Beyond The Green Line Israeli Settlements West Of The Jordan:

Beyond the Green Line David J. Schnall, 1984-01-01 *Women in Zones of Conflict* Tami Amanda Jacoby, 2005 Tami Amanda Jacoby investigates the constraints and opportunities for women's civic engagements in zones of conflict through a case study of three women's political movements in Israel *Women in Green* The Jerusalem Link and the lobby for women's right to fight in the Israeli Defence Forces IDF Filling a void in feminist studies of women and war *Women in Zones of Conflict* challenges the traditional view which suggests a natural connection between women and pacifism based on the feminine qualities of caring cooperation and empathy Feminist studies of nationalism also envision women as either victimized by patriarchy within nationalist movements or as adopting masculine qualities to conform to the culture of their male compatriots Jacoby takes an alternative approach considering how women are situated across the political spectrum She argues that when categories other than gender such as class ethnicity religion and political perspective are considered there is no single perspective on what it means to be a woman in conflict **Jewish Messianic Thoughts in an Age of Despair** Kenneth Seeskin, 2012-02-06 Belief in the coming of a Messiah poses a genuine dilemma From a Jewish perspective the historical record is overwhelmingly against it If despite all the tragedies that have befallen the Jewish people no legitimate Messiah has come forward has the belief not been shown to be groundless Yet for all the problems associated with messianism the historical record also shows it is an idea with enormous staying power The prayer book mentions it on page after page The great Jewish philosophers all wrote about it Secular thinkers in the twentieth century returned to it and reformulated it And victims of the Holocaust invoked it in the last few minutes of their life This book examines the staying power of messianism and formulates it in a way that retains its redemptive force without succumbing to mythology

Theologies of Liberation in Palestine-Israel Nur Masalha, Lisa Isherwood, 2014-04-29 This collection of essays concerns the development of contextualized theologies of liberation in Palestine and the indigenous Palestinian people's struggle for justice and liberation The work is innovative because of its inclusion of indigenous perspectives within its remit and the introduction of new concepts such as civil liberation theology The collection offers other ways to look at biblical discourses and their impact on the ongoing conflict ways to live peace ways to be ethical when visiting these conflicted lands understandings of resource ethics and even a new way to understand how we approach our understanding of liberation theology Contributors include well known scholars from Muslim Jewish Christian Palestinian Israeli Indian American and British contexts This work goes beyond standard academic collections It is aimed not only at scholars and students but also at peace activists and policymakers It should be of use not only in academic courses but also for practitioners of conflict resolution peace and reconciliation [The Routledge Atlas of the Arab-Israeli Conflict](#) Martin Gilbert, 2005 The Routledge Atlas of the Arab Israeli Conflict traces not only the tangled and bitter history of the Arab Jewish struggle from the early 20th century to the present It also illustrates the move towards finding peace and the efforts to bring the horrors of the fighting to

an end through negotiation and proposals for agreed boundaries Through 167 maps the complete history of the conflict is revealed including the prelude and background to the conflict from the siting of the Palestinian Jews before the Arab conquest to the attitude of Britain to the Arabs between 1917 and the present the Jewish national home from the Zionist plan for Palestine in 1919 to the state of the Arab world from 1945 to 1962 the intensification of the conflict from the Arab response to the UN partition plan of 1947 to the first steps towards the independence of Israel in 1948 the State of Israel from the Israeli War of Independence and the Six Day War to the horrific War of Yom Kippur and the Intifada the moves to find peace from Camp David to the escalating troubles of the present day including the Geneva peace plan and the construction of the security fence With a new index and accompanied by powerful and compelling quotations this clear illuminative and highly informative new edition from Martin Gilbert is an absolute must for all students of history

Essential Papers on Messianic Movements and Personalities in Jewish History Marc Saperstein, 1992-04 The messianic idea that a redeemer sent by God will come to end the suffering of a persecuted people and inaugurate a new age of justice and peace has been one of the most powerful and influential concepts given by the Jewish people to western civilization This book represents a sample of the most penetrating and provocative scholarly interpretations of Jewish messianic movement from various perspectives historical sociological psychological and religious

