

Benefits of a bilingual brain

MENTAL HEALTH

A multilingual brain is quicker, nimbler and more resistant to Alzheimer's and other forms of dementia.

ACADEMIC PERFORMANCE

Students in dual language programs consistently outperform monolingual peers on state-mandated tests, regardless of demographic.

PREPARATION FOR THE FUTURE

Bilingual adults have several advantages over monolingual adults, including higher average salaries and greater career opportunities.

Research shows that bilingual people have an easier time with these key brain functions:

Understanding math concepts and problems

Developing strong thinking skills

Using logic

Increasing reading comprehension

Focusing, remembering and making decisions

Cultivating greater cultural awareness

Language in the brain

Research also shows that the brains of bilingual people are more developed in areas that organize and process speech.
