Behind Moroccan Walls:

Behind Moroccan Walls Henriette Celarié, 1931 This volume contains a selection of short stories from two volumes by Mme Henriette Celarie They are sketches more than short stories attempting to show without preamble cross sections of native Moroccan women's lives as told to and discovered by the alertly interested wife of a French officer living for years in that country Each story is rigorously true Differing perhaps from the usual romantic picture their flavor of reality can be even more impressive This is Morocco static fluid potential Foreword

Behind Moroccan Walls Henriette Celarie, 2013-10 This is a new release of the original 1931 edition

Crystal Balls and Moroccan Walls David Fletcher, 2014-08-28 With his wife Sandra Brian was in a party of Nature seekers amateur naturalists who had the previous day flown in from faraway Sussex and who were on their way to southern Morocco for a bit of desert birding and a bit of African sun They had now stopped in a village called Taddert for their first Maroc lunch and so far it had all been a bit well a bit dispiriting Crystal Balls and Moroccan Walls is another irreverent and provocative account of an expedition made by Brian and his wife this time to that part of Morocco that lies to the south of the Atlas Mountains However it is also a prognostication Southern Morocco doesn't live up to Brian's expectations So to brighten the dismal prospect of a dismal trip through the desert Brian refers to a series of crystal balls from which he is able to forecast the state of Britain in just forty years time This means that there is still a consideration of the merits of tajines a description of fat sand rats and a thorough assessment of all those Moroccan walls but there is also so much more For example there is an explanation of how Scotland by mid century has changed its name to Trumpland and how its southern neighbour by this same time has begun to sell itself to potential visitors from the Far East as Ye Olde Solde Offe England There is even a review of some of the latest film offerings by this date such as No Great Expectations This unusual work is the penultimate book in David's seven part series that details Brian and Sandra's travels to Assam Syria Borneo Cape Verde Namibia Botswana Morocco and Zambia It is book number one in David's shameless subversion of the travel book genre

The Age of Walls Tim Marshall, 2018-10-09 Tim Marshall the New York Times bestselling author of Prisoners of Geography offers a readable primer to many of the biggest problems facing the world Daily Express UK by examining the borders walls and boundaries that divide countries and their populations The globe has always been a world of walls from the Great Wall of China to Hadrian's Wall to the Berlin Wall But a new age of isolationism and economic nationalism is upon us visible in Trump's obsession with building a wall on the Mexico border in Britain's Brexit vote and in many other places as well China has the great Firewall holding back Western culture Europe's countries are walling themselves against immigrants terrorism and currency issues South Africa has heavily gated communities and massive walls or fences separate people in the Middle East Korea Sudan India and other places around the world In fact more than a third of the world's nation states have barriers along their borders Understanding what is behind these divisions is essential to understanding much of what's going on in the world today Written in Tim Marshall's brisk

inimitable style The Age of Walls is divided by geographic region He provides an engaging context that is often missing from political discussion and draws on his real life experiences as a reporter from hotspots around the globe He examines how walls borders and barriers have been shaping our political landscape for hundreds of years and especially since 2001 and how they figure in the diplomatic relations and geo political events of today Marshall is a skilled explainer of the world as it is and geography buffs will be pleased by his latest Kirkus Reviews Accomplished well researched and pacy The Age of Walls is for anyone who wants to look beyond the headlines and explore the context of some of the biggest challenges facing the world today it is a fascinating and fast read City AM UK [Hired Daughters](#) Mary Montgomery,2019-02-19 Hired Daughters examines a fading tradition of domestic service in which rural girls familiar to ordinary Moroccan families were placed in their homes until marriage In this tradition of bringing up the girls are considered daughters of the house and part of their role in the family is to help with the housework Gradually this tradition is transforming into one in which workers unfamiliar to their host families are paid a wage and may not stay long but where the Islamic ethics of charity religious reward and gratitude still inform expectations on both sides Mary Montgomery examines why Moroccans so often talk about their domestic workers as daughters what this means for workers and employers and how this is changing in contemporary Morocco Prioritizing the experiences and perspectives of these women Montgomery charts the tension that has developed between socially embedded loyal domestic workers who operate within narratives of kinship and obligation and women who seek greater individualization privacy and self empowerment Hired Daughters offers a nuanced understanding of a world that bridges public and private morality and money family and outsiders In doing so it provides an intimate consideration of contemporary Moroccan households as economic enterprises and sites of navigation between the traditional and the global [Architectural Record](#) ,1927 [World of Walls](#) Said Saddiki,2017-10-09 We re going to build a wall Borders have been drawn since the beginning of time but in recent years artificial barriers have become increasingly significant to the political conversation across the world Donald Trump was elected President of the United States while promising to build a wall on the Mexico border and in Europe the international movements of migrants and refugees have sparked fierce discussion about whether and how countries should restrict access to their territory by erecting physical barriers Virtual walls are also built and crushed at increasing speed In the post 9 11 era there is a greater danger from so called transnational non state actors and computer hacking and cyberterrorism threaten to overwhelm our technological barriers In this timely and original book Said Saddiki scrutinises the physical and virtual walls located in four continents including Israel India the southern EU border Morocco and the proposed border wall between Mexico and the US Saddiki s detailed analysis explores the tensions between the rise of globalisation which some have argued will lead to a borderless world and the end of the nation state and the rapid development in recent decades of border control systems Saddiki examines both regular and irregular cross border activities including the flow of people goods ideas drugs weapons capital and information and explores the disparities that

are reflected by barriers to such activities He considers the consequences of the construction of physical and virtual walls including their impact on international relations and the rise of the multi billion dollar security market World of Walls The Structure Roles and Effectiveness of Separation Barriers is important reading for all those interested in the topics of immigration border security international relations and policy **500 Years of Illustration** Howard Simon,2013-06-13 Unrivalled treasury of art from the 1500s through the 1900s includes drawings by Goya Hogarth D rer Morris Dor Beardsley others Hundreds of illustrations brief introductions Ideal as reference and browsing book Morocco Pierre Loti,2013-10-15 First Published in 2002 Pierre Loti was a member of a diplomatic mission to the Sultan of Morocco at Fez and in this book he gives us an extraordinarily fascinating account of the journey The departure of the caravan from Tangier the encampments the nightly arrival of the Mouna the crossing of the Oued M Cazen in flood the fantasies and powder play of the Arab horsemen and the magnificent state entry into Fez are described in a succession of vivid vignettes Many Days in Morocco John Horne,1925 The author describes the country as a strange mixture of North and South East and West Europe and Africa Mosques have the pointed roofs of Europe in place of the gleaming domes of the East minarets are square and thick instead of found and tapering the multitude of storks nests on pinnacle and tower seem more appropriate to Germany than to Africa Morocco may well be called the land of paradox Mr Home weaves into the account of his own travels and adventures much interesting information on the history and customs of the people He devotes one chapter to Xauen a mountain stronghold on the edge of the Riff Many of its inhabitants are descendants of the Moors who once overran the southern provinces of Spain and the town still gives a faithful picture of what Moorish Granada must have been in the fifteenth century The British Medical Journal Jan 9 1937 p 76
