At Ease Navy Men Of World War II:

At Ease, 2004-06 A pictorial record of the Navy during World War II presents more than 150 photographs of sailors as they trained prepared and found time to relax in the shadow of war **David Mamet and Male Friendship** Arthur Holmberg, 2014-04-01 Using insights from psychology sociology anthropology and the history of sexuality Holmberg explores the ambiguity that drives male bonding Personal interviews with Mamet and with the actors who have interpreted his major roles shed light on how and why men bond with each other and complement close analysis of Mamet's texts Beyond the Shades of Gray Dean Bailey, 2011-12-12 Beyond the Shades of Gray is based upon Christian fundamentals and beliefs It was not written to convince anyone that homosexuality is wrong It was written primarily to assist those who are inwardly convinced that their own homosexuality is wrong for them Over 10 years in the personal journey of its writing the author uses practical applications of Bible scripture throughout the book without religiosity Scripture is used to confront various aspects of this very controversial subjecthead on Therefore the author makes no apologies for the portions of this book that may seem to be more graphic in nature than your average Christian book Homosexuality is a subject that absolutely needs to be dealt with truthfully and without religious avoidance of difficult topics If you are a person who has ever had doubts or questions about your sexual orientation or behavior then what the author has written here is for you The work contains a wealth of practical biblical principles and also includes information for women But the book is otherwise a work written by a man for other men who also desire freedom and heterosexual restoration from their own unwanted homosexual behaviors What we long for is a deep and heartfelt sense of brotherhood and the author proposes that the real issues behind homosexual behaviors are not about sex Gods love agape love always has both a balance of truth and a responsibility that goes along with it In this book I take the same agape love approach toward homosexuality as Jesus did in the Book of John Chapter 8 with the woman caught in the sin of adultery Jesus showed great love and compassion toward the woman both in the way that he dealt with the hypocritical crowd that had brought her to him and in the way he spoke to her as he sent her on her way and told her Go and sin no more Dean Bailey A Queer History of the United States for Young People Michael Bronski, 2019-06-11 Named one of the Best Nonfiction Books of 2019 by School Library Journal Queer history didn't start with Stonewall This book explores how LGBTQ people have always been a part of our national identity contributing to the country and culture for over 400 years It is crucial for lesbian gay bisexual transgender and queer youth to know their history But this history is not easy to find since it's rarely taught in schools or commemorated in other ways A Queer History of the United States for Young People corrects this and demonstrates that LGBTQ people have long been vital to shaping our understanding of what America is today Through engrossing narratives letters drawings poems and more the book encourages young readers of all identities to feel pride at the accomplishments of the LGBTQ people who came before them and to use history as a guide to the future The stories he shares include those of Indigenous tribes who embraced same sex

relationships and a multiplicity of gender identities Emily Dickinson brilliant nineteenth century poet who wrote about her desire for women Gladys Bentley Harlem blues singer who challenged restrictive cross dressing laws in the 1920s Bayard Rustin Dr Martin Luther King Jr s close friend civil rights organizer and an openly gay man Sylvia Rivera cofounder of STAR the first transgender activist group in the US in 1970 Kiyoshi Kuromiya civil rights and antiwar activist who fought for people living with AIDS Jamie Nabozny activist who took his LGBTQ school bullying case to the Supreme Court Aidan DeStefano teen who brought a federal court case for trans inclusive bathroom policies And many more With over 60 illustrations and photos a glossary and a corresponding curriculum *A Queer History of the United States for Young People* will be vital for teachers who want to introduce a new perspective to America s story *Warrior Ways* Eric A. Eliason, Tad Tuleja, 2012-10-01 *Warrior Ways* is one of the first book length explorations of military folklife and focuses on the lore produced by modern American warriors illuminating the ways in which members of the armed services creatively express the complex experience of military life In short lively essays contributors to the volume all of whom have close personal or professional relationships to the military examine battlefield talismans personal narrative storytelling Jody calls marching and running cadences slang homophobia and transgressive humor music and photography among other cultural expressions Military folklore does not remain in an isolated subculture it reveals our common humanity by delighting disturbing infuriating and inspiring both those deeply invested in and those peripherally touched by military life Highlighting the contemporary and historical importance of the military in American life *Warrior Ways* will be of interest to scholars and students of folklore anthropology and popular culture those involved in veteran services and education and general readers interested in military culture

