**Understanding Children's Language and Literacy** Penny Mukherji, Teresa O'Dea, 2000 This text aims to assist in the understanding of the way in which children's language and literacy develops. It outlines all the key issues in the area and explains the nature of language, the theories and sequences of language development and the development of reading, writing, listening and speaking skills. The book also includes chapters on bilingualism, communication problems and working with the child who is deaf.

**Supporting Children's Learning in the Early Years** Linda Miller, Jane Devereux, Carrie Cable, Gill Goodliff, 2014-12-05 Supporting Children's Learning in the Early Years is aimed at early years practitioners who are developing their knowledge and understanding of professional practice through studying at undergraduate level. The book encourages readers to consider their professional development as reflective practitioners building on and supporting the government agenda to provide quality provision for young children and their families. Combining theory and practice and bringing together current research and thinking in a broad range of areas, the book covers Learning environments, young children as learners, assessment of learning, well-being and children's rights, diversity and inclusion, Learning and development, children's development including social and emotional development, literacy and mathematical development, the potential of ICT, fostering creativity, musical development and knowledge and understanding of the world, Reflective practice, the learning environment, safeguarding and well-being, the reflective practitioner. Throughout the contributions in this book encourage the reader to consider the diverse range of experiences which young children bring to early years and early primary settings and suggest ways in which they can be supported. The book will also be a valuable and unique resource for training providers of a range of courses at further and higher education level that prepare people to work with and lead in early years settings in the UK.

**Talking the Talk** Trevor A. Harley, 2017-02-02 Talking the Talk provides a comprehensive introduction to the psychology of language written for the reader with no background in the field or any prior knowledge of psychology. Written in an accessible and friendly style, the book answers the questions people actually have about language: how do we speak, listen, read and learn language? The book advocates an experimental approach explaining how psychologists can use experiments to build models of language processing. Considering the full breadth of psycholinguistics, the book covers core topics including how children acquire language, how language is related to the brain and what can go wrong with it. Fully updated throughout, this edition also includes additional coverage on the genetics of language, insight into potential cognitive advantages of bilingualism, new content on brain imaging and neuroscience. Increased emphasis on recursion and what is special about language. Talking the Talk is written in an engaging style which
