Approaches To Moral Development New Research And Emerging Themes:

Approaches to Moral Development Andrew Garrod,1993-01-01 **Conscience** Charles E. Curran,2004 A collection of published articles from progressive to conservative on conscience edited by one of the foremost scholars in the field

The Handbook of Mass Media Ethics Lee Wilkins,Clifford G. Christians,2008-09-17 This Handbook encapsulates the intellectual history of mass media ethics over the past twenty five years Chapters serve as a summary of existing research and thinking in the field as well as setting agenda items for future research Key features include up to date and comprehensive coverage of media ethics one of the hottest topics in the media community one stop shopping for historical and current research in media ethics experienced top tier editors advisory board and contributors It will be an essential reference on media ethics theory and research for scholars graduate students and researchers in media mass communication and journalism

Teaching for Moral Imagination Pamela Bolotin Joseph,2024-04-01 Teaching for Moral Imagination An Interdisciplinary Exploration examines the multifaceted nature of morality and ethics moral development and moral education so to provide educators with a clear yet complex understanding of theories issues practices and curricular content This text is intended to be an accessible work of academic significance that inspires educators deliberation about personal and societal values as well as approaches for fostering children s and adolescents moral development cultivating ethical classrooms and schools and creating transformative moral education curricula Teaching for Moral Imagination will be a pertinent text for teacher preparation courses that specifically focus on the moral dimensions of education as well as more comprehensive classes about teaching teachers and classroom culture Such classes are offered in undergraduate and graduate teacher preparation programs professional studies for experienced teachers educational studies classes in the liberal arts and doctoral seminars for students becoming teacher educators and educational leaders This book also is intended as a source for teachers professional development in schools and for reading groups Finally in our contemporary societies emphasizing extreme individualism competition conformity and prejudice as well as unexamined beliefs leading to violence in words and actions it is crucial to consider how schools can encourage ethical reasoning compassion and transformative alternatives for moral education

ENDORSEMENTS Teaching for Moral Imagination is a remarkable book and a wonderful contribution to the field It is a must read for anyone trying to make sense of the multi faceted moral nature of schooling Everyone who pursues a career in teaching is fundamentally drawn to the moral dimensions of their work but there is little if any emphasis given to those fundamental moral features in teacher preparation programs and teacher professional development In this book Dr Joseph does the difficult work of both conceptualizing the moral domain and illustrating these dimensions in way that will uniquely help teachers and school leaders develop elegant moral language and fully understand their role as moral educators and moral agents It is an outstanding contribution from a scholar who brings the philosophy of morality and the psychology of moral development to bear on life in classrooms Rich Osguthorpe Brigham Young University

In her book *Teaching for Moral Imagination* Pamela Joseph shows profoundly how moral values are embedded in education and in the pedagogical role of teachers Joseph brings together many different perspectives on moral education including philosophical and psychological foundations and develops her interesting own position with a focus on moral imagination She argues for widening ethical perspectives encouraging critical reflection on values stimulating new perspectives about how to be moral human beings and creating just and caring classroom and school communities Joseph's book can inspire teachers and researchers in their work on preparing young people for future society Wiel Veugelers University of Humanistic Studies This is an incredibly complex and wonderful book When you read *Teaching for Moral Imagination* what will become clear is what educators need to learn and do to transform the wider ethical environment all around us This is invaluable reading for all teachers school and district leaders and teacher educators who realise the significance of ethics in education and who seek to critically engage with the potential of human and social moral development Joseph offers a rich vision of interdisciplinary scholarship and on her horizon is nonviolence for all forms of life on the planet The book conceptualises how moral imagination generates powerful insights into individual social and cultural normative diversity and explores a range of transformative moral curricula to grow future generations capacities for tackling complex relations and global challenges

Daniella J Forster University of Newcastle Australia **The Ethics of Parenthood** Norvin Richards, 2010-07-06 In *The Ethics of Parenthood* Norvin Richards explores the moral relationship between parents and children from slightly before the cradle to slightly before the grave Richards maintains that biological parents do ordinarily have a right to raise their children not as a property right but as an instance of our general right to continue whatever we have begun The contention is that creating a child is a first act of parenthood hence it ordinarily carries a right to continue as parent to that child Implications are drawn for a wide range of cases including those of Baby Jessica and Baby Richard prenatal abandonment babies switched at birth and sent home with the wrong parents and families separated by war or natural disaster A second contention is that children have a claim of their own to have their autonomy respected and that this claim is stronger the better the grounds for believing that what the child's actions express is a self of the child's own A final set of chapters concern parents and their grown children Views are offered about what duties parents have at this stage of life about what is required in order to treat grown children as adults and about what obligations grown children have to their parents In the final chapter Richards discusses the contention that parents sometimes have an obligation to die rather than permit their children to make the sacrifices needed to keep them alive arguing that a leading view about this undervalues both love and autonomy

