Behavioral Assessment Of Severe Developmental Disabilities:

Behavioral Assessment of Severe Developmental Disabilities Michael D. Powers, Jan S. Handleman, 1984 Severe Behavior Problems Vincent Mark Durand, 1990-11-01 Problem behaviors often compound the already difficult task of improving the lives of persons with severe disabilities This important volume representing the culmination of more than a decade of clinical research presents the first complete description of the procedures used in Functional Communication Training a positive approach for reducing severe behavior problems The procedures described in this book have been validated by numerous empirical studies for use with children adolescents and adults who display behaviors as diverse as aggression self injury tantrums and bizarre psychotic speech Functional Communication Training involves teaching students how to communicate those basic wants and needs that they have previously sought to have fulfilled via their problem behavior They are taught to replace their challenging behavior with learned communication skills This book provides the practitioner with step by step instructions for implementing this effective approach A variety of assessment strategies are reviewed and described to assist in determining appropriate interventions The Motivation Assessment Scale one device designed to assess the function of problem behavior is outlined in detail and is accompanied with guidelines for its administration and interpretation Communication training is then detailed and illustrated using speech sign language and augmentative systems as examples Numerous case examples throughout illuminate both the assessment and intervention strategies Providing clear direction for ameliorating complex behavior problems this book will be valued by psychologists behavior analysts special educators and speech and language therapists It can be used as a text for advanced undergraduate courses on behavior management in psychology and special education and also serves as supplementary reading for courses on behavior modification or mental retardation developmental disabilities Severe Behavior Disorders in the Mentally Retarded Rowland P. Barrett, 2013-11-22 It is well known that behavior problems are a salient characteristic of children and adults with mental retardation That is not to say that all persons with mental retardation experience behavior disorders however most studies indicate that the incidence of emotional disturbance in this population is four to six times greater than that observed in similar intellectually nonhandicapped children and adults It is equally well known that the principal form of treatment accorded clients with mental retardation and behavior disorders is pharmacotherapy or the prescription of behavior modifying drugs Recent studies show that 6 out of every 10 individuals with mental retardation have been prescribed drugs as treatment for disorders of emotion or behavior Unfortunately further studies indicate that only one or 2 out of every 10 clients receiving medication are determined to be responders such that some therapeutic benefit is derived from their drug treatment As noted by the title the single major thrust of this volume is to review approaches to the treatment of behavior disorders in persons with mental retardation from a nondrug perspective This requires the presentation of a wide range of material on treatment basic behavior modification programming cognitive behavioral

strategies habilitative approaches counseling and psychotherapy designing therapeutic living environments managing medical factors bearing relevance to emotional illness intervening with families training special education teachers and direct care staff and supplying information on the client's rights to obtain treatment in the least restrictive and least intrusive manner
