Victoria Pade

Bachelors Family:

The History of the Grubthorpe Family, Or The Old Bachelor and His Sister Penelope Rachel Hunter, 1802 *The Age of the Bachelor* Howard P. Chudacoff, 2020-12-08 In this engaging new book Howard Chudacoff describes a special and fascinating world the urban bachelor life that took shape in the late nineteenth century when a significant population of single men migrated to American cities Rejecting the restraints and dependence of the nineteenth century family bachelors found sustenance and camaraderie in the boarding houses saloons pool halls cafes clubs and other institutions that arose in response to their increasing numbers Richly illustrated anecdotal and including a unique analysis of *The National Police Gazette* the most outrageous and popular men s publication of the late nineteenth and the early twentieth century this book is the first to describe a complex subculture that continues to affect the larger meanings of manhood and manliness in American society The figure of the bachelor with its emphasis on pleasure self indulgence and public entertainment was easily converted by the burgeoning consumer culture at the turn of the century into an ambiguously appealing image of masculinity Finding an easy reception in an atmosphere of insecurity about manhood that image has outdistanced the circumstances in which it began to flourish and far outlasted the bachelor culture that produced it Thus the idea of the bachelor has retained its somewhat negative but alluring connotations throughout the rest of the twentieth century Chudacoff s concluding chapter discusses the contemporary singles scene now developing as the number of single people in urban centers is again increasing By seeing bachelorhood as a stage in life for many and a permanent status for some Chudacoff recalls a lifestyle that had a profound impact on society evoking fear disdain repugnance and at the same time a sense of romance excitement and freedom The book contributes to gender history family history urban history and the study of consumer culture and will appeal to anyone curious about American history and anxious to acquire a new view of a sometimes forgotten but still influential aspect of our national past *A Camden Family Wedding* Victoria Pade, 2014 Wedding planner Vonni Hunter and bachelor Dane Camden meet while planning his grandmother s wedding and with bad business blood between their families both try to resist their mutual attraction **Library of Congress Subject Headings** Library of Congress, Library of Congress. The Bachelor of the Albany. By the Author of "The Falcon Family" [i.e. M. W. Savage]. , 1848 [Citizen Bachelors](#) John Gilbert McCurdy, 2011-03-15 In 1755 Benjamin Franklin observed a man without a wife is but half a man and since then historians have taken Franklin at his word In *Citizen Bachelors* John Gilbert McCurdy demonstrates that Franklin s comment was only one side of a much larger conversation Early Americans vigorously debated the status of unmarried men and this debate was instrumental in the creation of American citizenship In a sweeping examination of the bachelor in early America McCurdy fleshes out a largely unexamined aspect of the history of gender Single men were instrumental to the

settlement of the United States and for most of the seventeenth century their presence was not particularly problematic. However as the colonies matured Americans began to worry about those who stood outside the family. Lawmakers began to limit the freedoms of single men with laws requiring bachelors to pay higher taxes and face harsher penalties for crimes than married men while moralists began to decry the sexual immorality of unmarried men. But many resisted these new tactics including single men who reveled in their hedonistic reputations by delighting in sexual horseplay without marital consequences. At the time of the Revolution these conflicting views were confronted head on. As the incipient American state needed men to stand at the forefront of the fight for independence the bachelor came to be seen as possessing just the sort of political social and economic agency associated with citizenship in a democratic society. When the war was won these men demanded an end to their unequal treatment sometimes grudgingly and the citizen bachelor was welcomed into American society. Drawing on sources as varied as laws diaries political manifestos and newspapers McCurdy shows that in the course of the seventeenth and eighteenth centuries the bachelor was a simultaneously suspicious and desirable figure suspicious because he was not tethered to family and household obligations yet desirable because he was free to study devote himself to political office and fight and die in battle. He suggests that this dichotomy remains with us to this day and thus it is in early America that we find the origins of the modern day identity of the bachelor as a symbol of masculine independence. McCurdy also observes that by extending citizenship to bachelors the founders affirmed their commitment to individual freedom a commitment that has subsequently come to define the very essence of American citizenship.

Family Herald ,1844

The Migration of Professional Women from Nigeria to the UK Joy Ogbemudia,2022-07-29 Based on interviews with women who were professionals in different fields in Nigeria prior to migrating *The Migration of Professional Women from Nigeria to the UK* examines the ways in which professional middle class women make sense of their lived experiences their roles in migration decision making and their experiences of adaptation in the UK. Drawing on the thought of Mead on the symbolic reconstruction of the past from the standpoint of the present and employing a feminist approach to qualitative research the book considers the reflexive construction of women s narratives concerning their lived experiences in Nigeria and sheds light on their decisions to migrate. Using intersectionality and critiquing the concept of Strong Black Woman the author analyses participants narratives of integration adaptation and work and family life in the UK. Rejecting the notion of culture shock as a means of explaining immigrants early experiences the use of a person by situation approach is proposed to accommodate the nuances of individual narratives. A rich theoretically informed study of the narratives of skilled migrants whose experiences are often subsumed into studies of African migration more broadly this volume will appeal to scholars of sociology anthropology and cultural geography with interests in migration gender and the sociology of work and family life.

The Family among the Australian Aborigines Bronislaw Malinowski,2020-08-06 Reproduction of the original *The Family among the Australian Aborigines* by Bronislaw Malinowski
