Anonymity The Secret Life Of An American Family:

Anonymity Susan Bergman, 1994 Don Heche died of AIDS in 1983 at the age of forty five one of the earliest casualties of the disease But he was not the only victim of his illness he left behind a wife and four children How her family dealt with their predicament not only the loss of husband and father but the overwhelming knowledge of his secret homosexual life is the subject of Susan Bergman s powerful memoir Bergman s narration weaves back and forth through time as she juxtaposes childhood recollections with meditations on the breaking up of the Heche family and the lasting effects on those who survived She reexamines the family s images of themselves in the light of their new awareness looking for the telltale fault lines in what had seemed an all American story She seeks out her father s friends and companions in his other life including those who cared for him in his last days In the process she comes to a new understanding of her father her family and herself which has profound influence on the way she chooses to live her own life Susan Bergman writes with frankness conviction and impressive narrative art **Anonymity** is a heartrending memorable revelation of the hard truths and healing lessons of one family s extraordinary experience

Recovering Bodies G. Thomas Couser, 1997-11-01 This is a provocative look at writing by and about people with illness or disability in particular HIV AIDS breast cancer deafness and paralysis who challenge the stigmas attached to their conditions by telling their lives in their own ways and on their own terms Discussing memoirs diaries collaborative narratives photo documentaries essays and other forms of life writing G Thomas Couser shows that these books are not primarily records of medical conditions they are a means for individuals to recover their bodies or those of loved ones from marginalization and impersonal medical discourse Responding to the recent growth of illness and disability narratives in the United States such works as Juliet Wittman s *Breast Cancer Journal* John Hockenberry s *Moving Violations* Paul Monette s *Borrowed Time An AIDS Memoir* and Lou Ann Walker s *A Loss for Words The Story of Deafness in a Family* Couser addresses questions of both poetics and politics He examines why and under what circumstances individuals choose to write about illness or disability what role plot plays in such narratives how and whether closure is achieved who assumes the prerogative of narration which conditions are most often represented and which literary conventions lend themselves to representing particular conditions By tracing the development of new subgenres of personal narrative in our time this book explores how explicit consideration of illness and disability has enriched the repertoire of life writing In addition Couser s discussion of medical discourse joins the current debate about whether the biomedical model is entirely conducive to humane care for ill and disabled people With its sympathetic critique of the testimony of those most affected by these conditions *Recovering Bodies* contributes to an understanding of the relations among bodily dysfunction cultural conventions and identity in contemporary America

The Caregiver's Tale Ann Burack-Weiss, 2006-03-14 Ann Burack Weiss explores a rich variety of published memoirs by authors who cared for ill or disabled family members Contrary to the common belief that caregiving is nothing more than a stressful situation to be endured memoirs describe a life transforming

experience self discovery a reordering of one's priorities and a changed view of the world The Caregiver's Tale offers insight and comfort to individuals caring for a loved one and is a valuable resource for all health care professionals Identifying common themes Burack Weiss describes how the illness career and social meaning of cancer dementia HIV AIDS mental illness and chemical dependence affect the caregiving experience She applies the same method to an examination of family roles parents caring for ailing children couples and siblings caring for one another and adult children caring for aging parents Jamaica Kincaid Sue Miller Paul Monette Kenzaburo O and Philip Roth are among the many authors who share their caregiving stories Burack Weiss provides an annotated bibliography of the more than one hundred memoirs and an accompanying chart to help readers locate those of greatest interest to them

Homosexuality in the Work of Gore

Vidal Jörg Behrendt,2002 Since his first novel with a homosexual topic The City and the Pillar appeared in 1948 Gore Vidal has been seen as an enfant terrible of American letters Through his ongoing writing career he has examined homo sexuality in the context of cultural religious and socio political developments so that it is fascinating to revisit his critical sometimes cynical and always wittily presented ideas which were formed at a time when Gay Liberation Gay Literature and Gay Identity were still unheard of and to discover the meaning these ideas still hold for us today *Gettin' There* Steve

Farrar,2011-05-04 In *Gettin There* bestselling author Steve Farrar delves into the book of Psalms to give men a new sense of continuity direction purpose and perspective The Psalms are like a marked trail through life showing that others have walked ahead and faced many of the challenges temptations heartaches and perplexities that men will encounter on their journeys Farrar shows that when a man begins to understand that the strong and caring hand of God is sovereign over everything in his life including his trials and heartaches his confidence hope and joy will increase dramatically in the God who created him and desires to use him *Living in Death's Shadow* Emily K. Abel,2017-02-28

Challenging assumptions about caregiving for those dying of chronic illness What is it like to live with and love someone whose death while delayed is nevertheless foretold In *Living in Death's Shadow* Emily K Abel an expert on the history of death and dying examines memoirs written between 1965 and 2014 by family members of people who died from chronic disease In earlier eras death generally occurred quickly from acute illnesses but as chronic disease became the major cause of mortality many people continued to live with terminal diagnoses for months and even years Illuminating the excruciatingly painful experience of coping with a family member's extended fatal illness Abel analyzes the political personal cultural and medical dimensions of these struggles The book focuses on three significant developments that transformed the experiences of those dying and their intimates the passage of Medicare and Medicaid the growing use of high tech treatments at the end of life and the rise of a movement to humanize the care of dying people It questions the exalted value placed on acceptance of mortality as well as the notion that it is always better to die at home than in an institution Ultimately *Living in Death's Shadow* emphasizes the need to shift attention from the drama of death to the entire course of a serious chronic disease The chapters follow a common narrative of life

threatening disease learning the diagnosis deciding whether to enroll in a clinical trial acknowledging or struggling against the limits of medicine receiving care at home and in a hospital or nursing home and obtaining palliative and hospice care

Living in Death's Shadow is essential reading for everyone seeking to understand what it means to live with someone suffering from a chronic fatal condition including cancer AIDS Alzheimer's and heart disease Reconstructing Illness Anne Hunsaker Hawkins, 1999 Serious illness and mortality those most universal unavoidable and frightening of human experiences are the focus of this pioneering study which has been hailed as a telling and provocative commentary on our times As modern medicine has become more scientific and dispassionate a new literary genre has emerged pathography the personal narrative concerning illness treatment and sometimes death Hawkins's sensitive reading of numerous pathographies highlights the assumptions attitudes and myths that people bring to the medical encounter One factor emerges again and again in these case studies the tendency in contemporary medical practice to focus primarily not on the needs of the individual who is sick but on the condition that we call disease Pathography allows the individual person a voice one that asserts the importance of the experiential side of illness and thus restores the feeling thinking experiencing human being to the center of the medical enterprise Recommended for medical practitioners the clergy caregivers students of popular culture and the general reader Reconstructing Illness demonstrates that only when we hear both the doctor's and the patient's voice will we have a medicine that is truly human Luminous presence Alexandra Parsons, 2021-11-02

Luminous presence Derek Jarman's life writing is the first book to analyse the prolific writing of queer icon Derek Jarman Although he is well known for his avant garde filmmaking his garden and his AIDS activism he is also the author of over a dozen books many of which are autobiographical Much of Jarman's exploration of post war queer identity and imaginative response to HIV AIDS can be found in his books such as the lyrical AIDS diaries *Modern Nature* and *Smiling in Slow Motion* This book fully explores for the first time the remarkable range and depth of Jarman's writing Spanning his career Alexandra Parsons argues that Jarman's self reflexive response to the HIV AIDS crisis was critical in changing the cultural terms of queer representation from the 1980s onwards Luminous presence is of great interest to students scholars and readers of queer histories in literature art and film *New York Magazine* , 1994-02-14
