Beyond The Conventions Studies In Prose Writing:

Beyond the Conventions Jeanne Gunner, 1989 *L2 Writing Beyond English* Nur Yiğitoğlu Aptoula, Melinda Reichelt, 2019-04-10 Most of what we know about writing in a second or foreign language L2 is based on conclusions drawn from research on L2 writing in English However a significant quantity of L2 writing and writing instruction takes place in languages other than English and so there is a need for studies that look beyond English The chapters in this book focus on languages other than English and investigate curricular issues multiple languages in contact conflict in L2 writing instruction and student attitudes toward pedagogical practices The collection as a whole makes a valuable contribution to the study of L2 writing and it will also prove an essential resource for instructors of second and foreign language writing *Forthcoming Books* Rose Arny, 2001 WPA, Writing Program Administration , 1988 *Krishna Sobti's Views on Literature and the Poetics of Writing* Rosine-Alice Vuille, 2022-10-03 How does a writer discuss her creative process and her views on a writer's role in society How do her comments on writing relate to her works The Hindi writer Krishna Sobti 1925 2019 is known primarily as a novelist However she also extensively wrote about her views on the creative process the figure of the writer historical writing and the position of writers within the public sphere This study is the first to examine in detail the relationship between Sobti's views on poetics as exposed in her non-fictional texts and her own literary practice The writer's self-representation is analysed through her use of metaphors to explain her creative process Sobti's construction of the figure of the writer is then put in parallel with her idiosyncratic use of language as a representation of the heterogeneous voices of her characters and with her conception of literature as a space where time and memory can be held At the same time by delving into Sobti's position in the debate around women's writing especially through the creation of a male double the failed writer Hashmat and into her views on literature and politics this book also reflects on the literary debates of the post-Independence Hindi literary sphere Biennial Convention ... Historical Research, Creative Writing, and the Past Kevin A. Morrison, Pålvi Rantala, 2023-07-12 Although historical research undertaken in different disciplines often requires speculation and imagination it remains relatively rare for scholars to foreground these processes explicitly as a knowing method Historical Research Creative Writing and the Past brings together researchers in a wide array of disciplines including literary studies and history ethnography design film and sound studies who employ imagination creativity or fiction in their own historical scholarship or who analyze the use of imagination creativity or fiction to make historical claims by others This volume is organized into four topical sections related to representations of the past textual and conceptual approaches material and emotional approaches speculative and experiential approaches and embodied methodologies and covers a variety of temporal periods and geographical contexts Reflecting on the methodological theoretical and ethical underpinnings of writing history creatively or speculatively the essays situate themselves within current debates over epistemology and interdisciplinarity They yield new insights into
