Future Home provides a comprehensive horizon scan of what our homes may be like approximately ten years from now by looking for early signs of potentially important developments through a systematic examination of trends, innovations, and disruptors. The authors consider what aspects of the home are likely to remain constant and what aspects may change beyond all recognition and if changes are predicted, what form they may take and most importantly, what this means for design professionals. Exploring areas of buildings and technology, people, and delivery, each chapter addresses the catalysts, natures, and responses to these changes.
