Driscoll, Walter McDowell, 2016-01-08 This book documents the dramatic changes in the field of electronic media in the past decade and provides informed insights in the exciting and changes yet to come It examines the transition in broadcasting from analog to digital transmission and the changing business models of electronic media **Study Guide for Broadcasting in America** Roger D. Wimmer, 1982-01-01 **Broadcasting in America** Sydney W. Head, Bruce Sterling, 1990 Science on American Television Marcel Chotkowski, 2024-05-31 As television emerged as a major cultural and economic force many imagined that the medium would enhance civic education for topics like science And indeed television soon offered a breathtaking banquet of scientific images and ideas both factual and fictional Mr Wizard performed experiments with milk bottles Viewers watched live coverage of solar eclipses and atomic bomb blasts Television cameras followed astronauts to the moon Carl Sagan through the Cosmos and Jane Goodall into the jungle Via electrons and embryos blood testing and blasting caps fictional Frankensteins and chatty Nobel laureates television opened windows onto the world of science But what promised to be a wonderful way of presenting science to huge audiences turned out to be a disappointment argues historian Marcel Chotkowski LaFollette in *Science on American Television* LaFollette narrates the history of science on television from the 1940s to the turn of the twenty first century to demonstrate how disagreements between scientists and television executives inhibited the medium's potential to engage in meaningful science education In addition to examining the content of shows she also explores audience and advertiser responses the role of news in engaging the public in science and the making of scientific celebrities Lively and provocative *Science on American Television* establishes a new approach to grappling with the popularization of science in the television age when the medium's ubiquity and influence shaped how science was presented and the scientific community had increasingly less control over what appeared on the air **Broadcasting in America** Sydney W. Head, Christopher H. Sterling, 1987 *Communication Law in America* Paul Siegel, 2014-03-27 *Communication Law in America* is a comprehensive easy to follow overview of the complicated ways in which U S law determines who may say what to and about whom It covers the usual content libel invasion of privacy copyright and trademark access to government information advertising electronic media all the while giving readers a sense of how and why this country has come to weigh freedom of speech above competing freedoms far more often than in other Western democracies This fourth edition of the well received text boasts over 300 new citations including discussion of a dozen U S Supreme Court decisions handed down since the

previous edition The nearly 200 still photos and over 80 videos on the author maintained website generally not images of litigants but of the actual artifacts TV and movie scenes advertisements news reports that led to the law suits have always represented dramatic added value to students and professors alike The new edition includes 35 new visual elements including 20 videos The text also offers a new section on how the First Amendment applies to special populations including students government employees in general and the military in particular *Early Television* May Shiers,1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company
