

gestions for the revival of the Commonwealth Inter-State Commission, changes to improve the process of judicial review, proposals to facilitate federal taxation on behalf of the States, and so on. There is some value in these ideas even if they are almost entirely without novelty. But to graft these recommendations on to a hotchpotch of law, microtonic slivers of history, and subliminal political messages is not what a research monograph should be about.

Atencingo: The Politics of Agrarian Struggle in a Mexican Ejido. By David Ronfeldt. (Stanford, Calif.: Stanford University Press, 1973. Pp. viii, 283. \$10.00.)

As I was reading David Ronfeldt's excellent study, I thought of Regis Debray's thesis that a successful revolutionary process requires the establishment and development of a hard-core guerrilla force. But this did not take place in the Mexican agrarian struggle. As Professor Ronfeldt indicates, revolutionary conditions have not existed in Mexico for decades. The *ejidatarios* might have been critical of certain officials and policies, but most of them had a deep respect for the government's authority and firmly believed in the benevolence of the president. There was no legitimacy vacuum in Mexico for the *ejidatarios* of Atencingo. They chose to struggle for reform within the established institutional system, and if I might modify Debray's terminology, they offered an example of a struggle for Reform in the Revolution.

In his well-documented study, Ronfeldt chooses the period from the 1920s to 1969 to analyze the causes and consequences of political and economic struggle in Atencingo, a complex which included a town of 7,500 people, one of the principal sugar mills of the country, the ejido of Atencingo, the ejido's fertile cane lands and credit society, and eight villages in the ejidal system. The author focuses on a long series of struggles—often marked by violence—among the peasants, powerful economic interests, and state and federal government officials for control of the ejido's valuable lands and production. But rather than a description, Ronfeldt offers a comprehensive analysis of agrarian struggle in Atencingo, crystallized in an excellent final chapter, by focusing on the effects of the strategic context in which the struggle had taken place; the strategies and tactics employed by the participants; and the consequences of the struggle.

The strategic context for the *ejidatarios* was in part determined by the allies and opposition they had at a given time. Ronfeldt discusses

the role of William Jenkins, a former American consul who remained in Mexico for more than 40 years to amass a fortune. At the time of his death in 1963, it was estimated that he was worth between 200 and 300 million dollars. It was his land that was expropriated to form the Atencingo ejidal complex. Jenkins remained a powerful figure through his control of the sugar mill and the administration of the ejido. He was a formidable force in his opposition to any meaningful structural reform; exploitation, murders and violations of the law were commonplace under his regime.

Ronfeldt points out that strategically the *ejidatarios* had very little political or economic power. On major and many minor issues, what happened in Atencingo was determined by developments in Mexico City and Puebla (the state capital). Such external realities often blunted the struggle for agrarian reform. For example, the attitude of a new state governor or president of the country was of crucial importance. Presidents Ruiz Cortines and López Mateos were more sympathetic to the aims of the *ejidatarios* than was President Díaz Ordaz, who was more interested in order than reform. The same reality held true for the attitude of bureaucrats in governmental agencies, particularly the all-important National Peasants' Confederation (CNC). Ronfeldt also feels the different perceptions of the government and the *ejidatarios* affected the effort to realize structural changes. The former wanted political stability and economic development, concentrating on sugar cane production; the latter wanted local institutional power and agrarian reform. They demanded a radical change in the ejido structure: diversification of crops, division of the ejido, parcellation of ejido land. The government did allow local institutional power, but basic structural reform threatened key political and economic interests. This was a major issue in the struggle. Ronfeldt explains how the *ejidatarios* utilized a variety of strategies and tactics in their effort to demonstrate a combination of popular support and government support. They had to cultivate governmental officials; popular support alone was not sufficient to win concessions. They did succeed at times in electing their own leaders to run the ejidal complex, but even they broke many promises and the *ejidatarios* were forced to resort to bureaucratic lobbying, propaganda, direct action (violent confrontations, work stoppages, building seizures, a march on Mexico City). As Ronfeldt indicates, however, the government effectively employed cooptation and control. It utilized the patronage system and benefitted those who cooperated. Throughout
