## **Beyond Gay:**

**Beyond Diversity** Kazuyoshi Kawasaka, Stefan Würrer, 2024-01-29 Japan presents a unique context for conducting queer studies Unlike Europe North America and other regions of the world it is said to lack homophobia due to the absence of Christianity as moral foundation Furthermore the situation of LGBTQ people has changed rapidly over the past ten years as the Tokyo Olympics provided another impulse for discussions about sexual minority rights As a result recent surveys show a dramatic increase in the acceptance of same sex marriage However Japan is the only G7 country that does not recognize same sex partnerships and sexual minorities are not legally protected from discrimination This is due to deeply rooted traditional and religiously tainted family values represented and perpetuated by post war Japan's deeply conservative political establishment While LGBTQ issues in Japan have received scholarly attention since the 1990s there is little scholarship in English on developments after 2000 let alone in the form of anthologies This volume will bridge this gap by shedding light on political and cultural representations of and by sexual minorities in Japan after 2000 making thus available in English a completely novel perspective on LGBTQ issues in Japan and East Asia *Beyond NGO-ization* Kerstin Jacobsson, Steven Saxonberg, 2016-04-15 The celebrations marking the 20th anniversary of the fall of the Berlin Wall provoked a debate on the outcomes of the transition process in the post communist countries including a debate on the functioning of civil society This provided a good opportunity for researchers to collect new data and revise the discourse on collective action and the dynamics of civil society in these countries Jacobsson and Saxonberg's collection of essays looks at social movements and their forms of mobilization and organization as well as action repertoires in relation to the social context and their success or failure The book meets an important need in the discourse on post communist social movements by going beyond the usual discourse about the weak and non participatory civil society in the post communist context This book gives a nuanced and updated view of social movements in post communist Europe by looking at the cases of relatively successful mobilization by examining groups that have often been neglected in the discourse on social movements and civil society including animal rights groups racist movements and non feminist family organizations and by giving a deeper analysis of the different strategies that civil society organizations and groups can use Rather than expecting social movements in post communist Europe to follow the same patterns and operate in the same fashion as in Western Europe this volume shows that a wider view of contentious action is needed in order to understand the variety of strategies employed by collective actors operating in this context **Beyond Straight and Gay Marriage** Nancy D. Polikoff, 2008 Part of the Queer Ideas series edited by Michael Bronski QUEER IDEAS a new series of LGBT hardcovers that address important intellectual questions facing the movement The debate over marriage equality for same sex couples rages across the country Beyond Straight and Gay Marriage boldly moves the discussion forward by focusing on the larger more fundamental issue of marriage and the law The root problem asserts law professor and LGBT rights activist Nancy Polikoff is that marriage is a

bright dividing line between those relationships that legally matter and those that don't. A woman married to a man for nine months is entitled to Social Security survivor's benefits when he dies; a woman living for nineteen years with a man or woman to whom she is not married receives nothing. Polikoff reframes the debate by arguing that all family relationships and households need the economic stability and emotional peace of mind that now extend only to married couples. Unmarried couples of any sexual orientation, single parent households, extended family units, and myriad other familial configurations need recognition and protection to meet the concerns they all share: building and sustaining economic and emotional interdependence and nurturing the next generation. Couples should have the choice to marry based on the spiritual, cultural, or religious meaning of marriage in their lives, asserts Polikoff. While marriage equality for same-sex couples is a civil rights victory, she contends that no one should have to marry in order to reap specific and unique legal results. A persuasive argument that married couples should not receive special rights denied to other families, Polikoff shows how the law can value all families and why it must. A much needed intervention in the contemporary debate about marriage and family, Polikoff's argument is provocative, illuminating, and original.

John D. Emilio, author of *Lost Prophet: The Life and Times of Bayard Rustin*, mobilizes an impressive array of legal history and contemporary court cases to show how marriage, whether same-sex or heterosexual, has ceased to be the only place where people incur long-term obligations. She argues vigorously that our society needs to find new ways of determining when legally enforceable responsibilities and entitlements have accrued in interpersonal relationships.

Stephanie Coontz, author of *Marriage: A History: How Love Conquered Marriage*, says this book really matters. It is brilliant and thoughtful, not simply about a set of laws but as a manifesto to transform the way we understand, recognize, and respect the reality of our diverse and complex family compositions. Polikoff grounds her arguments in the 35-year history of social change activism in this country to construct a passionate and nuanced argument for expanding our same-sex marriage activism to include all of the ways people love, form families, and build community.

Amber Hollibaugh, Senior Strategist, National Gay and Lesbian Task Force, and author of *My Dangerous Desires: A Queer Girl Dreaming her Way Home*, says: "Passionate but completely grounded in reality, Polikoff challenges LGBT rights advocates to see beyond gay equality arguments and question the fundamental fairness of limiting family recognition based on marriage: gay or straight. It is a powerful call for social justice."

