Arcane America:

America's Century in Europe Mary Nolan, 2023-09-27 Transnationale Geschichte als Schlüssel zur nationalen Geschichte Amerikanisierung und Antiamerikanismus sind in Deutschland und Europa im 20. Jahrhundert allgegenwärtige sich wandelnde und umstrittene Phänomene gewesen. Sie haben die einzelnen Nationen und die transatlantischen Beziehungen tiefgreifend geprägt. Mary Nolan, Expertin für deutsche und transnationale Geschichte, untersucht, wie die Europäer von amerikanischen Wirtschafts-, Kultur- und Politikmodellen beeinflusst wurden und mit ihnen umgingen. Dabei entstanden hybride Gesellschaften und politische Systeme, die sich manchmal deutlich von den Vereinigten Staaten unterschieden. In jüngerer Zeit aber angesichts von Wirtschaftskrisen und Migrationskrisen und rechtsradikalem Populismus die dortigen Entwicklungen widerspiegeln. Wie die Aufsätze von Mary Nolan zeigen, waren die diplomatischen Beziehungen und die Visionen von der globalen Ordnung eine ständige Quelle transatlantischer Konflikte. Das Gleiche gilt für Fragen zu Frauen, Geschlecht und Sexualität. Die transatlantischen Beziehungen werden häufig auf sehr geschlechtsspezifische Weise erzählt. Nolan zeigt, dass die transnationale Geschichte neue Einblicke sowohl in die nationale Geschichte als auch in die internationalen Beziehungen bietet. Transnational history as a key to national history. Americanization and anti-Americanism have been pervasive, shifting, and contested phenomena in twentieth-century Germany and Europe. They have profoundly shaped individual nations and transatlantic relations. Mary Nolan, a scholar of German and transnational history, investigates how Europeans were influenced by and negotiated with American economic, cultural, and political models, creating hybrid societies and polities that sometimes looked markedly different from the United States but more recently, with economic and migration crises and right radical populism, mirror developments there. As Mary Nolan's essays show, diplomatic relations and visions of the global order have been a persistent source of transatlantic conflict. So too have been questions of women, gender, and sexuality. Transatlantic relations are frequently narrated in highly gendered ways. Nolan demonstrates that transnational history offers new insights into both national histories and international relations. **America's**

European Banks and the American Challenge Stefano Battilossi, Youssef Cassis, 2002 The book provides a fresh historical perspective on the internationalization of banking business and the emergence of the Euro Dollar and Euro Bond markets from the late 1950s to the early 1970s a process which laid the foundations of the subsequent financial globalization Since the mid 1950s multilateralism and rapidly growing trade among OECD countries the gradual though asymmetrical relaxation of exchange controls and the return to external convertibility had sowed the seeds of economic interdependence and financial integration All these factors actively encouraged American and European banks to pursue the expansion of their international business largely free of regulations and controls affecting their domestic activity International banking of the 1960s was also the forge of a restless wave of financial innovations In fact Euro Dollars along with other minor Euro Currencies and Euro Bonds fostered the emergence of fast growing international money and capital markets mainly based in the City of London which rapidly became the new frontier of growth for banking business Aggressive behaviour of American banks in Europe coupled with an efficient

multinational structure and a remarkable degree of financial creativity added a sharp competitive edge to Euro banking Following their multinational customers as much as escaping from cumbersome domestic regulation US banks rapidly attained a dominant position in London while establishing at the same time their footholds on the Continent This volume is based primarily upon largely unexplored archive records and addresses original issues The causes of the primacy of London as an international financial centre are investigated as well as the impact of Euro banking on British clearing banks as a boost towards liability management and business diversification Some wider perspectives are also included which focus on innovative strategies designed by European banks such as consortium banking and other cooperative ventures in response both to the American challenge and to the establishment of the European Community America's Communal Utopias

Donald E. America Mitch Horowitz,2010-10-05 From its earliest days America served as an arena for the revolutions in alternative spirituality that eventually swept the globe Esoteric philosophies and personas from Freemasonry to Spiritualism from Madame H P Blavatsky to Edgar Cayce dramatically altered the nation's culture politics and religion Yet the mystical roots of our identity are often ignored or overlooked Opening a new window on the past Occult America presents a dramatic pioneering study of the esoteric undercurrents of our history and their profound impact across modern life **America's**
