Antifascism In American Art:

Antifascism in American Art Cécile Whiting, 1989-01-01 Whiting examines the various manifestations of antifacist art showing how each negotiated the competing demands of artistic conventions aesthetic and political theories and historical developments *American Artists Against War, 1935* 2010 David McCarthy, 2015-07-07 Artists against war and fascism Doom End your silence A network of artist activists Not in our name *America After the Fall* Sarah L. Burns, Teresa A. Carbone, Annelise K. Madsen, Sarah Kelly Oehler, 2016-01-01 A unique look at America's quest to carve out an artistic identity during the Depression era Through 50 masterpieces of painting this fascinating catalogue chronicles the turbulent economic political and aesthetic climate of the 1930s This decade was a supremely creative period in the United States as the nation's artists novelists and critics struggled through the Great Depression seeking to define modern American art In the process many painters challenged and reworked the meanings and forms of modernism reaching no simple consensus This period was also marked by an astounding diversity of work as artists sought styles ranging from abstraction to Regionalism to Surrealism that allowed them to engage with issues such as populism labor social protest and to employ an urban and rural iconography including machines factories and farms Seminal works by Edward Hopper Grant Wood Thomas Hart Benton Georgia O'Keeffe Aaron Douglas Charles Sheeler Stuart Davis and others show such attempts to capture the American character These groundbreaking paintings highlighting the relationship between art and national experience demonstrate how creativity experimentation and revolutionary vision flourished during a time of great uncertainty **The Federal Art Project and the Creation of Middlebrow Culture** Victoria Grieve, 2009 Art for everyone the Federal Art Project's drive for middlebrow visual culture and identity *Machine in the Studio* Caroline A. Jones, 1996 Drawing on extensive interviews with artists and their assistants as well as close readings of artworks Jones explains that much of the major work of the 1960s was compelling precisely because it was mainstream central to the visual and economic culture of its time **The Political Economy of Art** Julie F. Codell, 2008 Political economy is defined in this volume as collective state or corporate support for art and architecture in the public sphere intended to be accessible to the widest possible public raising questions about the relationship of the state to cultural production and consumption This collection of essays explores the political economy of art from the perspective of the artist or from analysis of art's production and consumption emphasizing the art side of the relationship between art and state This volume explores art as public good a central issue in political economy Essays examine specific cultural spaces as points of struggle between economic and cultural processes Essays focus on three areas of conflict theories of political economy put into practices of state cultural production sculptural and architectural monuments commissioned by state and corporate entities and conflicts and critiques of state investments in culture by artists and the public amazon.com edit desc *For the Millions* A. Swing Landscape Jennifer McComas, 2020-09-04 An insightful study of the progressive politics animating a great work of modernist mural painting In 1936 the Works Progress Administration s Federal Art Project commissioned Stuart Davis 1892 1964 to paint a mural for the Williamsburg Houses a New York City housing project Though the mural Swing Landscape was never installed in its intended location it survives as an impressive testament to Davis s energetic colorful brand of abstraction and the progressive politics that animated it This study explores the painting one of the greatest of twentieth century America and arguably Davis s most ambitious work This book challenges the prevailing tendency to separate Davis s leftist activism from his art and contextualizes Swing Landscape within 1930s abstract mural painting in New York emphasizing the politics of abstraction The book also offers the first comprehensive look at the Williamsburg mural commission including works by Willem de Kooning Ilya Bolotowsky and others The result is an indispensable resource on interwar modernism mural painting and urban development Published in association with the Sidney and Lois Eskenazi Museum of Art Indiana University Exhibition Schedule Sidney and Lois Eskenazi Museum of Art Indiana University February 5 May 22 2022

Out of Time Robert Slifkin, 2013-08-31 Focusing on the thirty three paintings that Philip Guston exhibited at the Marlborough Gallery in 1970 this in depth account reconsiders the history of postwar American art and the conception of figuration in modern art history Through a myriad of cultural touchstones including evidence from literary and musical vogues of the period Robert Slifkin examines the role of history as both artistic medium and creative catalyst to Guston s practice as a painter Slifkin employs a wealth of visual examples archival materials and original scholarship to situate Guston s paintings within broader artistic debates of the time using the cultural movement of the sixties as its orienting foreground This historical framework provides an interface between the notions of time in art and time in the material world Lively and edifying Slifkin s comprehensive text productively complicates the prescribed traditions of postwar art history and in turn shifts our perception of Guston and his place in the domain of modern art
