda for future research in this area To this end 47 chapters have been organized into 10 sections each chapter written by a recognized expert in that area Cutting across the sections and chapters are the following themes First positive teacher student relationships are seen as the very core of effective classroom management Second classroom management is viewed as a social and moral curriculum Third external reward and punishment strategies are not seen as optimal for promoting academic and social emotional growth and self regulated behavior Fourth to create orderly productive environments teachers must take into account student characteristics such as age developmental level race ethnicity cultural background socioeconomic status and ability Like other research handbooks the Handbook of Classroom Management provides an indispensable reference volume for scholars teacher educators in service practitioners and the academic libraries serving these audiences It is also appropriate for graduate courses wholly or partly devoted to the study of classroom management **Handbook of Narrative Inquiry** D. The Activist Academic Colette Cann, Eric DeMeulenaere, 2020-05-29 Donald Trump's election forced academics to confront the inadequacy of promoting social change through the traditional academic work of research writing and teaching Scholars joined crowds of people who flooded the streets to protest the event The present political moment recalls intellectual forerunners like Antonio Gramsci who imprisoned during an earlier fascist era demanded that intellectuals committed to justice can no longer consist in eloquence but in active participation in practical life as constructor organizer permanent persuader and not just a simple orator Gramsci 1971 p 10 Indeed in an era of corporate media and alternative facts academics committed to justice cannot simply rely on disseminating new knowledge but must step out of the ivory tower and enter the streets as activists The Activist Academic serves as a guide for merging activism into academia Following the journey of two academics the book offers stories frameworks and methods for how scholars can marry their academic selves involved in scholarship teaching and service with their activist commitments to justice while navigating the lived realities of raising families and navigating office politics This volume invites academics across disciplines to enter into a dialogue about how to take knowledge to the streets Perfect for courses such as Introduction to Social Theory Social Foundations Certificate in Public Scholarship Practicing Public Scholarship Reimagining Public Engagement Decentering the Public Humanities

Democratic Education in Practice Matthew Knoester, 2015-04-25 The Mission Hill School founded by MacArthur Award winner Deborah Meier and colleagues in 1997 is a small public school that has rethought almost everything about the process of teaching and learning Beyond richly describing and evaluating this high achieving school the author argues that democratic education is increasingly difficult in this era of testing and standardization and that a school such as Mission Hill must be continually thoughtful innovative and courageous in counteracting systemic inequality This in depth examination is essential reading for anyone interested in how to better understand seemingly intractable problems related to urban public education in the United States Book Features An exemplary model of democratic education that shows the inner workings of a largely teacher governed school A rare example of an urban school implementing Dewey influenced progressive pedagogy In depth descriptions of an anti racist and culturally relevant pedagogy and curriculum A close examination of successful practices including shared decision making intensive problem solving and looking at student work Matthew Knoester is a National Board Certified Teacher and former teacher at the Mission Hill School in Boston He received his Ph D in Curriculum and Instruction from the University of Wisconsin Madison and is currently Assistant Professor of Education at the University of Evansville Matthew Knoester has done us an enormous favor by showing us in detail what could be one example of how schools can be the building blocks for democracy recreating community for all to taste feel hear and see From the Foreword by Deborah W Meier This is exactly the kind of book that is so necessary at this time Schools can be respectful responsive and caring places Matthew Knoester gives us a detailed picture of such a school If more people would read books such as this the national debate on education would be all the better for it Michael W Apple John Bascom Professor of Curriculum and Instruction and Educational Policy Studies University of Wisconsin Madison Knoester's account of the Mission Hill School captures the habits of mind needed if public schools are to be truly democratic

in spirit and in practice centered on the children and as Deborah Meier so powerfully advocates protected from those policies and social forces that accept and perpetuate disengagement and inequality in our children's education Linda McSpadden McNeil Professor of Education Rice University author of Contradictions of School Reform To those who have never seen the Mission Hill School in Boston it may sound like a magical place The good news is that it is real and Knoester shows us through his compelling narrative how and why they have been able to achieve so much For educators students and parents this book will be a source of inspiration At a time when our policymakers and many so called reformers are actively undermining support for public education this important book will serve as a reminder that we can do a much better job at educating all children Pedro Noguera Executive Director Metropolitan Center for Urban Education New York University
