

The background of the entire image is a deep space photograph, likely from the Hubble Space Telescope, showing a vast field of galaxies and stars. The galaxies are in various stages of formation and are scattered across the dark blue and black void of space. Some are bright and clear, while others are faint and distant. The stars appear as small, bright points of light, some with visible diffraction spikes. The overall color palette is dominated by deep blues, blacks, and the warm oranges and yellows of the distant celestial bodies.