Nan D. Hunter, founder of the American Civil Liberties Union Lesbian Gay Bisexual Transgender Project and Professor of Law, Brooklyn Law School, says: "A provocative and perspicuous intervention in one of the most devilish recent debates in U.S. law and politics." In a principled yet pragmatic analysis, Polikoff mounts a compelling case against the continued grip of conjugalism on our family law and policy.

Beyond Straight and Gay: Marriage challenges us

Reclaiming Queer, Erin J. Rand, 2014-05-19. The activist reclamation of the word queer is one marker of this shift in ideology and practice, and it was mirrored in academic circles by the concurrent emergence of the new field of queer theory. That is, as queer activists were mobilizing in the streets, queer theorists were producing a similar ferment in the halls and

publications of academia questioning regulatory categories of gender and sexuality and attempting to illuminate the heteronormative foundations of Western thought. Notably the narrative of queer theory's development often describes it as arising from or being inspired by queer activism. In *Reclaiming Queer* Erin J. Rand examines both queer activist and academic practices during this period, taking as her primary object the rhetorical linkage of queer theory in the academy with street level queer activism.

**The Trouble with Normal** Michael Warner, 2000 Michael Warner, one of our most brilliant social critics, argues that gay marriage and other moves toward normalcy are bad not just for the gays but for everyone. In place of sexual status quo, Warner offers a vision of true sexual autonomy that will forever change the way we think about sex, shame, and identity.

**Beyond the Birds and the Bees** Greg Popcak, Lisa Popcak, 2014-06-26 *The Talk* It's one of the most daunting prospects parents face: Communicating the richness of Catholic teaching on sexuality in a faithful and effective way can be an overwhelming responsibility. But does it have to be so? In this thoroughly revised version of *Beyond the Birds and the Bees*, Greg and Lisa Popcak empower you with the tools needed to move well beyond *The Talk* by offering a comprehensive guide to raising sexually whole and holy children. Using the riches of Blessed John Paul II's *Theology of the Body*, the Popcaks help you safely navigate your children from infancy through the teenage years and beyond. This book answers the questions parents may have, including: What lessons must my children learn at each stage to develop a healthy Christian sexuality? How can I have age appropriate conversations about sensitive issues with my children? How can I teach my children what it takes to be a true Catholic man or woman? How can I help my children have healthy Christian dating relationships and much more.

*Becoming Subjects: Sexualities and Secondary Schooling* Mary Louise Rasmussen, 2012-11-12 This book focuses on key contemporary discourses related to sexualities and schooling. Such discourses include educational strategies used to support lesbian, gay, bisexual, and transgender (LGBT) students; considerations of how educators might influence students' sexual identity narratives; of risk and violence often associated with LGBT youth; stories of salvation and protection as well as debates relating to the closet and calls to come out in the classroom. People often left out of discussions of sexualities and schooling are also incorporated in this text.

**Sexualised Governmentalities** Angelos Bollas, 2024-04-25 This book critically examines the concept of sexualised governmentalities, a framework for understanding the evolving discourse and power dynamics surrounding discrimination on the basis of sexual practices. Central to this exploration is the shift from traditional heteronormative perspectives to a more complex hetero-homonormative context where the structure and organisation of sexual relationships gain prominence over the gender or sexual orientation of the participants. A key focus of the book is the concept of homophobia within the realm of gay masculinity studies. The author discusses homophobia as a form of discrimination experienced by gay men from other gay men, highlighting the influence of heteronormative patriarchal society on these interactions. It calls for a broader recognition and acceptance of diverse sexual expressions and challenges the reader to re-evaluate the societal norms around masculinity.

and sexual behaviour *Sexualised Governmentalities* is an important contribution to the discourse on sexual identity and practice offering insights for a more inclusive and empathetic understanding of sexual diversity

**The Making of a Gay Muslim** Shanon Shah, 2017-10-17 This book highlights the lived experiences of gay Muslims in Malaysia where Islam is the majority and official religion and in Britain where Muslims form a religious minority By exploring how they negotiate their religious and sexual identities Shah challenges the notion that Islam is inherently homophobic and that there is an unbridgeable divide between Islam and the West Shah also gained access to gay Muslim networks and individuals for his in depth research in both countries and the book investigates the different ways that they respond to everyday anti homosexual or anti Muslim sentiments Amid the many challenges they confront the gay Muslims whom Shah encountered find innovative and meaningful ways to integrate Islam and gay identity into their lives *The Making of a Gay Muslim* will appeal to students and scholars with an interest in contemporary Islam religion gender and sexuality
