Between Worlds:

Between Worlds Frances E. Karttunen, 1994 Spanning the globe and the centuries Frances Karttunen tells the stories of sixteen men and women who served as interpreters and guides to conquerors missionaries explorers soldiers and anthropologists These interpreters acted as uncomfortable bridges between two worlds their own marginality the fact that they belonged to neither world suggests the complexity and tension between cultures meeting for the first time Some of the guides were literally dragged into their roles others volunteered The most famous ones were especially skilled at living in two worlds and surviving to recount their experiences Among outsiders the interpreters found protection sustenance recognition intellectual companionship and employment yet most of the interpreters ultimately suffered tragic fates *Between Worlds* addresses the broadest issues of cross cultural encounters imperialism and capitalism and gives them a human face

Between Worlds Lindsey Büster, Eugène Warmenbol, Dimitrij Mlekuž, 2018-12-18 The recent resurgence of academic interest in caves has demonstrated the central roles they played as arenas for ritual ceremony and performance and their importance within later prehistoric cosmologies Caves represent very particular types of archaeological site and require novel approaches to their recording interpretation and presentation This is especially true in understanding the ritual use of caves when the less tangible aspects of these environments would have been fundamental to the practices taking place within them *Between Worlds* explores new theoretical frameworks that examine the agency of these enduring natural places and the complex interplay between environment taphonomy and human activity It also showcases the application of innovative technologies such as 3D laser scanning and acoustic modelling which provide new and exciting ways of capturing the experiential qualities of these enigmatic sites Together these developments offer more nuanced understandings of the role of caves in prehistoric ritual and allow for more effective communication management and presentation of cave archaeology to a wide range of audiences

Between Worlds Will Pallister, 2008-01-01 William Pallister analyses the rhetorical methods that Milton uses throughout the poem and examines the effects of the three distinct rhetorical registers observed in each of the poem's major settings

Between Worlds Hava Tirosh-Samuelson, 1991-01-22 It is a work of sound scholarship dealing with an interesting historical figure and his unique cultural world The author focuses correctly on the transition from Italian to Ottoman Jewish culture in the life of David Messer Leon and reveals much about the continuities and discontinuities between both societies He nicely fuses social and intellectual history and uses a life to illuminate a number of interesting and important cultural trends among early modern Jews particularly the integration of kabbalah and philosophy Humanism and Thomism The presentation of the symbiotic nature of Jewish culture with contemporary intellectual trends and the appropriation of Christian theological strategies by a Jewish thinker to explain Judaism make this study a fascinating one

Between Worlds Yasna Bozhkova, 2022-07-07 This book provides a new critical reappraisal of the work of modernist writer and artist Mina Loy Primarily known for her daring and difficult poems Loy was also the author of a

dazzling variety of other literary and visual artworks in different genres and media My reading demonstrates the richness and complexity of her work beyond the more often explored path from Futurism to Dada to Surrealism emphasizing the importance of her perpetual travel between disparate aesthetics Engaging in a close analysis of her poetry essays manifestoes and novel *Insel* I unearth a multiplicity of hidden literary and pictorial intertexts in her works Tracing the origins of Loy's often puzzling imagery I examine the complex strategies of collage condensation distortion and displacement through which she conflates multiple allusions in enigmatic constellations I challenge T S Eliot's claim that Loy lacks an *œuvre* claiming that there is an aesthetic project or at least a paradoxical unity in her famously fragmented work I show how her writings critically engage with the turbulence of avant garde innovation of her time pinpointing the essential ephemerality of the avant gardes and their tendency to become dogmatic ideologies Through a perpetual shift of the aesthetic paradigm Loy's work creates dialogic exchanges between different experimental aesthetic programs Thus the book positions Loy not only as an important artist but also as a major theorist of modernist and avant garde aesthetics

Between Worlds Rosabelle Boswell, 2022-03-11 Because of the climate crisis and declining ocean health humans are increasingly in a liminal space between this world and imaginary alien worlds to come The poems raise the issue of climate change by foregrounding the centrality beauty and significance of the ocean and of marine life to humanity They suggest that all species live between worlds between fantasy and reality dreaming and wakefulness intuition and consciousness water and air We need all worlds to survive Serendipitously the poems were composed between dusk and dawn They are both part thoughts and whole thoughts that come to inspire my ethnographic writing

