Sustainable Governance in Hybrid Organizations Linne Marie Lauesen,2016-03-03 In Sustainable Governance in Hybrid Organizations the author Linne Marie Lauesen explores how businesses that have succeeded in conducting sustainable governance manage and govern their sustainable performance in other words how they manage to be economically socially and environmentally sustainable In this respect hybrid organizations that are formed as

businesses with a mission to be sustainable and to provide services for society such as water companies are a good point of departure. Water companies are highly regulated whilst working primarily for the betterment of society and on behalf of generations to come for whom clean and plentiful water and the preservation of nature is a must. Linne Marie has dug deep into these types of hybrid organizations in order to reveal which mechanisms of organizational governance for sustainability are at play and how these organizations manage to balance their triple bottom lines in order to survive financially, socially and environmentally and make a business out of their conduct. Balancing these three bottom lines in a sustainable way is explained in a clear and accessible way and the juxtaposition between non profit and for profit water companies will show how this model can be transferred to other business spheres. Planners in Politics Louis Albrechts, 2020-03-28. In this innovative book ten executive politicians with backgrounds in planning from around the world dissect their own political careers. Reflecting on the often structural impact of their work in political decision making they also consider the translation of their experiences back into academic life or professional practice. **Plan Canada**, 2003 **The Planner**, 1988
