The Buddha's Tooth John S. Strong, 2021-10-22 John S Strong unravels the storm of influences shaping the received narratives of two iconic sacred objects Bodily relics such as hairs teeth fingernails pieces of bone supposedly from the Buddha himself have long served as objects of veneration for many Buddhists Unsurprisingly when Western colonial powers subjugated populations in South Asia they used manipulated redefined and even destroyed these objects to exert control In *The Buddha's Tooth* John S Strong examines Western stories from the sixteenth to the twentieth century surrounding two significant Sri Lankan sacred objects to illuminate and concretize colonial attitudes toward Asian religions First he analyzes a tale about the Portuguese capture and public destruction in the mid sixteenth century of a tooth later identified as a relic of the Buddha Second he switches gears to look at the nineteenth century saga of British dealings with another tooth relic of the Buddha the famous Da ad enshrined in a temple in Kandy from 1815 when it was taken over by English forces to 1954 when it was visited by Queen Elizabeth II As Strong reveals the stories of both the Portuguese tooth and the Kandyan tooth reflect nascent and developing Western understandings of Buddhism realizations of the cosmopolitan nature of the tooth and tensions between secular and religious interests

Manuel Flores, 2007 The island of Ceilao occupied a permanent and singular place in the political imagination of early modern Portugal Concurrently the Portuguese left a strong imprint in the Sri Lankan collective memory of the period Five centuries later a group of historians art historians anthropologists and linguists reflect on the multiple dimensions of this phenomenon by rethinking texts and maps ruined churches and ivory caskets oral tales and Creole communities Authored by 15 international scholars Re exploring the Links is divided in four parts Political Realities and Cultural Imagination Religion Conflict and Interaction Space and Heritage Construction Representation Language and Ethnicity Identity and Memory While published on the occasion of the Portuguese arrival in Sri Lanka five centuries ago this book is far from being a celebratory piece Re exploring the Links does not conform to nationalist models of historical interpretation and refuses both the rhetoric of discovery and the rhetoric of aggression The aim of the volume is not to celebrate encounters but to reinvent an academic debate independent of any political agenda and concerning a history that is Portuguese and Sri Lankan alike
