Brothers Of Madame Blavatsky 1932:

The Brothers of Madame Blavatsky Mary K. Neff, 2013-10 This is a new release of the original 1932 edition **The "brothers" of Madame Blavatsky** Mary Katherine Neff, 1932 **Madame Blavatsky** Marion Meade, 2014-04-01 The life and times of Helena Blavatsky the controversial religious guru who cofounded the Theosophical Society and kick started the New Age movement Recklessly brilliant Helena Petrovna Blavatsky scandalized her 19th century world with a controversial new religion that tried to synthesize Eastern and Western philosophies If her contemporaries saw her as a freak a charlatan and a snake oil salesman she viewed herself as a special person born for great things She firmly believed that it was her destiny to enlighten the world Rebelliously breaking conventions she was the antithesis of a pious religious leader She cursed smoked overate and needed to airbrush out certain inconvenient facts like husbands lovers and a child Marion Meade digs deep into Madame Blavatsky's life from her birth in Russia among the aristocracy to a penniless exile in Europe across the Atlantic to New York where she became the first Russian woman naturalized as an American citizen and finally moving on to India where she established the international headquarters of the Theosophical Society in 1882 As she chased from continent to continent she left in her aftermath a trail of enthralled followers and the ideas of Theosophy that endure to this day While dismissed as a female messiah her efforts laid the groundwork for the New Age movement which sought to reconcile Eastern traditions with Western occultism Her teachings entered the mainstream by creating new respect for the cultures and religions of the East for Buddhism and Hinduism and interest in meditation yoga gurus and reincarnation Madame Blavatsky was one of a kind Here is her richly bizarre story told with compassion insight and an attempt to plumb the truth behind those astonishing accomplishments **Blavatsky and Her Teachers** Jean Overton Fuller, 1988 Few nineteenth century figures have aroused such controversy as Madame Helena Petrovna Blavatsky 1831-91 co founder of The Theosophical Society Accepted by some as a spiritual teacher outstanding occultist and pioneer of the present New Age movement she was denounced by others as an impostor a secret agent for her native Russia or a deluded fanatic In this full length biography the first to be published in England for many years Jean Overton Fuller has used Russian language material and is the first biography to have had access to the archives of the London Society for Psychical Research But she has found the explanation for the life and work of Madame Blavatsky not in New York where The Theosophical Society was founded in 1875 nor in London where she died but in the attempts of an oriental fraternity to influence the spiritual climate of Europe in its most materialistic phase She throws new light on the real identities of Madame Blavatsky's teachers and their relationship to the complex world of Tibetan Buddhism She portrays a woman struggling against immense personal and social difficulties to fulfil a mission that was scarcely understood by her closest associates In her impartial scrutiny of evidence Miss Overton Fuller has been obliged to reject as spurious some Blavatsky letters published by The Theosophical Society itself but she has also uncovered the real authorship of the notorious Coulomb letters which attempted to implicate Madame Blavatsky in fraud

The appearance of this biography coincides with the centenary of Madame Blavatsky's main work *The Secret Doctrine* 1888 which offered a profound spiritual interpretation of evolution in contrast to Darwinism and brought a new dimension into western thought **H. P. Blavatsky and the Secret Doctrine** Virginia Hanson, 1988-05-25 An anthology of Blavatsky's contributions to world thought **The Elder Brother** Gregory Tillett, 2016-01-29 A leading figure in the Theosophical Society Leadbeater was a prolific author writing on subjects ranging from Buddhism Masonic history and the origins of Christianity through to the power of thought and the fourth dimension Leadbeater was also the force behind Annie Besant the discoverer and educator of Krishnamurti and became Presiding Bishop of the Liberal Catholic Church For all his influence Charles Leadbeater remains largely unknown as a man This biography first published in 1982 dispels many of the mysteries surrounding his life and Leadbeater emerges as neither evil degenerate or infallible saint but as a complex and eccentric adventurer into the realm of the occult This title will be of particular interest to students of history and theology

Reflections on an Ageless Wisdom Joy Mills, 2014-07-01 Modern Theosophy expresses the ancient wisdom tradition found in all religions When H P Blavatsky founder of the Theosophical Society in 1875 told English journalist A P Sinnett she had gained her paranormal knowledge from more evolved beings called the Mahatmas Sinnett asked to communicate with them himself The result was a remarkable correspondence carried on from 1880 to 1885 with Mahatmas Koot Hoomi and Morya Recorded in *The Mahatma Letters to A P Sinnett* the answers of these Teachers form an essential part of Theosophical literature At the time the Letters stormed the bastions of racial and religious prejudice and they continue to fascinate those seeking to probe the mysteries of the universe and the nature of consciousness Here is the most comprehensive magisterial discussion of *The Mahatma Letters* since they were first published in 1924 Eminent Theosophist Joy Mills bases her commentary on Vincente Hao Chin's 1999 edition of the Letters helpfully arranged chronologically to enable following the exposition as it originally unfolded Mills quotes Sinnett in emphasizing that the Mahatmas purpose was not to put the world into possession of occult knowledge but to train those who proved qualified so that they might ascend the path of spiritual progress Her focus then is on not only knowledge of the magnificent Occult Science but more significantly the ethical and moral values we must embrace to be of service to the world She offers her reflections on over 140 letters in the hope that they may prove useful to fellow students on the journey toward the spiritual heights May these letters call you as they have continued to call me to keep on exploring for truly there is no other way to go *Personal Memoirs Of H. P. Blavatsky* Helena Petrovna Blavatsky, Mary K. Neff, 2022-06-14 For those interested in Occultism and its greatest modern exponent this Autobiography of H P Blavatsky brings together all the available events experiences and relevant facts of that vigorous brave mysterious and wonderful life arranged in their proper sequence The task has been somewhat similar to what H P B describes as her method of writing *Isis Unveiled* When I think and watch my thoughts they appear to me as though they were like those little bits of wood of various shapes and colours in the game known as casse tete I pick them up one by one and try

to make them fit each other first taking one then putting it aside until I find its match and finally there comes out in the end something geometrically correct Printed Livets indre dimensioner Niels Brønsted, 2024-03-22 Med Livets indre dimensioner foreligger der for første gang på dansk en komprimeret og alligevel udtømmende pædagogisk fremstilling af den esoteriske lære Forfatteren har med baggrund i sit mangeårige virke som underviser på Den Esoteriske Skole samlet og redigeret hele sit gennemprøvede pensum inklusive illustrationer og kildehenvisninger Dermed appellerer bogen både til læsere der vil nøjes med det store overblik og dem der gerne vil læse videre Første del af trebindsværket Esoterisk filosofi giver en indføring i alle de esoteriske grundbegreber begyndende med den esoteriske skabelsesberetning og beskæftiger sig derudover med menneskets opbygning fysisk og åndelig reinkarnation og karma indvielsesvejen discipelskabets vej bevidsthedens udvikling kosmologi den esoteriske verdenshistorie den indre verdensstyrelse og devariget **Collected Writings** Helena Petrovna Blavatsky, 1954 The definitive edition of HPB's writings in 15 volumes Volume 6 is from 1883 1884 and 1885 and includes articles such as Tibetan Teachings on the dissociation of the Human Constitution after Death True Nature of Mediumship and its Relation to Chelaship A Bewitched Life one of H P B's Occult Stories
