Schweik, 2009-05 In the late 19th and early 20th centuries municipal laws targeting unsightly beggars sprang up in cities across America This book uncovers the murky history behind the laws situating the varied legislation in its historical context and exploring the details of the laws

A Postcolonial People Nasreen Ali, Salman Sayyid, 2006 This is a critical survey of contemporary South Asian Britain The book combines analysis with empirically rich studies to map out the diversity of the British Asian way of life The contributors provide insights information on the Asian British experience in its socio economic cultural dimensions

Dundee celebrities of the nineteenth century: being a series of biographies of distinguished or noted persons connected by birth, residence, official appointment, or otherwise, with the town of Dundee; and who have died during the present century, 1873 London Labour and the London Poor Henry Mayhew, 2009-01-01 Assembled from a series of newspaper articles first published in the newspaper Morning Chronicle throughout the 1840s this exhaustively researched richly detailed survey of the teeming street denizens of London is a work both of groundbreaking sociology and salacious voyeurism In an 1850 review of the survey just prior to its initial book publication William Makepeace Thackeray called it tale of terror and wonder offering a picture of human life so wonderful so awful so piteous and pathetic so exciting and terrible that readers of romances own they never read anything like to it Delving into the world of the London street folk the buyers and sellers of goods performers artisans laborers and others this extraordinary work inspired the socially conscious fiction of Charles Dickens in the 19th century as well as the urban fantasy of Neil Gaiman in the late 20th Volume IV explores the lives of prostitutes swindlers thieves beggars English journalist HENRY MAYHEW 1812 1887 was a founder and editor of the satirical magazine Punch **London Labour and the London Poor; a Cyclopaedia of the Condition and Earnings of Those that Will Work, Those that Cannot Work, and Those that Will Not Work** Henry Mayhew, 1862

Bureaucrats and Beggars Thomas McStay Adams, 1991-01-31 In the mid eighteenth century in France the royal authorities launched a new campaign to sweep beggars from the streets pinning their hopes on the creation of a uniform royal network of lock ups in which anyone found begging might be detained In this study Adams probes the accomplishments and the failings of these so called d p ts de mendicit as seen by critics of the experiment including learned judges and influential spokesmen of the provincial Estates and as seen by those responsible for its success the provincial intendants the royal engineers the doctors the inspectors the contractors and various givers of advice He shows how the debate both internal and external over the operation of the d p ts contributed to the intellectual ferment of the Enlightenment and the Revolution The resulting web of reasoning and empirical data gave support to Montesquieu s principle that the state owes every one of its citizens a secure subsistence suitable food and clothing and a manner of life that is not contrary to good

health *A History of Vagrants and Vagrancy, and Beggars and Begging* Charles James Ribton-Turner, 1887 *Machines*
Abraham P. DeLeon, 2015-01-01 This book is about machines those that have been actualized fantastical imaginal machines to those deployed as metaphorical devices to describe complex social processes Machines argues that they transcend time and space to emerge through a variety of spaces and places times and histories and representations They are such an integral fabric of daily reality that their disappearance would have immediate and dire consequences for the survival of humanity They are part and parcel to our contemporary social order From labor to social theory art or consciousness literature or television to the asylums of the 19th century machines are a central figure an outgrowth of affective desire that seeks to transcend organic limitations of bodies that whither age and die Machines takes the reader on an intellectual artistic and theoretical journey weaving an interdisciplinary tale of their emergence across social cultural and artistic boundaries With the deep engagement of various texts Machines offers the reader moments of escape alternative ways to envision technology for a future yet to materialize Machines rejects the notion that technological innovations are indeed neutral propelling us to think differently about those things created under specific economic or historical paradigms Rethinking machines provides a rupture to our current technocratic impetus shining a critical light on possible alternatives to our current reality Let us sit back and take a journey through Machines holding mechanical parts as guides to possible alternative futures
