Bio musicology is an offshoot of NM. It deals with the impact of music on body, brain, mind and soul. Yesterday's Melodies Today's Memories Manek Premchand, 2018-12-27. Yesterday's Melodies Today's Memories is a rare collection of profiles of all important music makers of the Hindi Film Industry between 1931 and 1970. It not only gives a biographical background of each music artiste but it goes further to interview many of the surviving giants and completes the task by listing some of the best songs with which that person is associated. Here are singers that include the whole gamut from K.L. Saigal to Asha Bhosle; lyricists that include Sahir and Gulzar; music composers from Naushad to R.D. Burman; artistes that were part time singers and full time actors like Ashok Kumar; melody queens like Noor Jahan and Lata Mangeshkar; gentlemen lyricists like Prem Dhawan and gentlemen singers like Manna Dey; mischief makers like Kishore Kumar and rebels without a pause like O.P. Nayyar and Majrooh Sultanpuri. In fact, this book is a house in which all these great talents live happily, each in a separate room, given space for self expression. The serious research that has gone into this book is evident as you move from one chapter to another, opening layers after layers presented non seriously. Over 100 music makers are presented this way and many more in a huge single chapter.

'Performing' Nature Priyanka Basu, Radha Kapuria, 2025-02-18. This book is the first to explore the interconnections between ecology and performance in South Asia. Aiming to green studies of music and performance, this book explores intersections between ethnography, history, eco and ethnomusicology and film and performance studies by paying particular attention to the ecological turn more broadly visible in South Asian studies. The essays in the volume take inspiration from these different methodological strains in recent scholarship connecting the environment with South Asian music and performance traditions. The contributors address varied ecological settings of South Asian music and performance from

riverscapes to coastal communities and from the locations of instrument makers to negotiations of the climate crisis and the COVID 19 pandemic The book also covers the vast geographical sweep of South Asia from Pakistan in the northwest to Sri Lanka in the south and from Bangladesh in the east to the Malabar coast of southwest India The novelty of the volume lies not just in mapping the dialogism between ecology and music through reflections on liminality gender resistance and identity but also in bringing forth new archival strategies digitisation and digital cultures in conversation with ethnographic findings This book will be of value to students and scholars of arts and environmental studies particularly those interested in the relationship between art culture and environment within the realm of South Asian music and performance traditions The chapters in this book were originally published as a special issue of South Asia Journal of South Asian Studies and are accompanied by a new Foreword by Jim Sykes and an Afterword by Sugata Ray
