Arabic Parts In Astrology Lost Key To Prediction:

The Arabic Parts in Astrology Robert Zoller, 1989-05-01 Dating from antiquity the doctrine of the Arabic parts has been virtually lost to Western astrological practice since the 17th century In his book Robert Zoller retrieves this valuable key to prediction and provides a clear and simple guide to its practical application The Arabic parts enable the astrologer to investigate the inner meaning of the horoscope and thus to go beyond the outer aspects expressed by the arrangement of the planets signs and houses The first section of the book explains how fate or karma can be understood through the parts and the esoteric nature of number The second section includes a translation of the 13th century Latin text on the parts by the famed court astrologer Bonatti this work includes the basic ninety seven parts dealing with all areas of life from war commodities speculation and professional life to marriage and partnerships in addition to the seventy three parts from various medieval sources In the third section of the book the author illustrates the practical use of the parts in natal horary and mundane astrology His understanding of the parts and their place in a comprehensive interpretation of any horoscope is presented with lucidity and insight unraveling for the reader this fascinating and long neglected astrological science [The Lost Key to Prediction](#) Robert Zoller, Guido Bonatti, 1980-01-01 **The Arabian Parts Decoded** Lind Weber, 2007-03 An all encompassing work on the ancient techniques of the Arabian parts also called Points Lots Fortunes The author thoroughly explains how to formulate the Arabian Parts for any event or question their use in natal charts in forecasting *Hellenistic Astrology* Chris Brennan, 2017-02-10 Hellenistic astrology is a tradition of horoscopic astrology that was practiced in the Mediterranean region from approximately the first century BCE until the seventh century CE It is the source of many of the modern traditions of astrology that still flourish around the world today although it is only recently that many of the surviving texts of this tradition have become available again for astrologers to study Hellenistic Astrology The Study of Fate and Fortune is one of the first comprehensive surveys of this tradition in modern times The book covers the history philosophy and techniques of ancient astrology with a special focus on demonstrating how many of the fundamental concepts underlying the practice of western astrology originated during the Hellenistic period , **Esoteric Astrology** Alan Leo, 1978-03 For the first time in the history of astrology an entirely new method of reading horoscopes is given The individual and personal stars of all individuals are explained by a series of star maps showing how the age of the soul may be astrologically discovered Complete instructions are provided for creating a star map from a horoscope *The Integrated Astrological Guide to Self-Empowerment* Edmond H.
