Bachs Kunst Der Fuge:

Bach's the Art of Fugue & a Companion to the Art of Fugue Donald Francis Tovey, András Schiff, Eric Wen, 2013-01-01 Complete score of The Art of Fugue plus extensive commentary features all 14 fugues plus the four canons The commentary outlines the fugues contrapuntal devices and offers keen observations on the composer's craftsmanship

Rethinking J.S. Bach's The Art of Fugue Anatoly Milka, 2016-09-13 The enigmatic character of The Art of Fugue became apparent as early as in its first edition printed more than a year after the composer's death Carl Philipp Emanuel Bach who published both the first and the second editions raised several unsolved questions regarding this opus Anatoly P Milka presents a consistent and coherent solution to the unresolved questions about the history structure and appearance of J S Bach's The Art of Fugue opening new perspectives for further exploration of this musical masterpiece Milka challenges the present scholarly consensus that there exist two different versions of The Art of Fugue the Autograph and the Original Edition and argues that Bach had considered four versions of which only two are apparent and have been discussed so far Only Bach's illness and death prevented him from fulfilling his plan and publishing a fourth conclusive version of his opus

Bach's Testament Zoltán Göncz, 2012-12-19 Written late in his life J S Bach's The Art of Fugue has long been admired in some quarters revered as one of his masterworks Its last movement Contrapunctus 14 went unfinished and the enigma of its incompleteness still preoccupies scholars and musical conductors alike In 1881 Gustav Nottebohm discovered that the three subjects of the movement could be supplemented by a fourth In 1993 Zoltán Göncz revealed that Bach had planned the passage that would join the four subjects in an entirely unique way This section has not survived but as Göncz notes it must have been ready in the earliest phase of composition since Bach had created the expositions of the first three subjects from its disjointed parts Göncz then boldly took on the task of reconstructing the original template by putting together the once separate pieces In *Bach's Testament On the Philosophical and Theological Background of The Art of Fugue* Göncz probes the philosophic theological background of The Art of Fugue revealing the special structures that supported the 1993 reconstruction *Bach's Testament* investigates the reconstruction's metaphysical dimensions focusing on the quadruple fugue As a summary of Zoltán Göncz's extensive research over many years which resulted in the completion of the fugue this work explores the complex combinatorial philosophical and theological considerations that inform its structure *Bach's Testament* is ideally suited not only to Bach scholars and musicologists but also intellectual historians with particular interests in 18th century religious and philosophical ideas *Johann Sebastian Bach's Die Kunst Der Fuge, BWV 1080* Johann Sebastian Bach, 2001

J.S. Bach's The Art of Fugue Hans Heinrich Eggebrecht, 1993 In this text the author develops a new interpretation of J S Bach's The Art of Fugue based on a profound knowledge of Baroque era thought and intense score study Starting with the work's celebrated BACH theme he attempts to show that The Art of Fugue contains an assertion of the composer's deeply held faith and that aspects of Bach's spiritual convictions permeate the entire musical fabric of the work

The author postulates that The Art of Fugue is actually a musical representation of Bach's beliefs about the God-human relationship and argues that the Christian doctrine of salvation by grace is the core concept that provides the work with its expressive content in much the same way that the opening ground theme subject acts as a basic generating source for all subsequent musical materials. Although The Art of Fugue is regarded by the musical world as one of the most significant examples of Bach's contrapuntal craft, the author convincingly argues that this work has an important spiritual dimension that goes beyond considerations of the composer's craftsmanship. He devotes this book to a lively and controversial discussion of unprovable matters that is to those aspects of expressive content which he believes are concealed both within and beyond the musical materials.

Bach's Die Kunst Der Fuge Adel Heinrich, 1983 Johann Sebastian Bach's Die Kunst der Fuge Johann Sebastian Bach, 2001 This edition includes commentaries on all movements, 14 fugues and 4 canons as well as suggested cadenzas for the Canone alla decima, a comparative study of nine available keyboard completions of the final fugue, and a discussion of the B A C H motif as found in the Art of Fugue. The book is also a keyboard edition with a new approach to suggested pedal parts which can be used by pianists and harpsichordists as well as organists.

The Art of Fugue (Die Kunst Der Fuge) [of] J.S. Bach Donald Francis Tovey, 1931 **Johann Sebastian Bach** Roswitha Traimer, 1966

Johann Sebastian Bach's Art of Fugue Ewald Demeyere, 2013 This book by a leading Bach performer is designed to provide a practical guide to the performance of the Art of Fugue.
