Approaching the Dhamma: Buddhist Texts and Practices in South and Southeast Asia Jeffrey Samuels, Anne M. Blackburn, 2020-05-04 Eleven eminent Buddhist studies scholars have contributed essays to this collection assembled to celebrate the life of the late Sri Lankan scholar social worker and meditation master Godwin Samararatne Note This title was previously published under ISBN 9781928706199 Due to technical issues a new ISBN had to be assigned Rest assured that both versions of this title are exactly the same [Buddhist Approach to Harmonious Families, Healthcare and Sustainable Societies](#) Thich Duc Thien, Thich Nhat Tu, 2019-04-16 EDITORS

INTRODUCTION BACKGROUND There have been major changes in world today and that the term Global Leadership and Sustainable Development is no longer taken for granted as a point of reference for understanding the contemporary chaotic situation These disruptive changes mean that it is now arguable as to whether we still live in a world of justice equality peace and prosperity The nature of these changes and the concepts of the Buddhist approach are central to the whole project of this book In this light we place great emphasis on understanding Buddhist teaching in dealing with this matter We argue that any investigation of the changing character and context of the present time needs to take account of the Buddhist philosophy We focus on providing a thorough and critical understanding of change taking place as a starting point of discussion In doing so we attempt to clarify the nature of the Buddhist approach It may be more productively understood as the result of a complex contested and fragile set of arrangements which in this book we term as approach We do not imply that the frameworks based on the Buddhist teachings are fully fixed and agreed by everybody Rather it would refer to a set of arrangements that need to be further discussed Given the above this volume collects together papers presented at the international workshop on Buddhist Approach to Harmonious Families Healthcare and Sustainable Societies which took place on 13 May 2019 at International Conference Center Tam Chuc Ha Nam Vietnam on the occasion of THE 16TH UNITED NATIONS DAY OF VESAK CELEBRATIONS 2019 The participants in this workshop were not representative of the mainstream thinking or conventional wisdom of this field although this volume reflects this richness and diversity Treating the Buddha teachings as a basic theoretical reconstruction we examine the relationships between the societies and Buddhist responsibilities We combine analyses of the conflicts trends and dynamics affecting future development with more focused studies on a range of policy areas migration education leadership climate change etc Two of our most crucial presumptions are that making Buddhism great again at the time of disruption is our first and foremost duty and the Buddhist responsibility can contribute to creating a new foundation for Global Leadership and Sustainable Development **Buddhism Across Asia** Tansen Sen, 2014-11-11 e Buddhism across Asia is a must read for anyone interested in the history and spread of Buddhism in

Asia It comprises a rich collection of articles written by leading experts in their fields Together the contributions provide an in depth analysis of Buddhist history and transmission in Asia over a period of more than 2000 years Aspects examined include material culture politics economy languages and texts religious institutions practices and rituals conceptualisations and philosophy while the geographic scope of the studies extends from India to Southeast Asia and East Asia Readers knowledge of Buddhism is constantly challenged by the studies presented incorporating new materials and interpretations Rejecting the concept of a reified monolithic and timeless Buddhism this publication reflects the entangled dynamic and multi dimensional history of Buddhism in Asia over extended periods of integration development of multiple centres and European expansion which shaped the religion s regional and trans regional identities e Max Deeg Cardiff University *Diaspora Engagement and Development in South Asia* T. Yong,M. Rahman,2013-10-11 A global cast of contributors document the various forms of diaspora engagement philanthropy volunteerism advocacy entrepreneurship and virtual diaspora in South Asia and provide insights on how to tap the development potential of diaspora engagement for countries in South Asia

