Beyond the Traditional Essay: Increasing Student Agency in a Diverse Classroom with Nondisposable Assignments Melissa Ryan, Kerry Kautzman, 2022-07-12 This volume offers a range of responses to the problem of disposable assignments essays written just for a grade and then thrown away The scholars collected here explore how renewable assignments can contribute to public knowledge eliciting student work that is shared across networks of

learning that does something that transcends the teacher's grade. Although there is significant interest in such innovative teaching practices, particularly in this year of pedagogical experimentation, there are few resources for teachers that collect in one place both scholarly context and practical advice for implementing renewable assignments in the classroom. The essays in this volume range widely from demonstrating how digital tools engage and empower reluctant learners to raising theoretical questions around intellectual property to measuring the success of renewable assignments through outcomes assessment.

Ecclesial Identification beyond Late Modern Individualism? Karl Inge Tangen, 2012-03-06 Why do some late modern churches grow counter to the trend in Western Europe? Why do people identify with such churches and does identification lead to morally transforming commitments beyond late modern consumerism? This case study investigates these questions based on real-life or empirical research which include both the level of individual life strategies and organisational practice in two growing European churches. This innovative and interdisciplinary study draws on recent findings in theology, moral philosophy, sociology, and organisational psychology. Its findings may prove useful not only for scholars in these disciplines; it may also enrich the reflection of practitioners who seek to perform the difficult art of transformational leadership in a late modern context.

Beyond the Casebook, 1990 *Faith Beyond Belief* Margaret Placentra Johnston, 2012-09-25 *Faith Beyond Belief* gives a much-needed voice to the good people who have left their church but whose spirituality continues to mature. Johnston uses first-person stories as well as known spiritual authorities in describing various stages of religious growth. Some of these real-life accounts are by nonbelievers; others are by those among the growing numbers of the spiritual but not religious. All are thoughtful people with too much integrity to live what they consider a lie. The stories of the nonbelievers, including an ex-Catholic, a former Mormon, and a clandestine Muslim apostate who left his community after the attacks of 9/11, show how complete confidence in human reason can lead away from literal religious interpretation. But while that step is a necessary one on the spiritual path, it is only intermediate. Her second set of stories are of people at the mystic level who can tolerate paradox and see truth and reality as multidimensional. Johnston's book will help doubters to see things in a new light as well as those who are struggling to clarify their own spiritual vision. It also points beyond the atheist-believer controversy, wrecking such divisive havoc in our culture today.