The Advocate ,2004-06-08 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States **Soldier Snapshots** Jay Mechling, 2021-08-10 In *Soldier Snapshots* Jay Mechling explores how American men socially construct their performance of masculinity in everyday life in all male friendship groups during their service in the military The evidence Mechling analyzes is a collection of vernacular photographs snapshots of and by American soldiers sailors Marines and aviators Since almost all of the snapshots are photographs taken of men by other men this book offers a unique view into the social construction performance and repair of American masculinity Mechling guides the reader from the snapshots to ideas about the everyday lives of male soldiers to ideas about the lives of men in groups to ideas about American culture In his introduction Mechling offers his thoughts about how to undertake the interdisciplinary study of American culture he draws from history folklore anthropology sociology rhetoric psychology gender and sexuality studies ethnic studies popular culture studies and visual studies to reveal the intricacies of how men use their folk practices in an all male group to manage the paradoxes of their friendship and comradeship under sometimes stressful conditions *Soldier Snapshots* begins with a brief history of war photography and establishes the nature of vernacular photography the snapshot This is followed by a jargon free discussion of the key ideas

about masculinity and the vernacular practices of men in groups exploring male friendship the important role of play in men's relationships and the ways animal buddies adopted by male friendship groups actually tell us even more about male friendship and issues of trust In the final section Mechling's careful analysis reveals how the men employ different folk practices including rough and tumble playfighting building human pyramids bathing naked in public cross dressing hazing and gallows humor in order to manage their relationships Regardless of the man's sexual orientation and sexual identity the strong heterosexual norm in the military means that the men must find ways to understand and even enact or perform their feelings of bonding while still defining those feelings and acts as heterosexual

Fashion and Feeling Roberto Filippello, Ilya Parkins, 2023-05-16 *Fashion and Feeling The Affective Politics of Dress* explores the complex nexus of fashion and the feeling body from a variety of critical perspectives across fashion studies anthropology sociology design practice and media studies It asks such questions as What does fashion look and feel like in an age dominated by amplified anxiety isolation depression and precariousness How are feelings woven into clothing and mobilized through fashion practices in ways that might sustain living with a sense of ongoing crisis Does fashion have the potential to help us reimagine new lifeworlds which might be reinvigorating In other words how is fashion engaging with the bad the good and the ambivalent feelings associated with our personal and collective histories with our troubled political present and with our imagined future Despite such diverse and scattered contributions the potentialities of feeling for the study of fashion are still largely neglected This edited volume seeks to tease out possible avenues of investigation of the clothed body and its representations through the lens of feeling

Faces of War Mark D. Faram, 2009 Looks at the history of the Naval Aviation Photographic Unit and their work during World War II

Watching War on the Twenty-First Century Stage Clare Finburgh Delijani, 2017-07-27 What do we watch when we watch war Who manages public perceptions of war and how *Watching War on the Twenty First Century Stage Spectacles of Conflict* is the first publication to examine how theatre in the UK has staged debated and challenged the ways in which spectacle is habitually weaponized in times of war The battle for hearts and minds and the war of images are fields of combat that can be as powerful as armed conflict And today spectacle and conflict the two concepts that frame the book have joined forces via audio visual technologies in ways that are more powerful than ever Clare Finburgh's original and interdisciplinary interrogation provides a richly provocative account of the structuring role that spectacle plays in warfare engaging with the works of philosopher Guy Debord cultural theorist Jean Baudrillard visual studies specialist Marie Jos Mondzain and performance scholar Hans Thies Lehmann She offers coherence to a large and expanding field of theatrical war representation by analysing in careful detail a spectrum of works as diverse as expressionist drama documentary theatre comedy musical satire and dance theatre She demonstrates how features unique to the theatrical art namely the construction of a fiction in the presence of the audience can present possibilities for a more informed engagement with how spectacles of war are produced and circulated If we watch with more resistance we may

contribute in significant ways to the demilitarization of images And what if this were the first step towards a literal demilitarization