Writing-between-Worlds Ottmar Ette, 2016-02-22 This book proposes that there is no better no more complex way to access a community a society an era and its cultures than through literature For millennia literature from a wide variety of geocultural areas has gathered knowledge about life about survival and about living together without either falling into discursive or disciplinary specializations or functioning as a regulatory mechanism for cultural knowledge Literature is able to offer its readers knowledge through direct participation in the form of step by step intellectual and affective experiences Through this ability it can reach and affect audiences across great spatial and temporal distances Literature what different times and cultures have been able to understand as such in a broad sense has always been characterized by its transareal and transcultural origins and effects It is the product of many logics and it teaches us to think polylogically rather than monologically Literature is an experiment in living and living in a state of experimentation About the author Ottmar Ette has been Chair of Romance Literature at the University of Potsdam Germany since 1995 He is Honorary Member of the Modern Language Association of America MLA elected in 2014 member of the Berlin Brandenburg Academy of Sciences and Humanities elected in 2013 and regular member of the Academia Europaea since 2010

Words Between Worlds John Dominelli, 2023-11-30 In 1974 when John Dominelli was twenty years old he left his home in Port Coquitlam British Columbia on what he originally thought would be a six month working holiday in New

Zealand However not long into his journey feeling the seductive pull of the vast and mysterious world what started as a planned sojourn eventually turned into an epic three year spiritual odyssey taking him from New Zealand to Australia Asia India Europe and many points between John s journey was interrupted and enriched by a psycho emotional meltdown two serious illnesses a powerful psychedelic interlude with psilocybin mushrooms and a mystical encounter with Nisargadatta Maharaj the now well known sage from Bombay An epic coming of age memoir that is part love letter to a bygone age and part inspirational text stirring a desire in readers to seek out a life less ordinary *Caught between Worlds* Joe

Snader,2014-07-11 The captivity narrative has always been a literary genre associated with America Joe Snader argues however that captivity narratives emerged much earlier in Britain coinciding with European colonial expansion the development of anthropology and the rise of liberal political thought Stories of Europeans held captive in the Middle East America Africa and Southeast Asia appeared in the British press from the late sixteenth through the late eighteenth centuries and captivity narratives were frequently featured during the early development of the novel Until the mid eighteenth century British examples of the genre outpaced their American cousins in length frequency of publication attention to anthropological detail and subjective complexity Using both new and canonical texts Snader shows that foreign captivity was a favorite topic in eighteenth century Britain An adaptable and expansive genre these narratives used set plots and stereotypes originating in Mediterranean power struggles and relocated in a variety of settings particularly eastern lands The narratives rhetorical strategies and cultural assumptions often grew out of centuries of religious strife and coincided with Europe s early modern military ascendancy *Caught Between Worlds* presents a broad rich and flexible definition of the captivity narrative placing the American strain in its proper place within the tradition as a whole Snader having assembled the first bibliography of British captivity narratives analyzes both factual texts and a large body of fictional works revealing the ways they helped define British identity and challenged Britons to rethink the place of their nation in the larger world *Living Between*

Worlds James Hollis, Ph.D.,2020-06-23 What guides us when our world is changing Discover the path to deeper meaning and purpose through depth psychology and classical thought How did we get to this crossroads in history And will we make it through individually and as a species We all assumed that learning rationality and good intentions would prove enough to bring us to the promised land says Dr James Hollis But they haven t and won t Yet what we also do not recognize sufficiently is that this human animal is equipped for survival In time as we have seen of life s other insolubles we grow large enough to contain what threatened to destroy us Dr Hollis s readers know him as a penetrating thinker who brings profound insight and sophistication to the inner journey In *Living Between Worlds* he broadens his lens to encompass the relationship between our inner struggles and the rapidly shifting realities of modern human existence You will learn to invoke the tools of depth psychology classical literature philosophy dream work and myth to gain access to the resources that supported our ancestors through their darkest hours Through these paths of inner exploration you will access your locus of knowing an inner

wellspring of deep resilience beyond the ego always available to guide you back to the imperatives of your soul Though many of the challenges of our times are unique the path through for us personally and collectively will always rely on our measureless capacity for creativity wisdom and connection to a reality larger than ourselves Here you will find no easy answers or pat reassurances Yet within the pages of *Living Between Worlds* you will encounter causes for hope We can find what supports us when nothing supports us Hollis teaches By bearing the unbearable we go through the desert to arrive at a nurturing oasis we did not know was there
