Digital Payments and the Cashless Economy Woosik Moon,2025-08-11 Against the backdrop of high Internet penetration and smartphone use coupled with the widespread diffusion of credit cards Korea has been leading the digital payment revolution transforming itself into a cashless society Woosik Moon analyses the current and future development of digital payments and methods in Korea ranging from CBDC Internet banking payment cards and digital wallets to crypto assets Moon explores a wide variety of new issues covering not only digital payments instruments and the digital industry but also the policy actions of the government and the Bank of Korea He argues that Korea may eliminate coins from circulation through adoption of alternative digital instruments and methods which is an important transitional stage towards a paper free cashless society Offering a comparative perspective to existing studies of digital payments in US and China this book will interest researchers and students in the field of monetary economics financial innovation and comparative economics

Mobile Media Use Among Children and Youth in Asia Andrew Zi Han Yee,2025-01-21 This book examines mobile media use among children and youths within an Asian context By studying the impact of mobile media on children and youth in Asia it focuses on the explosive growth of mobile media among young people and seeks to understand the potential consequences of mobile media use on society relationships and what it means to be a

young person With this it provides a richly contextualized Asian voice to research on mobile media and young people enriching the global conversation surrounding an increasingly central aspect of youths everyday lives Research on mobile media and its impact on children and youths in Asia is not thoroughly represented despite the proliferation of smartphone and tablet use in the region This volume fills this gap by canvassing contemporary research on mobile media children and youth in Asia through the perspectives of emerging scholars in the region and beyond It promotes an understanding of the motivations and patterns of use by children and youth in the region examines contemporary research on the antecedents and consequences of mobile media use on society relationships and the individual and provides a critique of mobile media use among children and youth The volume also provides a culturally sensitive examination of mobile media use among children and youth describing and analyzing policies enacted to manage young people s smartphone use It acknowledges Asia as a large and diverse region with differing linguistic cultural and sociopolitical traditions and contexts and so the work does as far as possible look to ensure geographic and cultural diversity by prioritizing works from countries that are typically underrepresented It is a relevant text to graduates and researchers in communication and media studies social and developmental psychology human development studies science and technology information systems and design science
