Antarctic Fury:

Antarctica in Fiction Elizabeth Leane, 2012-06-29 This first comprehensive exploration of literary responses to Antarctica maps the far south as a space of the imagination Across the Top of the World James Delgado, 2009-12-01 The centuries long quest for the fabled Northwest Passage rivals the story of Antarctic exploration for heroism drama and tragedy Expedition after expedition set off in search of a sea route connecting Europe with Asia's riches each expedition suffered extreme hardship and ended in defeat until Roald Amundsen finally succeeded in 1903-06 Across the Top of the World brings this incredible saga to life through exhaustive research grim firsthand accounts and hundreds of dramatic images Paintings engravings and photos of the intrepid men and their ships as well as of relics and archaeological sites provide a poignant and compelling link with the past while landscapes and seascapes of the harsh yet beautiful Arctic illustrate the challenges that faced explorers Covering all the major expeditions in detail and written with passion and authority this book is both a scholarly reference and an eminently readable history of Arctic exploration Antarctica and the Arctic Circle Andrew J. Hund, 2014-10-14 This one stop reference is a perfect resource for anyone interested in the North and South Poles whether their interest relates to history wildlife or the geography of these regions in the news today Global warming a hot topic among scholars of geography and science has led to increased interest in studying the earth's polar ice caps which seem to be melting at an alarming rate This accessible two volume encyclopedia lays a foundation for understanding global warming and other issues related to the North and South Poles Approximately 350 alphabetically arranged user friendly entries treat key terms and topics important expeditions major figures territorial disputes and much more Readers will find information on the explorations of Cook Scott Amundsen and Peary articles on humpback whales penguins and polar bears and explanations of natural phenomena like the Aurora Australis and the polar night Expedition tourism is covered as is climate change Ideal for high school and undergraduate students studying geography social studies history and earth science the encyclopedia will provide a better understanding of these remote and unfamiliar lands and their place in today's world **The Polar Regions** Sir John Richardson, 1861 Progress of discovery in Arctic from 52 B C to Franklin search expeditions ending 1859 Arranged chronologically and by region Includes chapters on Svalbard polar currents ice winds temperature vegetation zoology geology and native people Progress of discovery in Antarctic is briefly described **Antarctic Fury** S. N. Livingston, 1991-01-01 *The Arctic Navy List, Or, A Century of Arctic & Antarctic Officers, 1773-1873* Sir Clements Robert Markham, 1875 **The Antarctic** Japan Antarctic Society, 1960 **Planet Comics #13** Various Authors, **Planet Comics #15** Various Authors, **Silent Screams of a Blue Shadow** Jason Brown, 2011-05-10 Silent Scream of a Blue Shadow is a thought provoking poetry book penned by a policeman who writes about emotions and feelings in short often deep and dark poetic verses that tear away at the festering scabs of society His poetry is often not for the faint hearted in its descriptive essence of life overall He tries to personify his writings to illustrate

the life behind the high walls we all put up and show us the reality that often we pretend does not exist His writing bears testimony to the sadness and chaotic life that surrounds all policemen and woman in many countries and tries to take the reader albeit for a short period into a life of a Blue Shadow
