Beyond The Bbc Broadcasters And The Public In The L980s:

Beyond the BBC Tim Madge,1989-09-01 This critical study examines the current state of broadcasting in Britain and attempts to describe the mood of broadcasters in the 1980s and the mood of the audiences they serve A comparison is made between the operation of the UK s oldest and newest public television broadcasting systems **Beyond the BBC** Tim Madge,1989 **Branding Television** Catherine Johnson,2012-03-12 Branding Television examines why and how the UK and US television industries have turned towards branding as a strategy in response to the rise of satellite cable and digital television and new media such as the internet and mobile phone This is the first book to offer a sustained critical analysis of this new cultural development Branding Television examines the industrial regulatory and technological changes since the 1980s in the UK and the USA that have led to the adoption of branding as broadcasters have attempted to manage the behaviour of viewers and the values associated with their channels services and programmes in a world of increased choice and interactivity Wide ranging case studies drawn from commercial public service network and cable satellite television from NBC and HBO to MTV and from BBC and Channel 4 to UKTV and Sky analyse the role of marketing and design in branding channels and corporations and the development of programmes as brands Exploring both successful and controversial uses of branding this book asks what problems there are in creating television brands and whether branding supports or undermines commercial and public service broadcasting Branding Television extends and complicates our understanding of the changes to television over the past 30 years and of the role of branding in contemporary Western culture It will be of particular interest to students and researchers in television studies but also in creative industries and media and cultural studies more generally **Beyond Bauman** Michael Hviid Jacobsen,2016-10-26 Bringing together leading interpreters of Zygmunt Bauman s sociology this volume thinks with and beyond Bauman s work in order to show its continued relevance as a theory in its own right as an object of criticism and as a stepping stone towards a fuller understanding of contemporary society The volume deals with some proposed omissions and absences in Bauman s sociology with chapters comparing Bauman s ideas to those of other prominent social thinkers as well as chapters devoted to teasing out some problems and pitfalls in his work Paying attention to central concepts and themes of Bauman s thought authors engage with various aspects of his work considering potential deficiencies in his ethical perspective his neglect of the religious dimensions of modernity his lack of consideration for ethnicity and gender his overlooking the importance of socialisation in liquid modernity and his problematic argument for individual choice and freedom in a world that is increasingly closed down by consumer capitalism Beyond Bauman aspires to show that despite Bauman s status as a key sociological thinker there are also certain deficiencies in his work demand critical discussion It will be of use to scholars of sociology contemporary society social theory and modernity **British Book News** ,1990 **Broadcasting and the NHS in the Thatcherite 1980s** Patricia Holland,2013-07-26 Patricia Holland offers a fascinating study of the ways in which changes to public services and

shifts in the concept of the public under Margaret Thatcher's three Conservative governments were mediated by radio and television in the 1980s The Politics of Public Broadcasting in Britain and Japan Henry Laurence, 2022-07-29 The BBC and NHK have dominated their national media systems since the 1920s and still play a central role in shaping political social and cultural life Both are highly trusted news organizations and vitally influence national identity Yet despite remarkably similar organizational and funding structures they differ in their editorial autonomy relationship to the state and in the social and cultural roles they play While the BBC proud of its independence acts as a watchdog on the powerful NHK prefers a guide dog role cooperating with rather than confronting political elites The BBC is also more willing to challenge prevailing social norms often serving as an agent of social change NHK prefers to avoid controversy serving as an agent of social stability The book argues that these differences were shaped by decades of conflict and cooperation between broadcasters governments commercial media interest groups and audiences The broadcasters adopted distinctive editorial strategies to retain public support and elite approval in the face of technological upheaval hostility from commercial rivals and continuous political interference Both however continue to uphold the belief that democratic and social goals are better served by public rather than commercial media **The Economics of the Mass Media** Gillian Doyle, 2006 The study of the mass media has flourished over recent decades Whereas media and communications have traditionally been studied via the lens of sociology or other non economic disciplines the perspectives and frameworks offered by economics are now properly recognised as central to our understanding of the organization and behaviour of the mass media a fact reflected in this unique collection As more and more economists have turned their attention to media firms and industries a rich and diverse body of literature has emerged The articles drawn together in this volume present a survey of the papers that have contributed in important ways to this developing field of enquiry **Now that's what I call a history of the 1980s** Lucy Robinson, 2023-07-18 Now that's what I call a history of the 1980s tells the story of eighties Britain through its popular culture Charting era defining moments from Lady Diana's legs and the miners strike to Glastonbury's Pyramid Stage and Adam and the Ants Lucy Robinson weaves together an alternative history to the one we think we know This is not a history of big geopolitical disasters or a nostalgic romp through discos shoulder pads and yuppie culture Instead the book explores a mashing together of different genres and fan bases in order to make sense of our recent past and give new insights into the decade that defined both globalisation and excess Packed with archival and cultural research but written with verve and spark the book offers as much to general readers as to scholars of this period presenting a distinctive and definitive contemporary history of 1980s Britain from pop to politics to cold war cultures censorship and sexuality British Television Edward Buscombe, 2000 OXFORD TELEVISION STUDIES General Editors Charlotte Brunsdon and John Caughie Oxford Television Studies offers international authors both established and emerging an opportunity to reflect on particular problems of history theory and criticism which are specific to television and which are central to its critical understanding The perspective of the series will be international while

respecting the peculiarities of the national it will be historical without proposing simple histories and it will be grounded in the analysis of programmes and genres The series is intended to be foundational without being introductory or routine facilitating clearly focused critical reflection and engaging a range of debates topics and approaches which will offer a basis for the development of television studies British television has been a success story One factor in this success has been the distinctive institutional structure of British broadcasting a mix of state regulated and publicly funded services with commercial services This book attempts to give a broad overview of British television by examining both the institutional framework and the programmes that it has produced A range of reprinted writings from the work of acknowledged experts is supplemented by specially commissioned essays on such key topics as sport and British television in the global context It will be a key text for all students taking courses on British television and broadcasting
