Another Tale To Tell Politics Narrativ:

Medieval Ovid: Frame Narrative and Political Allegory A. Gerber, 2015-03-20 Ovid's *Metamorphoses* played an irrefutably important role in the integration of pagan mythology in Christian texts during the Middle Ages This book is the only study to consider this Ovidian revival as part of a cultural shift disintegrating the boundaries between not only sacred and profane literacy but also between academic and secular politics

The Narrative Reader Martin McQuillan, 2000 The Narrative Reader aims to provide a comprehensive survey of narrative theories ranging from Plato to Post Structuralism The selection of texts is bold and broad demonstrating the extent to which narrative permeates the entire field of literature and culture It shows the ways in which narrative crosses disciplines continents and theoretical perspectives and is a long overdue and welcome addition to the field The Narrative Reader will fascinate students and researchers alike providing a much needed point of entry to the increasingly complex field of narrative theory

Identity, Narrative and Politics Maureen Whitebrook, 2014-04-04 Identity Narrative and Politics argues that political theory has barely begun to develop a notion of narrative identity instead the book explores the sophisticated ideas which emerge from novels as alternative expressions of political understanding This title uses a broad international selection of Twentieth Century English language works by writers such as Nadine Gordimer and Thomas Pynchon The book considers each novel as a source of political ideas in terms of content structure form and technique The book assumes no prior knowledge of the literature discussed and will be fascinating reading for students of literature politics and cultural studies

The Politics of Commitment Anthony M. Clohesy, 2025-11-19 This book examines the nature of our commitment to the long term survival of humanity It addresses the lack of a sustainable and ethical commitment to a shared and binding future for the well being of those who will come after us While other texts focus on the threats to our survival such as climate catastrophe or nuclear annihilation this study argues that a greater threat to our survival is our disposition of ambivalence about the value of future lives The other claim of the book is that to avoid our extinction we have to recover a sense of ourselves as beings worthy of salvation Clearly argued and jargon free the book will be useful for scholars with an academic interest in philosophy psychology sociology history culture studies and population ethics

Narrative and the Politics of Identity Phillip L. Hammack, 2010-12-28 Since the late nineteenth century Jews and Arabs have been locked in an intractable battle for national recognition in a land of tremendous historical and geopolitical significance While historians and political scientists have long analyzed the dynamics of this bitter conflict rarely has an archeology of the mind of those who reside within the matrix of conflict been attempted This book not only offers a psychological analysis of the consequences of conflict for the psyche it develops an innovative compelling and cross disciplinary argument about the mutual constitution of culture and mind through the process of life story construction But the book pushes boundaries further through an analysis of two peace education programs designed to fundamentally alter the nature of young Israeli and Palestinian life stories Hammack argues that these popular interventions rooted in the

idea of prejudice reduction through contact and the cultivation of cosmopolitan identities are fundamentally flawed due to their refusal to deal with the actual political reality of young Israeli and Palestinian lives and their attempt to construct an alternative narrative of great hope but little resonance for Israelis and Palestinians Grounded in over a century of literature that spans the social sciences Hammack's analysis of young Israeli and Palestinian lives captures the complex dynamic relationship among politics history and identity and offers a provocative and audacious proposal for psychology and peace education

The Routledge International Handbook on Narrative and Life History Ivor Goodson, Ari Antikainen, Pat Sikes, Molly Andrews, 2016-10-04 In recent decades there has been a substantial turn towards narrative and life history study The embrace of narrative and life history work has accompanied the move to postmodernism and post structuralism across a wide range of disciplines sociological studies gender studies cultural studies social history literary theory and most recently psychology Written by leading international scholars from the main contributing perspectives and disciplines The Routledge International Handbook on Narrative and Life History seeks to capture the range and scope as well as the considerable complexity of the field of narrative study and life history work by situating these fields of study within the historical and contemporary context Topics covered include The historical emergences of life history and narrative study Techniques for conducting life history and narrative study Identity and politics Generational history Social and psycho social approaches to narrative history With chapters from expert contributors this volume will prove a comprehensive and authoritative resource to students researchers and educators interested in narrative theory analysis and interpretation

The Year in C-SPAN Archives Research Robert X. Browning, 2018 C SPAN is the network of record for US political affairs broadcasting live gavel to gavel proceedings of the House of Representatives and the Senate and to other forums where public policy is discussed debated and decided without editing commentary or analysis and with a balanced presentation of points of view The C SPAN Archives located adjacent to Purdue University is the home of the online C SPAN Video Library The Archives has copied all of C SPAN's television content since 1987 Extensive indexing captioning and other enhanced online features provide researchers policy analysts students teachers and public officials with an unparalleled chronological and internally cross referenced record for deeper study The Year in C SPAN Archives Research presents the finest interdisciplinary research utilizing tools of the C SPAN Video Library Each volume highlights recent scholarship and comprises leading experts and emerging voices in political science journalism psychology computer science communication and a variety of other disciplines Each section within each volume includes responses from expert discussants Developed in partnership with the Brian Lamb School of Communication and with support from the C SPAN Education Foundation C SPAN Insights is guided by the ideal that all experimental outcomes including those from our American experiment can be best improved by directed study driving richer engagement and better understanding The Year in C SPAN Archives Research Volume 4 edited by Robert X Browning advances our understanding of the framing of mental health HIV AIDS policing and public health and explores

subjects such as audience reactions in C SPAN covered debates the Twitter presidency of Donald Trump and collaborative learning using the C SPAN Video Library *Race and Politics* James Jennings,1997-11-17 This sequel to Race Politics and Economic Development assembles case studies of cities such as Atlanta and Chicago with practical discussions of programmes designed to establish a more effective black politics It draws comparisons between racial politics on both sides of the Atlantic *Generational Consciousness, Narrative, and Politics* June Edmunds,Bryan S. Turner,2002-11-19 With the erosion of strong class theory sociologists have recently started to look at aspects of social stratification other than class One of the most interesting new areas of investigation is the sociology of generations This book brings together the work of scholars who are making a major contribution to this new sociological interest Through a combination of innovative theoretical and empirical studies this book shows that an analysis of generations is essential to an understanding of major social political and intellectual trends in the postwar period Each author brings to the volume insights from their own area of specialism with rich illustrative material spanning topics as diverse as African American identity and Spanish youth culture Theoretical inspiration also comes from a range of traditions including cultural and historical sociology social interactionism social and cognitive psychology and life course theory However a unifying thread emerges around questions about how generations should be conceptualized the role of trauma generating generational consciousness the relationship between auto biography and generational identity and the nature of inter and intra generational relationships This volume therefore provides a lively contribution to debates about the nature of generations and a stimulating basis for further work in this area
