SWIMMING SAFETY TIPS

Swim in designated areas closely supervised or monitored.

Always swim with a buddy; do not allow anyone to swim alone.

Maintain constant supervision especially on children.

Pay close attention especially to children and elderly persons when at the beach. Even in shallow water, wave action can cause a loss of footing.

Never leave a young child unattended near water and do not trust a child's life to another child. Teach the children to always ask permission to go near the water.

Have young children or inexperienced swimmers wear approved life jackets around water, but do not rely on life jackets alone.

Make sure everyone in your family learns to swim well. Enroll in age-appropriate swimming orientation and swimming courses.

If you have a pool, secure it with appropriate barriers. Many children who drown in home pools were out of sight for less than five minutes and in the care of one or both parents at the time.

Protect your skin. Limit the amount of direct sunlight you receive between 10:00 AM and 4:00 PM and wear sunscreen with a protection factor of at least 15.

Drink plenty of water regularly, even if you're not thirsty. Avoid drinks with alcohol or caffeine in them.

Don't dive headfirst—protect your neck. Check for depth and obstructions before diving, and go in feet first the first time.
