## **Beyond Prince And Merchant:**

Beyond Prince and Merchant John Burbidge, 1998 No longer are people willing to leave it to governments and business to lead Citizens are seizing the initiative and reclaiming their rightful place as the catalysts of social change Written by academics and practitioners from around the world who are striving to create a global civil society this book describes the challenges confronting civil society and provides inspiring examples of how these challenges are being met *Formative Modernities in the Early Modern Atlantic and Beyond* Veronika Hyden-Hanscho, Werner Stangl, 2023-02-14 This book offers a new perspective on the concept of modernity Since its invention as a contrast to Antiquity or the Middle Ages modernity has been tied to ideas of superiority progress and efficiency As a counterpart to the Marxist history of class struggle modernization theories have transformed modernity into an almost teleological concept of historical development These strong connotations obstruct a clear look at other forms of modernity The contributions of the volume will show in a comparative perspective how modernity can also be understood and analyzed as multiple responses of societies and polities to organize themselves in facing ever more complex and integrated interactions at ever larger scales Beyond the Pass James A. Millward, 1998-06-01 As analysis of the revenue available to Qing garrisons in Xinjiang reveals imperial control over the region in the eighteenth and nineteenth centuries depended upon sizeable yearly subsidies from China In an effort to satisfy criticism of their expansion into Xinjiang and make the territory pay for itself the Qing court permitted local authorities great latitude in fiscal matters and encouraged the presence of Han and Chinese Muslim merchants At the same time the court recognized the potential for unrest posed by Chinese mercantile penetration of this Muslim Turkic speaking area They consequently attempted through administrative and legal means to defend the native Uyghur population against economic depredation This ethnic policy reflected a conception of the realm that was not Sinocentric but rather placed the Uyghur on a par with Han Chinese Both this ethnic policy and Xinjiang s place in the realm shifted following a series of invasions from western Turkestan starting in the 1820 s Because of the economic importance of Chinese merchants and the efficacy of merchant militia in Xinjiang the Qing court revised its policies in their favor for the first time allowing permanent Han settlement in the area At the same time the court began to advocate provincehood and the Sinicization of Xinjiang as a resolution to the perennial security problem These shifts the author argues marked the beginning of a reconception of China to include Inner Asian lands and peoples a notion that would by the twentieth century become a deeply held tenet of Chinese nationalism *Beyond the Blue Moon* Simon R. Green, 2013-12-17 Two legendary heroes are called upon to save the nation of their birth in this fantasy adventure by the New York Times bestselling author It has been many years since the long night of the Blue Moon King Harald is dead and chaos reigns in the Forest Kingdom The long lost heroes of Blue Moon Rising must return in order to save the nation of their birth and it may already be too late A stunning revelation about the true identities of two Haven cops whom readers will recognize from Green s popular Hawk Fisher series awaits At long last revisit the world

of the Blue Moon A continuation of several of New York Times bestselling author Simon R Green s most beloved series Beyond the Blue Moon was chosen as one of the year s best books by Science Fiction Chronicle

**Civil Society and Women Activists in the Middle East** Wanda Krause,2012-05-27 In the Middle East and in Egypt in particular there has always been a tendency to accord complete supremacy to the authority and might of the state and to see society as a separate powerless entity However after the uprising of 2011 this assumption was turned on its head And it is the wide range of political activity beyond the remit of the official state where Wanda Krause locates a dynamic potential for political change from the bottom up She looks in particular at the influential role of women s private voluntary organisations in Egypt in shaping concepts of civil society and democracy Exploring both secular and Islamist organisations she offers a steadfast critique of the view that Islamic women activists are insignificant backward or uncivil Krause s examination of women activists in Egypt today is vital for those interested in Middle East and Gender Studies as well as those researching the wider issues of civil society and democratisation

**Processes of Community Change and Social Action** Allen M. Omoto,2014-04-08 This volume an outgrowth of the annual meeting of the Claremont Symposium on Applied Social Psychology focuses on examples of social change and community action and the processes at work in creating change The presenters engaged each other and the audience in thinking about how best to create and sustain social change This volume represents a product of their cumulative insight research results and perspectives including chapters from each of the symposium presenters as well as a few selected chapters from other noted scholars Taken as a whole the volume is highly accessible and presents findings from provocative and programmatic research that offer illuminating lessons for anyone interested in attempts at community change civic participation and social action Processes of Community Change and Social Action provides cutting edge and complementary approaches to understanding the causes and effects of broad civic participation The contributors to this volume are all distinguished researchers and theorists well known for their work on different aspects of processes of community change and social action They address topics related to service learning social movements political socialization civil society and especially volunteerism This unique interdisciplinary collection appeals to social personality community and developmental psychologists sociologists and public health researchers It also should be of considerable interest to practitioners of social action and individuals working to create social change

*Civil Society in Action*, 2001

**Growing Civil Society** Jon Van Til,2000 The third space is not independent from society s major institutions but exists in dynamic interdependence with them linking individuals in their home bases of family and community to the larger governmental and economic structures within which all citizens workers and consumers learn to seek their way in modern society

**Beyond Ambassadors** Maurits A. Ebben,Louis Sicking,2020-09-07 Because of the overarching shadow of the state in all things diplomatic traditional diplomatic history has neglected the study of any actors in foreign relations other than state diplomats such as ambassadors This volume focuses on the question of how and why

consuls missionaries and spies not formally tied to the state or a prince could play a role in premodern diplomatic relations It highlights their multiple loyalties their volatility and the porous boundaries of diplomatic activity Historical research on non state actors in the context of the so called new diplomatic history is all the more urgent as it demonstrates their undeniably significant contributions to the formation of Europe s international relations Contributors are Maurits Ebben Dante Fedele Alan Marshall Jacques Paviot Felicia Ro u Jean Baptiste Santamaria Louis Sicking and John Watkins **Beyond Boundaries** Linda Phyllis Austern, Candace Bailey, Amanda Eubanks Winkler, 2017-02-13 English music studies often apply rigid classifications to musical materials their uses their consumers and performers The contributors to this volume argue that some performers and manuscripts from the early modern era defy conventional categorization as amateur or professional native or foreign These leading scholars explore the circulation of music and performers in early modern England reconsidering previously held ideas about the boundaries between locations of musical performance and practice