Becoming and Being a Physician Shmuel P. Reis, Adina L. Kalet, W. Wayne Weston, 2025-04-14 What does I am a doctor mean currently Structured around personal stories this book provides a rigorous review of current thinking and research on the physician's life cycle The book considers the trajectories and factors that influence a doctor's development over decades of a medical career Taking an integrated approach the authors consider the formal stages of a physician's training including

medical school residency training and practice and review discourses around professionalism competency based education lifelong learning expertise development reflection and narrative that merge into the construct of medical professional identity formation Reflecting the dramatic changes that have occurred in the physician s role job description and reality of modern clinical practice further compounded by the pandemic this new book will support and encourage medical educators to ensure that the enduring values of the medical profession prevail **The Moral Media** Lee Wilkins, Renita Coleman, 2005-01-15

The Moral Media provides readers with preliminary answers to questions about ethical thinking in a professional environment Representing one of the first publications of journalists and advertising practitioners response to the Defining Issues Test DIT this book compares thinking about ethics by these two groups with the thinking of other professionals This text is divided into three parts Part I includes chapters that explain the DIT and place it within the larger history of three fields psychology philosophy and mass communication It also provides both a statistical quantitative and narrative qualitative analysis of journalists responses to the DIT Part II adds to scholarship theory building in these three disciplines and makes changes in the DIT that adds an element of visual information processing to the test Part III explores the larger meaning of this effort overall and links the results to theory and practice in these three fields The Moral Media pursues connections among various intellectual disciplines between the academy and the profession of journalism and among those who believe that what journalists do is essential As a result this book is appropriate for aspiring journalists scholars in journalism and mass communication psychologists particularly those interested in human development and behavior and philosophers *First Time Up* Brock Dethier, 2008-09-30

First time up an insider s friendly question from 1960s counter culture perfectly captures the spirit of this book A short supportive practical guide for the first time college composition instructor the book is upbeat wise but friendly casual but knowledgeable like the voice that may have introduced you to certain other firsts With an experiential focus rather than a theoretical one First Time Up will be a strong addition to the newcomer s professional library and a great candidate for the TA practicum reading list Dethier author of The Composition Instructor s Survival Guide and From Dylan to Donne directly addresses the common headaches nightmares and epiphanies of composition teaching especially the ones that face the new teacher And since legions of new college composition teachers are either graduate instructors TAs or adjuncts without a formal background in composition studies he assumes these folks as his primary audience Dethier s voice is casual but it conveys concern humor experience and reassurance to the first timer He addresses all major areas that graduate instructors or new adjuncts in a writing program are sure to face from career anxiety to thoughts on grading and keeping good classroom records Dethier s own eclecticism is well represented here but he reviews with considerable deftness the value of contemporary scholarship to first time writing instructors many of whom will be impatient with high theory Throughout the work he affirms a humane confident approach to teaching along with a true affection for college students and for teachers just learning to deal with them **The Routledge Handbook of Mass**

Media Ethics Lee Wilkins, Clifford G. Christians, 2020-03-13 This fully updated second edition of the popular handbook provides an exploration of thinking on media ethics bringing together the intellectual history of global mass media ethics over the past 40 years summarising existing research and setting future agenda grounded in philosophy and social science This second edition offers up to date and comprehensive coverage of media ethics including the ethics of sources social media the roots of law in ethics and documentary film The wide range of contributors include scholars and former professionals who worked as journalists public relations professionals and advertising practitioners They lay out both a good grounding from which to begin more in depth and individualized explorations and extensive bibliographies for each chapter to aid that process For students and professionals who seek to understand and do the best work possible this book will provide both insight and direction Standing apart in its comprehensive coverage The Routledge Handbook of Mass Media Ethics is required reading for scholars graduate students and researchers in media mass communication journalism ethics and related areas