Religion and Identity in the South Asian Diaspora Rajesh Rai,Chitra Sankaran,2017-07-05 Religious identity constitutes a key element in the formation development and sustenance of South Asian diasporic communities Through studies of South Asian communities situated in multiple locales this book explores the role of religious identity in the social and political organization of the diaspora It accounts for the factors that underlie the modification of ritual practice in the process of resettlement and considers how multicultural policies in the adopted state trans generational changes and the proliferation of transnational media has impacted the development of these identities in the diaspora Also crucial is the gender dimension in terms of how religion and caste affect women s roles in the South Asian diaspora What emerges then from the way separate communities in the diaspora negotiate religion are diverse patterns that are strategic and contingent Yet paradoxically the dynamic and evolving relationship between religion and diaspora becomes necessary even imperative for sustaining a cohesive collective identity in these communities This book was published as a special issue of South Asian Diaspora Little Buddhas Vanessa R. Sasson,2013 Consideration of children in the academic field of Religious Studies is taking root but Buddhist Studies has yet to take notice Little Buddhas brings together a wide range of scholarship and expertise to address the question of what role children have played in Buddhist literature in particular historical contexts and what role they continue to play in specific Buddhist contexts today The volume is divided into two parts one addressing the representation of children in Buddhist texts the other children and childhoods in Buddhist cultures around the world The ground breaking contributions in this volume challenge the perception of irreconcilable differences between Buddhist idealism and family ties Little Buddhas will be an indispensable resource for students and scholars of Buddhism and Childhood Studies and a catalyst for further research on the topic **Buddhist and Islamic Orders in Southern Asia** R. Michael Feener,Anne M. Blackburn,2018-01-31 Over the last few decades historians and other scholars have succeeded in

identifying diverse patterns of connection linking religious communities across Asia and beyond Yet despite the fruits of this specialist research scholars in the subfields of Islamic and Buddhist studies have rarely engaged with each other to share investigative approaches and methods of interpretation This volume was conceived to open up new spaces of creative interaction between scholars in both fields that will increase our understanding of the circulation and localization of religious texts institutional models ritual practices and literary specialists The book s approach is to scrutinize one major dimension of the history of religion in Southern Asia religious orders Orders here referring to Sufi ar qas and Buddhist monastic and other ritual lineages established means by which far flung local communities could come to be recognized and engaged as part of a broader world of co religionists while presenting their particular religious traditions and their human representatives as attractive and authoritative to potential new communities of devotees Contributors to the volume direct their attention toward analogous developments mutually illuminating for both fields of study Some explain how certain orders took shape in Southern Asia over the course of the nineteenth century contextualizing these institutional developments in relation to local and transregional political formations shifting literary and ritual preferences and trade connections Others show how the circulation of people ideas texts objects and practices across Southern Asia a region in which both Buddhism and Islam have a long and substantial presence brought diverse currents of internal reform and notions of ritual and lineage purity to the region All chapters draw readers attention to the fact that networked persons were not always strongly institutionalized and often moved through Southern Asia and developed local bases without the oversight of complex corporate organizations

Buddhist and Islamic Orders in Southern Asia brings cutting edge research to bear on conversations about how orders have functioned within these two traditions to expand and sustain transregional religious networks It will help to develop a better understanding of the complex roles played by religious networks in the history of Southern Asia Thailand's International Meditation Centers Brooke Schedneck,2015-05-15 This book explores contemporary practices within the new institution of international meditation centers in Thailand It discusses the development of the lay vipassana meditation movement in Thailand and relates Thai Buddhism to contemporary processes of commodification and globalisation Through an examination of how meditation centers are promoted internationally the author considers how Thai Buddhism is translated for and embodied within international tourists who participate in meditation retreats in Thailand Shedding new light on the decontextualization of religious practices and raising new questions concerning tourism and religion this book focuses on the nature of cultural exchange spiritual tourism and religious choice in modernity With an aim of reframing questions of religious modernity each chapter offers a new perspective on the phenomenon of spiritual seeking in Thailand Offering an analysis of why meditation practices appeal to non Buddhists this book contends that religions do not travel as whole entities but instead that partial elements resonate with different cultures and are appropriated over time **Family in Buddhism** Liz Wilson,2013-08-01 A wide ranging exploration of Buddhism and family in Asia from biological families to families created

in monasteries The Buddha left his home and family and enjoined his followers to go forth and become homeless With a traditionally celibate clergy Asian Buddhism is often regarded as a world renouncing religion inimical to family life This edited volume counters this view showing how Asian Buddhists in a wide range of historical and geographical circumstances relate as kin to their biological families and to the religious families they join Using contemporary and historical case studies as well as textual examples contributors explore how Asian Buddhists invoke family ties in the intentional communities they create and use them to establish religious authority and guard religious privilege The language of family and lineage emerges as central to a variety of South and East Asian Buddhist contexts With an interdisciplinary Pan Asian approach Family in Buddhism challenges received wisdom in religious studies and offers new ways to think about family and society
