Becoming And Being Old Sociological Approaches To Later Life:

Becoming and Being Old Bill Bytheway, Teresa Keil, Patricia Allatt, 1989-03-01 In this volume contributors examine the assumptions normally made about the elderly and offer differing sociological perspectives on becoming and being old and on the concept of age itself Instead of seeing the elderly in terms of needs they offer alternative analyses in light of class gender and race Examining the life cycle perspective on old age they show how retirement from the workforce is only one aspect of becoming old and arguably one which is important for only a minority of the ageing population *The Futures of Old Age*

John A Vincent, Chris Phillipson, Murna Downs, 2006-05-15 What is the future of old age How will families services and economies adapt to an older population Such questions often provoke extreme and opposing answers some see ageing populations as having the potential to undermine economic growth and prosperity others see new and exciting ways of living in old age *The Futures of Old Age* places these questions in the context of social and political change and assesses what the various futures of old age might be Prepared by the British Society of Gerontology *The Futures of Old Age* brings together a team of leading international gerontologists from the United Kingdom and United States drawing on their expertise and research The book's seven sections deal with key contemporary themes including population ageing households and families health wealth pensions migration inequalities gender and self and identity in later life *The Self and Society in Aging*

Processes Carol D. Ryff, PhD, Victor W. Marshall, PhD, 1999-06-23 This volume focuses on the experience of growing old as it is linked to societal factors Ryff and Marshall construct this macro view of aging in society by bridging disciplines and bringing together contributors from all the social sciences The book is organized into three sections theoretical perspectives socioeconomic structures and contexts of self and society Leading psychologists anthropologists gerontologists and sociologists present theoretical and empirical advances that forge links between the individual and the social aspects of aging It is must reading for researchers in all gerontologic specialties and a valuable text for graduate courses in human development psychology of aging and other social aspects of aging **Handbook of Communication and Aging**

Research Jon F. Nussbaum, Justine Coupland, 2004-04-12 This second edition of the *Handbook of Communication and Aging Research* captures the ever changing and expanding domain of aging research Since it was first recognized that there is more to social aging than demography gerontology has needed a communication perspective Like the first edition this handbook sets out to demonstrate that aging is not only an individual process but an interactive one The study of communication can lead to an understanding of what it means to grow old We may age physiologically and chronologically but our social aging how we behave as social actors toward others and even how we align ourselves with or come to understand the signs of difference or change as we age are phenomena achieved primarily through communication experiences Synthesizing the vast amount of research that has been published on communication and aging in numerous international outlets over the last three decades the book's contributors include scholars from North America and the United

Kingdom who are active researchers in the perspectives covered in their particular chapter Many of the chapters work to deny earlier images of aging as involving normative decrement to provide a picture of aging as a process of development involving positive choices and providing new opportunities A recurring theme in many chapters is that of the heterogeneity of the group of people who are variously categorized as older aged elderly or over 65 The contributors review the literature analytically in a way that reveals not only current theoretical and methodological approaches to communication and aging research but also sets the future agenda This handbook will be of great interest to scholars and researchers in gerontology developmental psychology and communication and in this updated edition will continue to play a key role in the study of communication and aging

Towards Enabling Geographies Edward Hall, 2016-02-24 Over the past 15 years geography has made many significant contributions to our understanding of disabled people's identities lives and place in society and space Towards Enabling Geographies brings together leading scholars to showcase the second wave of geographical studies concerned with disability and embodied differences This area has broadened and challenged conventional boundaries of disability expanding the kinds of embodied differences considered while continuing to grapple with important challenges such as policy relevance and the use of more inclusionary research approaches This book demonstrates the value of a spatial conceptualization of disability and disablement to a broader social science audience whilst examining how this conceptualization can be further developed and refined

Ageing, Wellbeing and Climate Change in the Arctic Paivi Naskali, Marjaana Seppänen, Shahnaj Begum, 2015-11-19 The Arctic and its unique natural resources have become objects of increasing concern Rapid climate change and ageing of the population are transforming the living conditions in the region This translates into an urgent need for information that will contribute to a better understanding of these issues Ageing Wellbeing and Climate Change in the Arctic addresses the important intersection of ageing wellbeing and climate change in the Arctic region making a key interdisciplinary contribution to an area of research on which little has been written and limited sources of information are currently available The book explores three key areas of discussion First various political issues that are currently affecting the Arctic such as the social categorisation of elderly people Second the living conditions of the elderly in relation to Arctic climate change Third the wellbeing of elderly people in terms of traditional knowledge and lifestyles The book also features contributions from a number of key researchers in the field which examine a broad range of case studies including the impact of climate change on health in Lapland and elderly people and geographical mobility in Norway This book will be of great interest to scholars of climate change gerontology and social policy

Social Theory, Social Change and Social Work Nigel Parton, 2002-09-11 Social Theory Social Change and Social Work has two inter related themes First to account for and analyse current changes in social work and secondly to assess how far recent developments in social theory can contribute to their interpretation Representing the work of a range of academics all involved in research and teaching in relation to social work it considers issues of central significance to everyone interested in the theory policy

and practice of social work **Enduring Questions in Gerontology** Debra J. Sheets,Dana Burr Bradley, PhD,Jon Hendricks, PhD,2006 Enduring Questions in Gerontology provides a comprehensive perspective on the abiding issues in gerontology Both current and future gerontologists will find this book useful in examining emerging dilemmas and creating a context for further progress in the field of aging The most creative thinkers contributing to the gerontological literature reflect on their disciplines consider how key questions have emerged review how they have changed in the decades since gerontology entered the fray and speculate what may lie ahead The resulting collection of essays offers a comprehensive perspective on the enduring questions in gerontology and how they have shaped our understanding of differences in the experience of old age Key contributors to this volume include George L Maddox Christine L Fry Steven Austad Kenneth Brummel Smith Manfred Diehl Martha Holstein W Andrew Achenbaum James E Birren As an emerging or seasoned scholar you will find insights into the ways in which each disciplinary focus grapples with societal transitions identifies emerging issues and lays out strategies and salient perspectives for what should come next Routledge Library Editions: British Sociological Association Various,2021-07-14 The volumes in this set originally published between 1969 and 2001 is comprised of original books published in conjunction with the British Sociological Association The set draws together original research by leading academics based on study groups and conference papers in the areas of youth race the sociology of work gender social research urban studies class deviance and social control law development and health Each volume provides a rigorous examination of related key issues This set will be of particular interest to students and academics in the field of sociology health and social care gender studies and criminology respectively **Ageing in Singapore** Peggy Teo,Kalyani Mehta,Leng Leng Thang,Angelique Chan,2006-09-27 Older persons are often portrayed as social and financial burdens because pensions health and social care have to withstand increasing old age dependency ratios Due to a lack of access to representation or a lack of social and economic power older people have found few opportunities to have their voices heard making age an immensely political issue Written by an impressive team of authors this book provides an in depth analysis of the experience of ageing in Singapore examining key issues such as health work housing family ties and care giving It looks at how social categorization enters into everyday life to elucidate the multiple meanings of age and identity encountered in a rapidly changing economy and society Providing original critical discourse from Asian writers recording Asian voices Ageing in Singapore will appeal to a wide readership and is an invaluable resource for policy makers service practitioners and scholars working on Asian gerontology