Divided Cities Jon Calame, Esther Charlesworth, 2011-11-29 In Jerusalem Israeli and Jordanian militias patrolled a fortified impassable Green Line from 1948 until 1967 In Nicosia two walls and a buffer zone have segregated Turkish and Greek Cypriots since 1963 In Belfast peaceline barricades have separated working class Catholics and Protestants since 1969 In Beirut civil war from 1974 until 1990 turned a cosmopolitan city into a lethal patchwork of ethnic enclaves In Mostar the Croatian and Bosniak communities have occupied two autonomous sectors since 1993 These cities were not destined for partition by their social or political histories They were partitioned by politicians citizens and engineers according to limited information short range plans and often dubious motives How did it happen How can it be avoided Divided Cities explores the logic of violent urban partition along ethnic lines when it occurs who supports it what it costs and why seemingly healthy cities succumb to it Planning and conservation experts Jon Calame and Esther Charlesworth offer a warning beacon to a growing class of cities torn apart by ethnic rivals Field based investigations in Beirut Belfast Jerusalem Mostar and Nicosia are coupled with scholarly research to illuminate the history of urban dividing lines the social impacts of physical partition and the assorted professional responses to self imposed apartheid Through interviews with people on both sides of a divide residents politicians taxi drivers built environment professionals cultural critics and journalists they compare the evolution of each urban partition along with its social impacts The patterns that emerge support an assertion that division is a gradual predictable and avoidable occurrence that ultimately impedes intercommunal cooperation With the voices of divided city residents updated partition maps and previously unpublished photographs Divided Cities illuminates the enormous costs of

physical segregation **Religious Resurgence** Richard T. Antoun, Mary Elaine Hegland, 1987 *The Zionist Bible* Nur Masalha, 2014-10-20 Throughout the history of European imperialism the grand narratives of the Bible have been used to justify settler colonialism The Zionist Bible explores the ways in which modern political Zionism and Israeli militarism have used the Bible notably the Book of Joshua and its description of the entry of the Israelites into the Promised Land as an agent of oppression and to support settler colonialism in Palestine The rise of messianic Zionism in the late 1960s saw the beginnings of a Jewish theology of zealotocracy based on the militant land traditions of the Bible and justifying the destruction of the previous inhabitants The Zionist Bible examines how the birth and growth of the State of Israel has been shaped by this Zionist reading of the Bible how it has refashioned Israeli Jewish collective memory erased and renamed Palestinian topography and how critical responses to this reading have challenged both Jewish and Palestinian nationalism

The Walls of Jerusalem Alan Balfour, 2019-03-06 A complete examination of the men and forces that created and shaped the modern state of Israel over the last hundred years Walls of Jerusalem is a study of the creation and evolution of the modern state of Israel This unique work begins with the actions of four extraordinary men Theodor Herzl Chaim Weizmann Ze'ev Jabotinsky and David Ben Gurion and follows with their influence on subsequent leaders and on the political and military decisions that have shaped and changed Jerusalem and the nation The resulting physical reality has made concrete the shift in vision from the broad utopian ideals of the beginning to the separation barrier and settlement enclaves that increasingly divide both Jewish and Palestinian cultures The author traveled across the West Bank into the Israeli settlements and along the Israeli security barrier dividing Israel from Palestine He entered the tombs mosques and synagogues experienced the distortion of Jerusalem since the building of the separation barrier the watchtowers the welded gates the shuttered shops divided highways and back ways tunnels bridges checkpoints to better understand evolving reality that defines the stage for the future relationship between Israel and Palestine Walls of Jerusalem is a timely book its vivid narrative journeys through a century and a half of dreams and conflicts that lead to a divided Jerusalem It presents each stage of Israel's evolution from the 1896 publication of Herzl's *Der Judenstaat* and the Balfour Declaration to the opening of the United States embassy in Jerusalem in 2018 Relates the visions of Israel's creators to the destructive and constructive forces utilized to create a new nation Reviews the century long attempts by international organizations to resolve the conflict between Jews and Palestinians Makes every effort to present a balanced exploration of challenges facing the state of Israel and its place on the world stage but in conclusion gives emphasis to the plight of the Palestinians Integrates illustrations with text to provide a detailed portrait of central figures in modern Israel's history
