Brotherhoods And Secret Societies In Early And Mid Qing China:

Brotherhoods and Secret Societies in Early and Mid-Qing China: The Formation of a Tradition David Ownby, 1996

Global Lynching and Collective Violence Michael J. Pfeifer, 2017-02-10 Often considered peculiarly American lynching in fact takes place around the world In the first book of a two volume study Michael J Pfeifer collects essays that look at lynching and related forms of collective violence in Africa Asia and the Middle East Understanding lynching as a transnational phenomenon rooted in political and cultural flux the writers probe important issues from Indonesia where a long history of public violence now twines with the Internet to South Africa with its notorious history of necklacing Other scholars examine lynching in medieval Nepal the epidemic of summary executions in late Qing era China the merging of state sponsored and local collective violence during the Nanking Massacre and the ways public anger and lynching in India relate to identity autonomy and territory Contributors Laurens Bakker Shaiel Ben Ephraim Nandana Dutta Weiting Guo Or Honig Frank Jacob Michael J Pfeifer Yogesh Raj and Nicholas Rush Smith Ritual and Mythology of the Chinese Triads Barend ter Haar, 2021-08-30 The extensive ritual and mythological lore of the Chinese Triads form the scope of this new paperback title in Brill s Scholars List The author critically evaluates the extant sources and offers a wealth of contextual information The core of the book is formed by a close reading of the initiation ritual including the burning of incense the altar the enactment of a journey of life and death and the blood covenant Different narrative structures are also presented These include the messianic demonological paradigm political legitimation and the foundation of myth Triad lore is placed in its own religious and cultural context allowing radically new conclusions about its origins meanings and functions This book is of special interest to social historians anthropologists and students of Chinese religious culture **Secret Societies**

Reconsidered: Perspectives on the Social History of Early Modern South China and Southeast Asia David

Ownby, Mary F. Somers Heidhues, 2016-09-16 A discussion of the development of secret societies within China and among Chinese communities in colonial Southeast Asia in the late 18th and 19th centuries *The Coming Man from Canton* Chris W. Merritt, 2017-08-01 In *The Coming Man from Canton* Christopher W Merritt mines the historical and archaeological record of the Chinese immigrant experience in Montana to explore new questions and perspectives During the 1860s Chinese immigrants arrived by the thousands moving into the Rocky Mountain West and tenaciously searching for prosperity in the face of resistance restriction racism and armed hostility from virtually every ethnic group in American society As second class citizens Chinese immigrants remained largely insular and formed their own internal governments as well as labor and trade networks typically establishing communities apart from the main towns Chinese miners launderers restaurant keepers gardeners railroad laborers and other workers became a separate but integral part of the American experience in the Intermountain West Although Chinese immigrants constituted more than 10 percent of the Montana Territory s total population by 1870 the historical records provide a biased and narrow perspective as they were generally written by

European American community members Merritt uses the statewide Montana context to show the diversity of Chinese settlements that has often been neglected by archival studies His research highlights how the legacy of the Chinese in Montana is or is not reflected in modern Montana identity and how scholars educators professionals and the public can alter the existing perception of this population as the other and perceive it instead an integral part of Montana's past *Chinese Society* Elizabeth J. Perry, Mark Selden, 2010-04-05 This bestselling introduction to Chinese society uses the themes of resistance and protest to explore the complexity of life in contemporary China An interdisciplinary and international team of Chinese scholars draw on perspectives from sociology anthropology psychology history and political science and covers a broad range of issues Topics covered include labour and environmental disputes rural and ethnic conflict migration legal challenges intellectual and religious dissidence opposition to family planning The newly revised third edition adds two new chapters on gender and the family and the reform of the Hukou system thus providing a comprehensive text for both undergraduates and specialists in the field encouraging the reader to challenge conventional images of contemporary Chinese society

Combating Transnational Crime Dimitri Vlassis, Phil Williams, 2013-03-07 This work examines the challenges posed by transnational crime and the steps being taken by the international community to meet these challenges It offers comprehensive analysis of different forms of transnational crime and the various responses that are being developed

Divine Justice Paul R. Katz, 2008-12-08 This book examines the integral role of religious beliefs and practices in Chinese legal culture *Gods, Ghosts, and Gangsters* Avron Boretz, 2010-10-31 Demon warrior puppets sword wielding Taoist priests spirit mediums lacerating their bodies with spikes and blades these are among the most dramatic images in Chinese religion Usually linked to the propitiation of plague gods and the worship of popular military deities such ritual practices have an obvious but previously unexamined kinship with the traditional Chinese martial arts The long and durable history of martial arts iconography and ritual in Chinese religion suggests something far deeper than mere historical coincidence Avron Boretz argues that martial arts gestures and movements are so deeply embedded in the ritual repertoire in part because they iconify masculine qualities of violence aggressivity and physical prowess the implicit core of Chinese patriliney and patriarchy At the same time for actors and audience alike martial arts gestures evoke the mythos of the jianghu a shadowy often violent realm of vagabonds outlaws and masters of martial and magic arts Through the direct bodily practice of martial arts movement and creative rendering of jianghu narratives martial ritual practitioners are able to identify and represent themselves however briefly and incompletely as men of prowess a reward otherwise denied those confined to the lower limits of this deeply patriarchal society Based on fieldwork in China and Taiwan spanning nearly two decades *Gods Ghosts and Gangsters* offers a thorough and original account of violent ritual and ritual violence in Chinese religion and society Close up sensitive portrayals and the voices of ritual actors themselves mostly working class men many of them members of sworn brotherhoods and gangs convincingly link martial ritual practice to the lives and desires of men on the margins of Chinese

society This work is a significant contribution to the study of Chinese ritual and religion the history and sociology of Chinese underworld the history and anthropology of the martial arts and the anthropology of masculinity **Religion and Chinese Society Vol. 2** John Lagerwey, 2021-09-24 Thirty years ago Hu Shih's views of Chinese society and history were representative of Sinology in general China itself had no native religion just local customs its only real religion was an import Buddhism These views have now been completely overturned with massive implications for our understanding not only of China but also of humanity as a whole it is no longer possible to imagine that at least one major traditional society constructed and construed itself without reference to a non mundane world that permeated every facet of society and it therefore becomes indispensable for students of China to take the history of Chinese religion into account and for students of religion to take into account the Chinese experience of and Chinese categories for dealing with religious phenomena The present volumes contain a selection of twenty one essays presented in a conference convened jointly by the Ecole française d'Extrême Orient and the Centre for the Study of Religion and Chinese Society of the Chinese University of Hong Kong on Religion and Chinese Society The Transformation of a Field and Its Implications for the Study of Chinese Culture held on May 29 June 2 2000 The collection aims at providing as wide a coverage as possible of recent research in the history of Chinese religion and seeks to draw some tentative conclusions about the implications for the study of Chinese religion and society in general
